Brigadier General Michael T. Venerdi  
The Adjutant General and Director of  
Emergency Management & Homeland Security

Laura Kelly, Governor

September 16, 2024

Mr. Adam Proffitt, Director of the Budget  
Division of the Budget  
900 SW Jackson, Suite 504  
Topeka, Kansas 66612

Dear Mr. Proffitt:

As The Adjutant General, I hereby submit for your consideration the Fiscal Year 2025 and 2026 budget document for the Department. Our budget has been prepared in accordance with the instructions transmitted with your letter dated July 9, 2024. To the best of my knowledge and belief, the information and explanations included in this budget request are correct and complete.

My staff and I are prepared to provide any additional information which you or our budget analyst may require.

Sincerely,

A handwritten signature in blue ink, appearing to read "M.T. Venerdi", with a long horizontal flourish extending to the right.

MICHAEL T. VENERDI  
Brigadier General, ANG  
The Adjutant General

**DEPARTMENT MISSION:**

The Adjutant General's Department mission is two-fold: to serve and protect the people of Kansas and to answer the nation's call when needed. The Adjutant General's Department includes the Kansas Army National Guard and Kansas Air National Guard, Kansas Division of Emergency Management, Kansas Homeland Security, and for administrative purposes the Civil Air Patrol. When our local Kansas communities need us, the Kansas Department of Emergency Management provides leadership and coordinates resources to use the strengths of the Kansas National Guard, Civil Air Patrol, Kansas Homeland Security and state agencies to protect and preserve life, property, public health, safety, peace and order. When the nation calls, the Kansas National Guard mobilizes and deploys across the globe to fight as part of America's Army and Air Force.

**OPERATIONS:**

The Adjutant General's Department has general responsibility for operation of the Kansas Army and Air National Guard, and the emergency management and planning activities of the state and homeland security. The Adjutant General is appointed by the Governor and serves as Chief of Staff of the Military Division (Kansas National Guard), Director of the Division of Emergency Management, the Kansas Director of Homeland Security, and provides administrative support to the Kansas Civil Air Patrol.

The Adjutant General administers the joint federal-state program that is the Kansas Army and Air National Guard. Military equipment for the troops and units of the Kansas Guard is furnished by the U.S. Department of Defense through the National Guard Bureau. Federal control is exercised over military strength and mobilization of the Kansas Guard. State personnel are employed in both administrative and maintenance jobs in armories and maintenance shops. The Kansas Air National Guard is organized into two commands: the 184th Air Refueling Wing, based at McConnell Air Force Base in Wichita, and the 190<sup>th</sup> Air Refueling Wing at Forbes Field in Topeka. The Kansas Army National Guard is made up of five major subordinate commands: the 35<sup>th</sup> Infantry Division at Fort Leavenworth, the 130<sup>th</sup> Field Artillery Brigade at Manhattan, the 69<sup>th</sup> Troup Command at Topeka, the 635<sup>th</sup> Regional Support Group at Topeka, and the 235<sup>th</sup> Training Regiment at Salina.

The Kansas Division of Emergency Management is charged with preparing for the execution of all designated emergency functions that help to prevent or minimize human injury and repair property damage resulting from disasters. The division develops and maintains a state emergency operating plan and coordinates local emergency planning and statewide disaster relief. Emergency planning and relief coordination include an emphasis on rapid response capabilities and training for accidents involving hazardous materials. The division also provides radiological defense system maintenance and nuclear weapons defense planning.

The Kansas Civil Air Patrol provides the citizens of the state with a well-trained, organized and disciplined group of volunteers that can provide cost-effective emergency services through the utilization of volunteer personnel and assets of the Kansas Wing of the Civil Air Patrol.

**BACKGROUND:**

Although the state officially created the Adjutant General's Department in 1861, the mission of ensuring the public safety and security of Kansans actually began in 1855 in the Kansas Territory. Today, the Department administers a joint State/Federal program that provides for the readiness of the Kansas Army and Air National Guard, the implementation of statewide Emergency Management programs and a wide variety of Homeland Security initiatives for Kansas. The Department has two divisions to administer these programs, the Military Division for administration of the National Guard and the Division of Emergency Management for administration of emergency readiness programs and Homeland Security. These organizational entities are supported by a staff of state employees employed within the classified and unclassified service, and full-time federal employees appointed by the Adjutant General to perform duties associated with the federal and state mission of the Kansas National Guard.

The Governor serves as the Commander-In-Chief of the Kansas National Guard and appoints the Adjutant General who commands the Kansas National Guard, serves as Director of Kansas Emergency Management and also the Director of Kansas Homeland Security. He has jurisdictional authority and exercises state control over both state and federal employees who work in the department staff offices. Approximately 7,000 members of the Kansas National Air and Army Guard work full-time at their civilian jobs and perform federal military duty on scheduled training weekends and summer camps.

With continued deployment of the National Guard in support of the Global War on Terror and with response to major disasters that include ice storms, snow storms, flooding, tornadoes, wind damage, fires, and other severe storms, the National Guard has truly experienced an unprecedented level of demand for its unique capabilities.

As public safety department, the Adjutant General's Department provides critical disaster-related services during winter storms, floods, tornadoes, wild fire outbreaks, electrical power failures, hazardous material incidents, droughts, dam failures, radiological incidents, urban fires and any other disaster or civil disturbance, including terrorism. In addition, the Department facilitates the coordination and education of emergency management and homeland security efforts in all 105 Kansas counties, as well as all other local, state and federal response agencies and entities. To do this, the Department's seven Emergency Management Regional Coordinators assist local communities throughout Kansas in developing a regionally unified approach to disaster planning, response and recovery. In addition, the Adjutant General's Department has also initiated a number of groundbreaking homeland security collaborative efforts, to include the development of *Crisis City* for joint use by first responders and for National Guard training, the *Kansas State Fusion Center* and the *Eisenhower Center for Homeland Security Research, Evaluation and Education*.

To support National Guard activities, the state provides armories and a multitude of other facilities across Kansas. These facilities are used for offices, training, equipment storage and community functions. Providing these facilities is crucial to the Guard's capability to render wartime assistance to the Department of Defense as well as military assistance to local and state civil authorities during times of crisis.

**STATUTORY RERUIREMENTS:**

The Adjutant General's Department is one of the initial cabinet-level departments established when Kansas became the 34th State in 1861, but had organized, trained, equipped and utilized the Territorial State Militia since 1855. In addition to this state mission, the Kansas National Guard has also been organized to defend the United States of America against foreign threats when called to by the President. These constitutionally-directed state/federal dual missions have continued uninterrupted since inception.

State laws were passed in 1885, which created the Kansas National Guard from resources of the State Militia. As a joint state/federal agency, the dual mission of the Kansas National Guard is mandated in Article 8, constitution of Kansas and Article 1, Section 8, U.S. Constitution. Congress passed the Dick Act in 1903, which formalized federal/state authorities in U.S.C. Titles 32 and 10 and 5.

State authority and responsibilities of the Adjutant General, appointed by the Governor and confirmed by the Senate, are promulgated in Chapter 48, K.S.A. The authority of the Governor, as Commander-In-Chief, is contained in K.S.A. 48<sup>a</sup> 201, 203, 348, and 241. Parallel Federal authority is found in Title 32, U.S. Code, Secs 104, 304, 312, 702, 703, 707, et seq. These statutes differentiate authority and responsibility of state and federal resources. National Guard organizations are allocated to the state with consent of the Governor. Federal resources are provided for pay of members during training periods, equipment, support facilities, supplies, and funds to support armories. Articles 2 and 9, Chapter 48, K.S.A. as amended, promulgate authorizations for the assignment of state employees to fulfill the substantial responsibilities of the Adjutant General. Title 32, U.S.C. Sec. 709; Title 10, U.S.C., Sec. 702 (f); and Title 5, U.S.C., provide federal mandates for the full-time staff manning, necessary to accomplish training and equipment readiness objectives. Title 32, Chapters 3 and 5, U.S.C., and Article 2, Chapter 48 K.S.A. prescribe connecting policies for unit and individual training in concert with public safety services provided the people in Kansas. K.S.A. 75-2935(1)(g), as amended, provide authorities for members of the Kansas National Guard to be in the unclassified State Service, when on State Active Duty and positions authorized in Federal/State cooperative agreements are required to be in the unclassified state service.

Program Receipts

**INAUGURAL EXPENSE FUND - 2003**

	<b><u>FY 2025 Allocated Resources</u></b>	<b><u>FY 2026 Allocated Resources</u></b>
Received from Inaugural Committee	NA	N/A
<p>The agency participates in the Governor's Inaugural by providing Kansas National Guard members to provide necessary services. The Governor's Inaugural Committee reimburses the agency for the costs we incur.</p>		

**NUCLEAR SAFETY EMERGENCY MANAGEMENT FEE FUND – 2081**

	<b><u>FY 2025 Allocated Resources</u></b>	<b><u>FY 2026 Allocated Resources</u></b>
Received from Wolf Creek & Cooper Nuclear Generating Stations	\$645,976	\$905,741

Per K.S.A. 48-942 and K.A.R. 56-3-1 thru 56-3-6, the Adjutant General shall adopt rules and regulations necessary to administer and implement the provisions of this act. The program will provide the guidance, technical assistance, coordination and sharing of information to help state and local emergency managers prepare for radiological emergencies. The Adjutant General shall prepare a budget for each fiscal year showing the total operating expenditures and capital improvements expenditures projected to be incurred. This is done with the goal of development, maintenance, and application of the plans and programs necessary to plan and prepare for a timely and appropriate response to a radiological incident at Wolf Creek Generating Station in Kansas and Cooper Nuclear Station in Nebraska.

**GENERAL FEES FUND - 2102**

	<b><u>FY 2025</u></b> <b><u>Allocated Resources</u></b>	<b><u>FY 2026</u></b> <b><u>Allocated Resources</u></b>
Rental Income	\$849,541	\$849,541
911 Coordinating Council	\$0	\$0
KCC Funds	\$0	\$0

The General Fees Fund was established in FY 2015. The fund was established because there was no Fee Fund to deposit miscellaneous revenue. It was initially set up because the agency receives funds from KDOT for the Communication on Wheels, from the 911 Coordinating Council for a 911 Coordinator and related expenses, tax credits received from armory renovations, and rental income. This fund allows the agency to keep funding streams separate and allows funds to be used for intended purposes. The agency sold the Wichita East Armory and received \$504,948 from the proceeds, which the Governor and Legislature both approved for us to keep all the proceeds. The KCC funds are for a fusion center analyst that they are funding by giving us funds each year.

**MILITARY FEE FUND – EMERGENCY MANAGEMENT INDIRECT COST FEE FUND - 2152**

	<b><u>FY 2025</u></b> <b><u>Allocated Resources</u></b>	<b><u>FY 2026</u></b> <b><u>Allocated Resources</u></b>
Received from Indirect Cost Contract with FEMA	\$85,000	\$85,000
Other Revenue	\$0	\$0

The agency does an indirect cost contract with the Federal Emergency Management Agency for the costs incurred not directly related to the associated grants. These services include, executive representation services provided by The Adjutant General and his staff, accounting and budgeting performed by the State Comptroller's Office, human resources services provided by the Office of State Human Resources, facility services provided by the Director of Facilities Engineering Office, and administrative services provided by the Director of Information Management Office. In FY 2014, the Agency utilized this fund to receive transfers from other state and non-state agencies to pay for related expenditures. These included Office of Emergency Communications, Armory Tax Credit, 911 Coordinating Council and Communication on Wheels. All of these now are either in the General Fees Fund or the Office of Communications Fund. Therefore, this fund in FY 2015 will return to its original intent.

**Narrative Information—DA 400**

Division of the Budget

State of Kansas

Agency Adjutant General's Department

Program Receipts

**ARMORIES AND UNITS GENERAL FEES FUND RECEIPTS ESTIMATE - 2171**

	<b><u>FY 2025</u></b> <b><u>Allocated Resources</u></b>	<b><u>FY 2026</u></b> <b><u>Allocated Resources</u></b>
Received from Armory		
Utility Reimbursements	\$1,050	\$1,050

The 1983 Session laws authorize the Adjutant General to set policies and procedures whereby units are assessed charges for utility reimbursements for rentals. Upon receipt, monies are deposited with the State Treasurer and credited to this fund.

These revenues for this fund is generated through utility assessments received when National Guard Armories throughout the state are rented. The receipts into this fund have been impacted by the events of September 11, 2001. The armories were prohibited from renting the facilities for a period of time after that date. Even after the armories were made available for rental again, the level of rental income has not returned to previous levels. We closed 18 armories in FY 2010 therefore we are no longer getting rental income on these facilities. With the deployment of so many of our Kansas National Guard Members, there are not always sufficient personnel available to rent some of the armories.

**NATIONAL GUARD FEDERAL FORFEITURE FUND - 2184**

	<b><u>FY 2025</u></b> <b><u>Allocated Resources</u></b>	<b><u>FY 2026</u></b> <b><u>Allocated Resources</u></b>
Received from Federal Law		
Enforcement Agencies	\$50,000	\$50,000
Interest	\$1,000	\$1,000

A "Federal Equitable Sharing Agreement" with the U.S. Department of Justice/ACA Program and the U.S. Department of the Treasury, allows this agency to receive "seized asset" funds from these federal agencies as a result of convictions in cases the National Guard Counter Drug Program participates in. These funds cannot be utilized for normal budget expenditures.

**Narrative Information—DA 400**

Division of the Budget  
State of Kansas

Agency Adjutant General's Department  
Program Receipts

**ADJUTANT GENERAL EXPENSE FUND – 2357**

	<b><u>FY 2025</u></b> <b><u>Allocated Resources</u></b>	<b><u>FY 2026</u></b> <b><u>Allocated Resources</u></b>
Received from Legislature for Hazard Mitigation & Fusion Center	\$0	\$0

These funds provide a state match for the Hazard Mitigation Disaster program and a small amount for completion of the Fusion Center. Traditionally the state has not contributed to the 25% non-federal match except for once in 2007. The locals normally provide the 25% non-federal match. The Hazard Mitigation program works towards solutions to eliminate future infrastructure damages and loss of life due to disasters. These funds will be used up within the next few years and the program will again be funded wholly by the federal government and locals.

**CONVERSION OF MATERIALS & EQUIPMENT FUND - 2400**

	<b><u>FY 2025</u></b> <b><u>Allocated Resources</u></b>	<b><u>FY 2026</u></b> <b><u>Allocated Resources</u></b>
Equipment sold to Surplus Property or for scrap	\$7,000	\$7,000

These are funds the agency receives for office furniture and other equipment we sell through State Surplus Property. These funds are periodically used to buy needed replacement equipment. We have sold most of the old equipment we have, therefore we anticipate receiving less income for this fund.

**OFFICE OF EMERGENCY COMMUNICATIONS FUND – 2496 – Discontinued**

	<b><u>FY 2025 Allocated Resources</u></b>	<b><u>FY 2026 Allocated Resources</u></b>
Transfer from KDOT	\$0	\$0

During the 2013 Legislative Session, this fund was created to support the receipts and expenditures for the Office of Emergency Communications. The Office of Emergency Communications (OEC) within the Adjutant General’s Department maintains the Statewide Communications Interoperability Plan, provides training to requesting agencies and jurisdictions on interoperable communications capabilities and provides statewide coordination on matters of public safety communications. In addition, the OEC supports all of the administrative requirements of the Statewide Interoperable Executive Committee. Prior to FY 2014 this initiative was funded with federal funds. In FY 2014 the grant funds were depleted and the KHP & KDOT funded the remaining expenditures for FY 2014. In FY 2015 going forward, the funds are from a transfer from KDOT.

**State Asset Forfeiture Fund – 2498**

	<b><u>FY 2025 Allocated Resources</u></b>	<b><u>FY 2026 Allocated Resources</u></b>
Received from Local Law Enforcement Agencies	\$0	\$0

This fund was established to separate the federal and state asset forfeiture monies received. These funds cannot be utilized for normal budget expenditures.

**KANSAS MILITARY EMERGENCY RELIEF FUND - 2658**

	<b><u>FY 2025 Allocated Resources</u></b>	<b><u>FY 2026 Allocated Resources</u></b>
Provided by the Income Tax Check-Off Program and donations	\$0	\$0

Starting in 2008 the State of Kansas Income Tax return included a check-off box to allow Kansans to donate a chosen amount of money to the Kansas Military Emergency Relief Fund. This fund was established to provide grants and interest free loans for members and families of the Kansas Air and Army National Guard and Army reserve members to provide assistance to eligible members for financial emergencies related to mobilization. The agency uses these funds to supplement the requests that are not covered with appropriated SGF provided for the same purpose. The state appropriated funds have been reduced to less than 1/5 of the original appropriation established in the Military Bill of Rights.

**GREAT PLAINS JOINT REGIONAL TRAINING CENTER FEE FUND - 2688**

	<b><u>FY 2025 Allocated Resources</u></b>	<b><u>FY 2026 Allocated Resources</u></b>
Provided by non-state & non-local entities that utilize the GPJRTC	\$0	\$0

This fund was established to receive funds for the use of the Great Plains Joint Regional Training Center including Crisis City by non-state and non-local entities. The funds collected are to be use for the sustainment of the facilities.

**MILITARY FUNERAL HONORS - 2789**

	<b><u>FY 2025 Allocated Resources</u></b>	<b><u>FY 2026 Allocated Resources</u></b>
Donations and daily interest	\$470	\$470

This fund was established in FY 2015 to support the financing of Military Funeral Honors. As federal funds decrease for funeral honors, the Adjutant General's Department took the initiative to have a fund created that could receive and expend donation for funeral honors. These funds will be used after all federal funds have been depleted. It is important to honor those who server our country.

**DISASTER GRANTS – PUBLIC ASSISTANCE – 3005**

	<b><u>FY 2025 Allocated Resources</u></b>	<b><u>FY 2026 Allocated Resources</u></b>
Provided by the Federal Government	\$33,620,844	\$11,250,000

These funds provide the 75% Federal portion of the Public Assistance Disaster program. This is the federal match to be used with the State Disaster funds provided by Legislative appropriation and State Finance Council action to pay costs associated with Project Worksheets for disaster damage and for administrative costs.

Robert T. Stafford Disaster Relief and Emergency Assistance Act, Public Law 93-288, as amended, 42 U.S.C. 5121-5206. To assist State and local governments in responding to and recovering from the devastating effects of disasters by providing assistance for debris removal, emergency protective measures and the repair, restoration, reconstruction or replacement of public facilities or infrastructure damaged or destroyed. Uses and Use Restrictions: Restricted to Presidential-declared disasters or emergencies, such as an earthquake, hurricane, tornado, or wildfire. Program activates only after issuance of a presidential declaration. Public Assistance is awarded in the form of cost-shared grants to States, local governments, other political subdivisions such as special districts, federally recognized Indian tribal governments and Alaska Native villages or organizations, and certain eligible Private Non-Profit organizations. A State is defined as any State of the United States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam, American Samoa, the Northern Marianna Islands, the Marshall Islands and Micronesia. Following a Presidential declaration, grants may be made for: removal of wreckage and debris from private and public lands; performance of emergency protective measures; emergency transportation assistance; emergency communications; and permanent restoration of eligible facilities.

**DISASTER GRANTS – HAZARD MITIGATION - 3019**

	<b><u>FY 2025</u></b> <b><u>Allocated Resources</u></b>	<b><u>FY 2026</u></b> <b><u>Allocated Resources</u></b>
Provided by the Federal Government	\$3,296,175	\$3,500,000

These funds provide the 75% Federal portion of the Hazard Mitigation Disaster program. Traditionally the state has not contributed to the 25% non-federal match except for once in 2007. The locals provide the 25% non-federal match.

Robert T. Stafford Disaster Relief and Emergency Assistance Act, Section 404, 42 U.S.C 5170c. To provide funding support to states, tribes, territories, communities, and other eligible applicants to implement mitigation planning and hazard mitigation measures that are cost effective and which substantially reduce the risk of future damage, hardship, loss or suffering in any area affected by a major disaster. This program also conforms to the definitions of the term “Mitigation” as defined in the National Preparedness Goal (NPG), in that this program supports those capabilities that are necessary to reduce loss of life and property by lessening the impact of disasters. Mitigation capabilities include, but are not limited to, community-wide risk reduction projects; efforts to improve the resilience of critical infrastructure and key resource lifelines; risk reduction for specific vulnerabilities from natural hazards; and initiatives to reduce future risks after a disaster has occurred. Assistance can be used for eligible activities including structural hazard controls or protection projects; construction activities that will result in reduction of hazards; retrofitting of facilities; acquisition of real property, relocation, demolition of structures; elevation of residential structures; minor flood reduction projects; structural retrofitting of existing structures; safe room construction; initial implementation of vegetation management programs; elevation or dry flood- proofing of non-residential structures; initial training of building officials and other professionals to facilitate the implementation of newly adopted State or local mitigation standards and codes, and mitigation planning actions. Projects must meet all eligibility criteria including cost-effectiveness; compliance with environmental and historic preservation laws and regulations and other program requirements.

**INTERAGENCY HAZARDOUS MATERIALS TRAINING/PLANNING FEDERAL FUND - 3121**

	<b><u>FY 2025</u></b> <b><u>Allocated Resources</u></b>	<b><u>FY 2026</u></b> <b><u>Allocated Resources</u></b>
Provided by the Federal Government	\$393,083	\$368,982

Federal Hazardous Materials Transportation Act, Public Law 49-5101 et seg. To increase State, local, territorial and Native American tribal effectiveness to safely and efficiently handle hazardous materials accidents and incidents; enhance implementation of the Emergency Planning and Community Right-to-Know Act of 1986 (EPCRA); and encourage a comprehensive approach to emergency planning and training by incorporating response to transportation standards. The grant program will be used to increase the emphasis on transportation in ongoing efforts and to improve the capability of communities to plan for and respond to the full range of potential risks posed by accidents and incidents involving hazardous materials. The grants have two principal uses: First, to assist States, Territories and Native American Tribes in developing, improving and implementing emergency response plans under EPCRA; including the determination of flow patterns of hazardous materials within a State, between States and Native American lands; determining the need for regional hazardous materials response teams. Second, to stimulate support for training of Public Sector employees to respond to accidents and incidents involving hazardous materials. HMEP Grant funds can be used for expenses associated with planning and training for response to hazardous materials incidents in transportation.

**MILITARY CONSTRUCTION-NATIONAL GUARD FEDERAL FUND - 3192**

	<b><u>FY 2025</u></b> <b><u>Allocated Resources</u></b>	<b><u>FY 2026</u></b> <b><u>Allocated Resources</u></b>
Provided by the Federal Government	\$12,592,040	\$6,900,000

Military Construction, Veterans Affairs and Related Agencies Appropriations Act, 10 U.S.C 1803. Provide for the acquisition, by purchase, transfer, construction, expansion, rehabilitation or conversion of facilities necessary for the training and administration of Army National Guard (ARNG) units in the 50 States, District of Columbia, Commonwealth of Puerto Rico, Virgin Islands, and Guam. Uses and Use Restrictions: Military Construction, National Guard are projects that create a complete and usable facility and encompasses one or more of the following: (1) Erection, installation or assembly of new facility. (2) Addition, expansion, extension, alteration, conversion (in the sense of facility modification caused by a change in facility utilization), or complete replacement of an existing facility. (3) Relocation of a facility from one installation to another. (4) Installed building equipment made a part of the facility. (5) Related site preparation, excavation, filing, landscaping or other land improvements. (6) Foundations, site work and utility work associated with the setup of relocatable buildings in accordance with Army Regulation 420-18. (7) Demolition of existing facilities when associated with one on of the actions listed above. Restrictions are listed in National Guard Regulation 415-5, paragraph 1-5, Statutory and Regulatory Limitations.

**NATIONAL GUARD CIVILIAN YOUTH OPPORTUNITY FEDERAL FUND - 3193**

	<b><u>FY 2025 Allocated Resources</u></b>	<b><u>FY 2026 Allocated Resources</u></b>
Provided by the Federal Government	\$4,094,622	\$2,709,908

Defense Appropriation Act, as amended, 32 U.S.C. 509; 10 U.S.C. 2193. The Secretary of Defense, acting through the Chief of the National Guard Bureau, conducts a National Guard civilian youth opportunities program through the National Guard to provide science and math academies for 4th, 5th, and 6th grade students or STARBASE. The purpose of these academies is to introduce and reinforce how science and math are used in everyday careers. To carry out the National Guard STARBASE Program in a State, the Secretary of Defense shall enter into an agreement with the State.

**ECONOMIC ADJUSTMENT ASSISTANCE/MILITARY INSTALLATION FEDERAL FUND - 3196**

	<b><u>FY 2025 Allocated Resources</u></b>	<b><u>FY 2026 Allocated Resources</u></b>
Provided by the Federal Government	\$0	\$0

Military Base Reuse Studies and Planning Assistance, 10 U.S.C Section 2391; Defense Base Closure and Realignment Act of 1990, Section 2905 of Public Law 101-510, as amended. Assistance for States and communities to: plan and carry out adjustment strategies; engage the private sector in order to plan and undertake community economic development and base redevelopment; and, partner with the Military Departments in response to the proposed or actual expansion, establishment, realignment or closure of a military installation by the Department of Defense (DoD). Assistance is structured through an assigned Project Manager working with an affected State and/or local government, and may be used to plan and carry out local economic adjustment programs, including, but not limited to: base redevelopment and business/financial plans; infrastructure assessments and feasibility studies; organizational staffing, operating, and administrative expenses; redevelopment and economic development capacity-building; architecture and engineering activities; land use plans; specialized environmental and legal services; public outreach; and, other activities necessary for a community to capably respond to Defense actions. Assistance may not be used to duplicate or supplant DoD activities in carrying out an expansion, establishment, realignment, or closure of a military installation.

**PUBLIC SAFETY PARTNERSHIP AND COMMUNITY POLICING FUND - 3218**

	<u>FY 2025</u> <u>Allocated Resources</u>	<u>FY 2026</u> <u>Allocated Resources</u>
Provided by the Federal Government	\$0	\$0

Omnibus Crime Control and Safe Streets Act of 1968, 42 U.S.C. 3796dd, as amended; Violent Crime Control and Law Enforcement Act of 1994, Title I, Part Q, Public Law 103-322. To advance the practice of community policing as an effective strategy in communities' efforts to improve public safety. COPS grants support innovative programs that respond directly to the existing and emerging needs of state, local, and tribal law enforcement, to shift law enforcements focus to preventing, rather than solely responding to crime and disorder within their communities; develop state-of-the-art training and technical assistance to enhance law enforcement officers problem- solving and community interaction skills, promote collaboration between law enforcement and community members to develop innovative initiatives to prevent crime, and provide responsive, cost effective service delivery to our grantees to ensure success in advancing community policing strategies within their communities. The COPS Office was established in 1994 to assist law enforcement agencies in enhancing public safety through the implementation of community policing strategies. The COPS Office will continue to fulfill its mission of advancing the practice of community policing by:

- \*providing grants under COPS Hiring to meet the Administration's goal of an additional 50,000 sworn community policing professionals nationwide,
- \*continuing to support innovative programs that respond directly to the emerging needs of state, local, and tribal law enforcement, to shift law enforcement's focus to preventing, rather than reacting to crime and disorder within their communities,
- \*developing state-of-the-art training and technical assistance to enhance law enforcement officers' problem-solving and community interaction skills,
- \*promoting collaboration between law enforcement and community members to develop innovative initiatives to prevent crime,
- \*providing responsive, cost effective service delivery to our grantees to ensure success in advancing community policing strategies within their communities,
- \*supporting evidenced-based community policing practices that have proven to be effective; can be easily replicated by a broad cross-section of law enforcement agencies; and, are sustainable, and
- \*providing national leadership to the law enforcement field regarding the adaptation of Values Based Policing Principles; which is a results driven philosophy that minimizes an organization's process while emphasizing outcomes. It integrates the core beliefs of an organization into every aspect of its operations. Values Based Policing allows an employee to be driven by "what is right" instead of "what is in writing.". The COPS Office authorizing statute contains specific restrictions applicable to all programs. In addition, annual appropriations acts may impose additional restrictions. 100% of COPS funds are Discretionary funds.

**Pre-Disaster Mitigation – 3268**

	<b><u>FY 2025 Allocated Resources</u></b>	<b><u>FY 2026 Allocated Resources</u></b>
Provided by the Federal Government	\$10,670,658	\$2,200,000

The Pre-Disaster Mitigation – Competitive (PDMC) program provides grants to States and Indian Tribal government or territory that, in turn, provide Sub-grants to local governments for cost-effective mitigation activities that are selected via a Ranking. Funds will be used to implement a sustained pre-disaster natural hazard mitigation program to reduce overall risk to the population and structures, while also reducing reliance on funding from actual disaster declarations.

**CITIZEN CORPS FEDERAL FUND - 3341**

	<b><u>FY 2025 Allocated Resources</u></b>	<b><u>FY 2026 Allocated Resources</u></b>
Transfer in	\$0	\$0

Robert T. Stafford Disaster Relief and Emergency Assistance Act of 1974 , Public Law 93-288, 42 U.S.C 5196, 5201(b); Homeland Security Act of 2002 , Public Law 107-296, 6 U.S.C 605. To bring together government, community leaders, non-profit organizations, and citizens to enhance community resilience for all-hazards emergency events. The Community Resilience Innovation Challenge program seeks to foster a culture of community resilience by identifying needs, mobilizing partners, and creating innovative, motivating, and effective solutions that can be grown, sustained, and replicated. FEMA seeks to spark the dramatic expansion and transformation of current community engagement strategies in the field of emergency management, promoting approaches that take direct steps to put local residents in leadership roles in planning, organizing, and sharing accountability for the success of local disaster management-related projects and programs. FEMA’s approach draws inspiration and direction from community policing as a philosophy of how local law enforcement institutions work with residents to identify local priorities, share information and cooperate in decisions about operational directions. The program will make communities safer, stronger, and better prepared to respond to threats of terrorism, crime, public health issues, and disasters of all kinds. Assistance through this program can be used to support a broad range of activities that promote organizing resources, partnerships, and leadership activities among small neighborhood groups, civic or faith based organizations, private sector entities, or other institutions in order to be better prepared for emergencies. These activities will leverage all other local efforts to explore innovative approaches to emergency preparedness in communities as a means to support resilience initiatives underway across all sectors and stakeholder groups. Projects must be initiated within 30 days of receiving awarded funds and utilized within 1 year of receipt. Refer to program guidance for any additional restrictions.

### EMERGENCY MANAGEMENT PERFORMANCE GRANT FEDERAL FUND - 3342

	<u>FY 2025 Allocated Resources</u>	<u>FY 2026 Allocated Resources</u>
Provided by the Federal Government	\$6,600,964	\$4,061,750

Section 662 of the Post-Katrina Emergency Management Reform Act of 2006 (PKEMRA) (Public Law 109-295), as amended by section 201 of the Implementing Recommendations of the 9/11 Commission Act of 2007 (hereafter "9/11 Act") (Public Law 110-53); and the Robert T. Stafford Disaster Relief and Emergency Assistance Act, (Public Law 93-288), as amended, 42 U.S.C. 5121-5207, sections 201, 611(j) and 613; 42 U.S.C. 5131, 5196(j), and 5196b, respectively; specifically, the National Flood Insurance Act of 1968 (42 U.S.C. 4001 et seq.), the Earthquake Hazards Reduction Act of 1977 (42 U.S.C. 7701 et seq.), and Reorganization Plan No. 3 of 1978 (5 U.S.C. App.). The EMPG Program provides resources to assist state, local, tribal and territorial governments in preparing for all hazards, as authorized by the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended (42 U.S.C. 5121 et seq.). Title VI of the Stafford Act authorizes FEMA to make grants for the purpose of providing a system of emergency preparedness for the protection of life and property in the United States from hazards and to vest responsibility for emergency preparedness jointly in the federal government and the states and their political subdivisions. The intent of EMPG is to provide grant funding to assist state emergency management agencies in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. The federal government, through the EMPG Program, provides necessary direction, coordination, and guidance, and provides necessary assistance, as authorized in this title so that a comprehensive emergency preparedness system exists for all hazards. The EMPG Program plays an important role in the implementation of Presidential Policy Directive 8 (PPD-8) by supporting the development and sustainment of core capabilities. Core capabilities are essential for the execution of each of the five mission areas outlined in the NPG. The development and sustainment of these core capabilities are not exclusive to any single level of government or organization, but rather require the combined effort of the whole community. The EMPG Program supports all core capabilities in the Prevention, Protection, Mitigation, Response, and Recovery mission areas based on allowable costs. Examples of tangible outcomes from the EMPG Program include building and sustaining emergency management capabilities through:

- Building and Sustaining core capabilities
- Approved Emergency Plans
- Completion of Threat and Hazard Identification Risk Assessment (THIRA)
- Development and maintenance of multi-year training and exercise plans (TEPs)
- Targeted Training and verification of personnel capability
- Whole Community approach to security and emergency management

DHS grant funds may only be used for the purpose set forth in the grant, and must be consistent with the statutory authority for the award. Grant funds may not be used for matching funds for other Federal grants/cooperative agreements, lobbying, or intervention in Federal regulatory or adjudicatory proceedings. In addition, Federal funds may not be used to sue the Federal government or any other government entity. Pre-award costs are allowable only with the written consent of DHS and if they are included in the award agreement. Federal employees are prohibited from serving in any capacity (paid or unpaid) on any proposal submitted under this program. Federal employees may not receive funds under this award. EMPG Program grantees may only fund projects that were included in the Work Plan that was submitted to and approved by a FEMA Program Analyst.. DHS grant funds may only be used for the purpose set forth in the grant, and must be consistent with the statutory authority for the award. Grant funds may not be used for matching funds for other Federal grants/cooperative agreements, lobbying, or intervention in Federal regulatory or adjudicatory proceedings. ### **STATE AND LOCAL IMPLEMENTATION GRANT (SLIGP) – 3576**

	<b><u>FY 2025</u></b> <b><u>Allocated Resources</u></b>	<b><u>FY 2026</u></b> <b><u>Allocated Resources</u></b>
Provided by the Federal Government	\$0	\$0

The State and Local Implementation Grant Program (SLIGP) is a \$118.15 million formula-based, matching grant program administered by the National Telecommunications and Information Administration (NTIA). The program is designed to assist regional, state, local and tribal government entities as they plan for a Nationwide Public Safety Broadband Network (NPSBN). OITS was awarded \$1,800,790.00 in federal funds under the State and Local Implementation Grant Program (SLIGP) to support the implementation of a National Public Safety Broadband Network (NPSBN). Grants will support planning, consultation, education and outreach activities, as well as, fund efforts to collect data on existing infrastructure and equipment that could be used by the First Responder Network Authority (FirstNet) in building a wireless public safety broadband network. The Adjutant General provides 2.00 FTE positions, travel, supplies, and state in-kind soft match for this Program. The Adjutant General receives reimbursement from Office of Information and Technology (OTIS) of the Department of Administration for all expenditures related to the 2.00 FTE positions. The Adjutant General's Department expends the funds the OTIS does not.

### **HOMELAND SECURITY PROGRAM FEDERAL FUND - 3629**

	<b><u>FY 2025</u></b> <b><u>Allocated Resources</u></b>	<b><u>FY 2026</u></b> <b><u>Allocated Resources</u></b>
Provided by the Federal Government	\$609,298	\$503,240

U.S.A Patriot Act of 2001, Public Law 107-56; Consolidated Security, Disaster Assistance, and Continuing Appropriations Act of 2009, Public Law 110-329. To build capabilities to prevent, deter, respond to, and recover from incidents of terrorism at the State and local levels through planning, equipment, training, and exercise activities and support the implementation of State homeland security strategies and key elements of the national preparedness architecture, including the National Preparedness Goal, the National Incident Management System and the National Response Plan. Funds may be used for planning, organization, equipment, training and exercises as related to the program objectives above, and will be administered by the respective State Administrative Agency (SAA). Each SAA shall make no less than 80 percent of the total grant program amount available to local units of government within 60 days of the receipt of funds. Refer to program guidance document.

**Operations:**

Administrative and Overhead is composed of several sections including the Office of the Adjutant General, Office of State Human Resources, Comptroller's Office, Public Affairs Office, Information Technology Office, Archives, and other administrative services. In addition, the Program administers the Military Bill of Rights and StarBase. The staff furnishes a full range of management services to ensure that all programs within the Adjutant General's Department are managed with the utmost efficiency and to fulfill the mission of the agency.

Our mission is to deliver management services to ensure all resources within the Adjutant General's Department are utilized efficiently and effectively in an effort to provide public safety to the people of Kansas by fully supporting the needs of the Army National Guard, the Air National Guard and the Division of Emergency Management. We will perform our duties in accordance with the highest standards of ethical conduct, accountability, efficiency and openness. We approach our activities with a sense of purpose and responsibility to provide to the citizens of Kansas the best public safety at the least cost.

**Goals and Objectives:**

The goals for this program include: Ensure a well-organized and efficient approach to fiscal and budget management of agency funds in accordance with guidelines of the State and Federal governments. Ensure that accounting for associated funds is of the highest standard and that audit reviews of these funds will find a low number of audit exceptions. To jointly and dynamically manage a statewide cost effective human resources program within an equal employment opportunity environment that results in providing efficient customer services and support. Ensure critical information is provided to the public during emergencies or disasters and ongoing information updates are disseminated throughout the year.

**Statutory History:**

Chapter 48 of the *Kansas Statutes Annotated* contains all of the statutes pertaining to the organization and management of the Adjutant General's Department. KSA 48-201 through 48-204 provide for the powers and duties of the Adjutant General and the staff officers of the National Guard. KSA 48-205 and 48-206 provide for the appointment of subordinate officers and financial personnel and for management of the state arsenal and all federal military equipment assigned to it. KSA 48-209 through 48-213 provide for the terms of office for officers and the enlistment procedures.

406/410S - 406/410 series report

mineth / 2026A0200034

**NARRATIVE INFORMATION – DA 400**  
**Division of the Budget**  
**State of Kansas**

**AGENCY NAME: Adjutant General's Department**  
**PROGRAM TITLE: Administration & Overhead**  
**SUB-PROGRAM: Office of the Adjutant General**

---

**PURPOSE:**

Funding provides for the pay and administrative costs for personnel of the Office of the Adjutant General to coordinate efforts to protect life and property through planning, coordination, and synchronization of state and federal resources, to provide a ready military, emergency management, and homeland security capability for our state and nation. The funding also provides salary for the Kansas Military Board members.

**CONSEQUENCE OF NOT FUNDING:**

Without adequate funding, the Adjutant General would cease to have the essential administrative support that is required to coordinate and synchronize all efforts of the Adjutant General's Department.

**PERFORMANCE MEASURES:**

	<b><u>FY 2022</u></b>	<b><u>FY 2023</u></b>	<b><u>FY 2024</u></b>	<b><u>FY 2025</u></b>
Are military forces trained and prepared to respond to state and federal missions?	Yes	Yes	Yes	Yes
Is the State prepared to provide effective and coordinated response and recovery to natural and manmade disasters, to include terrorism?	Yes	Yes	Yes	Yes

**Salaries and Wages**

The budgeted amount covers mainly the TAG, an Executive Assistant, a part-time special project employee, and the members of the Kansas Military Board.

**Contractual Services**

This category provides travel for the TAG for him to carry out his duties and dues for organizations he is a part of.

**Commodities**

This mostly covers upkeep and repair to the TAG's vehicle.

406/410S - 406/410 series report

mineth / 2026A0200034

**NARRATIVE INFORMATION – DA 400**  
**Division of the Budget**  
**State of Kansas**

**AGENCY NAME: Adjutant General's Department**  
**PROGRAM TITLE: Administration & Overhead**  
**SUB-PROGRAM: Comptroller**

---

**PURPOSE:**

Funding provides for personnel and administrative costs of the State Comptroller, accounts, inventory control officer, budget, procurement officer, and travel officer. This office ensures compliance with state and federal laws, rules, regulations and procedures relating to fiscal policy, accounting standards, budget execution, procurement activities and inventory management.

**STATUTORY REQUIREMENT:**

KSA 48-205-206

**CONSEQUENCE OF NOT FUNDING:**

With reduced or eliminated funding, the agency would incur late fees, loss of credibility from suppliers, missed state and federal deadlines, reduction of turnaround time on reimbursement from the federal government, reduced staff morale, inability to properly follow procurement and travel rules, inability to pay State Active Duty in a timely manner, loss of inventory control, and increased deficiency findings from State and Federal audits.

**PERFORMANCE MEASURES:**

Total number of repeat audit findings on the SEFA.  
Total amount of late fees paid annually.

<b><u>FY 2021</u></b>	<b><u>FY 2022</u></b>	<b><u>FY 2023</u></b>	<b><u>FY 2024</u></b>	<b><u>FY 2025</u></b>
0	0	0	0	0
\$5,064	\$1,878	\$1,393	\$7,980	\$0

**EXPENDITURE JUSTIFICATION**

**Salaries and Wages**

Expenditures will pay for 9 employees.

**Contractual Services**

This expenditure category mainly pays for our computer agreement with the Kansas National Guard. If this ever went away this would be an enormous expense. The postage and a cell phone is also paid for out of the area.

**Commodities**

Mainly office supplies and data processing material are purchased.

406/410S - 406/410 series report

mineth / 2026A0200034

**NARRATIVE INFORMATION – DA 400**  
**Division of the Budget**  
**State of Kansas**

**AGENCY NAME: Adjutant General's Department**  
**PROGRAM TITLE: Administration & Overhead**  
**SUB-PROGRAM: Human Resources**

---

**PURPOSE:**

Funding provides personnel and administrative costs for processing employee benefits, payroll, recruitment, and employee relations for state employees located at 14 worksites across the state. Also allows for the development, implementation, and administration of policies and procedures which meet the needs of the agency while complying with state and federal statutes, regulations, and best practice.

**CONSEQUENCE OF NOT FUNDING:**

Employees will not have direct access to information and technical support for benefits and payroll. There would be no structure for the implementation and administration of agency policies and procedures that ensure the fair and equitable treatment of employees as required by state and federal laws, statutes, regulations and practice. The agency will be vulnerable to EEO claims and employment lawsuits.

**PERFORMANCE MEASURES:**

	<b><u>FY 2022</u></b>	<b><u>FY 2023</u></b>	<b><u>FY 2024</u></b>	<b><u>FY 2025</u></b>
100% of employees received New Employee Orientation (NEO) including enrollment in State Benefits for which they are eligible within two weeks of start date.	100%	100%	100%	100%
Percentage of employees received a performance review annually.	100%	100%	98%	100%

**EXPENDITURE JUSTIFICATION**

**Salaries and Wages**

The budgeted amount will pay for 3 employees.

**Contractual Services**

Small amount is budgeted for travel and other fees for upkeep of equipment.

**Commodities**

Office supplies are budgeted in this area.

406/410S - 406/410 series report

mineth / 2026A0200034

**NARRATIVE INFORMATION – DA 400**  
**Division of the Budget**  
**State of Kansas**

**AGENCY NAME: Adjutant General's Department**  
**PROGRAM TITLE: Administration & Overhead**  
**SUB-PROGRAM: Public Affairs Office**

---

**PURPOSE:**

Funding provides for pay and administrative costs associated with providing critical information to the public during emergencies or disasters and ongoing information updates throughout the year regarding the Department's actions, plans, and recommendations. The Director activates the Joint Information Center in conjunction with the State Emergency Operations Center during times of natural or man-made disasters to include those resulting from nuclear and biological threats. Additionally, researches, writes and produces campaigns to increase awareness of the activities of the Adjutant General's Department.

**CONSEQUENCE OF NOT FUNDING:**

The public will not be informed or updated on emergencies or disasters, which would have an impact on the Governor's ability to effectively respond to emergencies or disasters. Additionally, a lack of awareness of the activities of the Adjutant General's Department would have a negative impact on recruiting in the Kansas National Guard. The inability to meet recruiting requirements would put the State at risk to lose force structure and vital capabilities needed to respond to emergencies or disasters.

**PERFORMANCE MEASURES:**

	<b><u>FY 2023</u></b>	<b><u>FY 2024</u></b>	<b><u>FY 2025</u></b>
Percentage of time emergencies that require full or partial activation of the State Emergency Operations Center (SEOC), the Joint Information Center is appropriately staffed within 1 hour of notification.	100%	100%	100%
Percentage of time emergencies that require full or partial activation of the SEOC, all public safety news releases are coordinated with our Emergency Support Function partners and disseminated via the media and social media platforms.	100%	100%	100%
Percentage of time the SEOC is at full activation, social media platforms are monitored and updated at least hourly to ensure the public receives critical information as quickly as possible. During non-emergency periods, or partial SEOC activation, social media is monitored and updated daily.	100%	100%	100%
Percentage of time during educational campaigns (Severe Weather Awareness Week, Suicide Prevention Month, Read the Label Campaign, Sexual Assault Awareness, Kansas Preparedness Month, etc.) content is created and provided through various channels which include social media platforms, internal/external e-mails and news releases to the media.	100%	100%	100%
Percentage of time weekly publication of agency (Kansas Division of Emergency Management and the Kansas Army and Air National Guard) news and stories to keep the stakeholders in our communities and state engaged and informed on what is happening within the agency.	100%	100%	100%
Percentage of time fast and accurate dissemination of critical agency information to commanders and staff in the Kansas Army and Air National Guard regarding projects, critical events and community support functions	100%	100%	100%

**Division of the Budget**  
**State of Kansas**

**AGENCY NAME: Adjutant General's Department**  
**PROGRAM TITLE: Administration & Overhead**  
**SUB-PROGRAM: Military Bill of Rights**

---

**PURPOSE:**

Funding provides for pay differential, activation payments, and the Kansas Military Relief Fund. These funds are administered by the State Comptroller's Office.

**CONSEQUENCE OF NOT FUNDING:**

This would have an immediate effect on Military members and their families if we cannot provide payments for these items in a timely manner. This could cause families to get their electricity turned off, rent not be paid, and other life changing events.

**STATUROTY REQUIREMENTS:**

None.

**PERFORMANCE MEASURES:**

The Adjutant General's Department simply administers the program.

**EXPENDITURE JUSTIFICATION**

Expenditures in this program cover the activation payments and payments for the Kansas Military Emergency Relief Fund.

406/410S - 406/410 series report

mineth / 2026A0200034

**NARRATIVE INFORMATION – DA 400**  
**Division of the Budget**  
**State of Kansas**

**AGENCY NAME: Adjutant General's Department**  
**PROGRAM TITLE: Administration & Overhead**  
**SUB-PROGRAM: STARBASE**

---

**PURPOSE:**

The DoD STARBASE mission is to expose our nation's youth to the technological environments and positive civilian and military role models found on Active, Guard, and Reserve military bases and installations, nurture a winning network of collaborators, and build mutual loyalty within our communities, by providing 25 hours of exemplary hands-on instruction and activities that meet or exceed the National Standards.

**SUBPROGRAM EXPLANATION:**

This program is 100% federally reimbursed. Kansas STARBASE serves approximately 7,000 students each school year through the DoD STARBASE 1.0 program. During the 2023 – 2024 school year, 7,392 students benefitted from the 25-hour STARBASE 1.0 fifth-grade program. Between August 1, 2023 and July 31, 2024, an additional 6,908 students were reached through STARBASE Advanced 2.0 middle school programs, STARBASE Advanced 3.0 JROTC programs, community outreach programs, and supplemental summer academies.

DoD STARBASE Kansas is proud to provide the Kansas National Guard with visibility throughout the state. The STARBASE philosophy recognizes the importance of introducing students to career paths by using Guard volunteers as inspiration. Guard volunteers interact with students by sharing their job skills and serving as role models in character building.

The goals of Kansas STARBASE are:

1. To expose fifth grade students in the state of Kansas to technological environments and positive civilian and military role models through the STARBASE 1.0 fifth-grade program.
2. To mentor middle school students through the after-school STEM program and other outreach activities through the STARBASE 2.0 program.
3. To inspire high school students through the summer JROTC partnership as they expand on their STEM interest through the STARBASE 3.0 program.
4. To motivate Kansas students to explore STEM opportunities as they continue their education.
5. To nurture a winning network of collaborators, and build mutual loyalty within our communities.
6. To improve student comprehension, primarily 5<sup>th</sup> grade students, by providing 25 hours of exemplary hands-on instruction and activities that meet or exceed the National Standards in the science, technology, engineering, and mathematics (STEM) skill areas.
7. To serve students that are historically under-represented in STEM. Students who live in inner cities or rural locations, those who are socio-economically disadvantaged, low in academic performance, or have a disability are in the target group.
8. To encourage students to adopt personal goals and achieve them.
9. To provide an outstanding and unforgettable Science, Technology, Engineering, and Mathematics educational opportunity for students and teachers in a hands-on, hi-tech, alternative, discovery/inquiry-based environment on a military installation.

**CONSEQUENCE OF NOT FUNDING:**

This program is 100% federally funded. If the State of Kansas did not accept the funding from the Federal government, then the youth of Kansas would not be able to take advantage of this additional free education. Also the youth would not have the additional exposure to the Kansas National Guard.

**NARRATIVE INFORMATION – DA 400**  
**Division of the Budget**  
**State of Kansas**

**AGENCY NAME: Adjutant General's Department**  
**PROGRAM TITLE: Administration & Overhead**  
**SUB-PROGRAM: STARBASE**

---

**STATUTORY REQUIREMENT:**

None.

**PERFORMANCE MEASURES:**

The Adjutant General's Department simply administers the program.

**EXPENDITURE JUSTIFICATION**

**Salaries**

This amount will support 29 FTEs.

**Contractual Services**

Expenditures in the category include internet service, copy rental, travel.

**Commodities**

Expenditures in the category include fuel, office and classroom supplies.

**Capital Outlay**

Expenditures in the category include laptops, electronics, iPads and other large items.

406/410S - 406/410 series report

mineth / 2026A0200034

**Operations:**

Emergency Management and Homeland Security activities are comprised of work with local communities, first responders, non-governmental organizations, governmental entities and owners of critical infrastructure and key resources to achieve optimal and reasonable levels of disaster and terrorism preparedness. Specific activities include identification of concerns, prioritization of capabilities, development of common solutions, multi-agency exercises, training, and other actions to ensure an effective and coordinated response & recovery to natural and manmade disasters, to include terrorism.

**Goals and Objectives:**

The goals of the Division of Emergency Management are stated in terms of the four phases of the state's emergency management system: Mitigation, Preparedness, Response, and Recovery. The goals are as follows: Reduce vulnerability of people, the environment, and structures to natural and technological incidents and disasters by eliminating or reducing effects of a variety of hazards. Enhance state and local emergency management organizational readiness. Respond to all incidents and disasters promptly and effectively. Provide timely and effective assistance to expedite recovery from incidents and disasters. Safeguard Kansas against terrorism and protect critical infrastructure and key resources.

**Statutory Requirement:**

Article 9 of Chapter 48 of the *Kansas Statutes Annotated* contains the Emergency Preparedness Act. These statutes authorize all the functions of the Division of Emergency Management. The Robert T. Stafford Disaster Relief and Emergency Assistance Act (PL 100-707) and the Emergency Planning and Community Right-to-Know Act (Title III, PL 99-499) provide for the federal financial and planning role in emergency preparedness activities. KSA 48-907 specifies the duties of the Adjutant General as Chief Administrative Officer of the Division. Powers of the Governor during an emergency are explained in KSA 48-924 and 48-925.

406/410S - 406/410 series report

mineth / 2026A0200034

**NARRATIVE INFORMATION – DA 400**  
**Division of the Budget**  
**State of Kansas**

**AGENCY NAME: Adjutant General's Department**  
**PROGRAM TITLE: Homeland Security**  
**SUB-PROGRAM: Kansas Intelligence Fusion Center (KIFC)**

---

**PURPOSE:**

Funding provides for Kansas Intelligence Fusion Center (KIFC) personnel and administrative costs to “Generate intelligence analysis critical for homeland security policy and relevant threat warning, in order to protect life, liberty and property in Kansas and the Great Plain Region” - (K.S.A. 48-3704 (A)). KIFC is focused on four specific homeland security areas: 1) cyber-warfare threats and threats to Critical Infrastructure/Key Resources (CIKR); 2) biological and agricultural threats affecting animal health, plant/crop health, and human health; 3) malign foreign activities; and 4) terrorism threats, asymmetric warfare threats and transnational criminal organization threats.

**SUBPROGRAM EXPLANATION:**

Aggressively search, process, and utilize all-source intelligence systems and databases to: 1) identify Kansas-related threats; 2) raise threat awareness/understanding among governmental and private sector leaders; 3) assist those leaders as they develop mitigation strategies and forward-looking policy. Support Kansas specific homeland security needs while protecting the civil liberties and privacy of Kansas citizens and building trusted partnerships with Kansas officials, owners/operators of critical infrastructure/key resources, federal homeland security partners, the intelligence community and law enforcement agencies. Conduct rigorous intelligence analysis to support Kansas specific homeland security leadership decision making needs at the strategic and tactical levels.

**CONSEQUENCE OF NOT FUNDING:**

Reduced funding would result in fewer analysts, significantly reducing the awareness of cyber, critical infrastructure, biological (and agricultural) and terrorism threats to Kansas, its citizens, governmental institutions, and private sector operators of critical infrastructure, especially during a period of heightened geopolitical tension. This will directly result in reduced ability to identify, prevent and mitigate threats to Kansas.

**PERFORMANCE MEASURES:**

	<b><u>FY 2022</u></b>	<b><u>FY 2023</u></b>
Requests / Bulletins Received	1,654	1,895
Passed to Other Agencies	1,446	1,506

**NARRATIVE INFORMATION – DA 400**  
**Division of the Budget**  
**State of Kansas**

**AGENCY NAME: Adjutant General's Department**  
**PROGRAM TITLE: Emergency Management & Homeland Security**  
**SUB-PROGRAM: Mitigation, Preparedness, Prevention, Response & Recovery**

---

**PURPOSE:**

Funding provides for Kansas Division of Emergency Management (KDEM) personnel and administrative costs associated with planning, mitigation, response, recovery, training, and exercises.

**VISION:**

Building sustainable emergency management capabilities in Kansas

**MISSION STATEMENT:**

Protect Kansans from all hazards by providing and coordinating resources, expertise, leadership, and advocacy through a comprehensive, risk-based emergency management program.

**VALUES:**

Integrity, Collaboration, Advocacy, Fiscal Responsibility, Professionalism

**SUBPROGRAM EXPLANATION:**

The Kansas Division of Emergency Management (KDEM) is the civilian division of the Adjutant General's Department that provides management and coordination for the state's emergency management program. The state's adjutant general serves as director of the agency as well as the commanding officer of the army and air national guard and as the director of Homeland Security.

The Division of Emergency Management, in coordination with county emergency managers and the Department of Homeland Security, Federal Emergency Management Agency (FEMA), sets the standard of ethics, effectiveness, accountability, and efficiency assisting Kansans in protecting families, homes, workplaces, communities and livelihoods from the daily impact of disasters. The Division provides leadership, information, and coordination to government and private organizations seeking to prevent and prepare against potential hazards.

KDEM was created under the revised statutes of Kansas, KSA Chapter 48, Article 9, (Kansas Emergency Preparedness for Disasters Act); and KSA Chapter 65, Article 57, (Kansas Emergency Planning and Community Right to Know Act). Specifically, under the *Emergency Management Act*, it is the responsibility and the state to:

- Reduce the vulnerability of people and communities to damage, injury, loss of life and/or property resulting from natural, technological or human disasters and emergencies, civil disturbances, hostile military or paramilitary action;
- Provide an emergency management system embodying the aspects of mitigation, preparedness, response, and recovery;
- Clarify and strengthen the roles of the governor, state agencies and county governments in the prevention of, preparation for, response to and recovery from disasters, emergencies or civil defense emergencies;
- Authorize and provide for cooperation and coordination of activities relating to prevention of, preparedness for, response to and recovery from disasters, emergencies and civil defense emergencies by agencies and officers of this state and its political subdivisions;

**NARRATIVE INFORMATION – DA 400**  
**Division of the Budget**  
**State of Kansas**

**AGENCY NAME:** Adjutant General's Department  
**PROGRAM TITLE:** Emergency Management & Homeland Security  
**SUB-PROGRAM:** Mitigation, Preparedness, Prevention, Response & Recovery

---

- Assist in mitigation and prevention of disasters, emergencies and civil defense emergencies caused or aggravated by inadequate planning for and regulation of public and private facilities and land; and
- Provide funding of activities incidental to carrying out the purposes of the Emergency Management Act.

**HISTORY & STATUTORY HISTORY:**

1941: Kansas Legislature establishes the State Council of Defense at the request of Kansas Governor Payne Ratner, and defines provisions for allowing local councils of defense. October 11 Governor Ratner, in collaboration with the Kansas League of Municipalities, requests official action by local government bodies to establish, through proclamation, local councils of defense. December 8 Governor Ratner renews his request of October 11 asking for establishment of local councils of defense, citing the urgency of the situation given the recent Japanese attack on Pearl Harbor, and the US declaration of war against Japan on this day.

1951: Kansas Legislature establishes the State Civil Defense Agency. The authority and responsibilities included in the original legislation dealt exclusively with attack-related civil preparedness but did not address other disasters.

1955: The State Civil Defense Agency becomes a division of the Adjutant General's Department. The adjutant general became responsible for the level of preparedness throughout the entire state, at both the state and local (county/city) level. The adjutant general also assumed the role of advising the governor with respect to disaster/emergency powers and duties. This legislation solidifies the division's role of coordinating state level response to all types of emergencies/disasters.

1974: The Kansas legislature repealed the *State Civil Defense Act* and replaced it with the *Emergency Preparedness for Disasters Act*, K.S.A. 48-901, and et seq. This legislation expanded the duties and strengthened the agency's authority. It requires counties to establish and maintain a disaster agency responsible for emergency preparedness, to coordinate local response to disasters, and to maintain an emergency operations plan to be approved by the Kansas Division of Emergency Management (KDEM). The title of Civil Defense changed to the Division of Emergency Preparedness. This reflected the "dual use" of nuclear and natural disaster and preparedness as stated in the *Robert T. Stafford Act of 1974*.

1970s: To meet requirements of the federal Nuclear Regulatory Commission (NRC), a Radiological Systems Management section was established. Responsibilities included inspection, repair, calibration, and exchange services for over 70,000 radiological detection, as well as identification, and computation instruments in Kansas. The construction of two nuclear power plants – the Wolf Creek Generating Station near Burlington, Kan., and the Cooper Nuclear Station in southeast Nebraska – required increased planning activities to protect the public from a potential release of radioactive material into the environment.

1980 & 1981: *State Civil Defense Act of 1950* amended to include both natural and technological disaster management responsibilities. It provided dual use of funds for both peacetime and wartime preparedness.

**NARRATIVE INFORMATION – DA 400**  
**Division of the Budget**  
**State of Kansas**

**AGENCY NAME: Adjutant General's Department**  
**PROGRAM TITLE: Emergency Management & Homeland Security**  
**SUB-PROGRAM: Mitigation, Preparedness, Prevention, Response & Recovery**

---

1980: Congress enacted the federal *Comprehensive Emergency Response, Compensation, and Liability Act (CERCLA)*. This legislation funds cleanups and emergency response actions for some of the worst inactive or orphaned hazardous waste sites across the country.

1986: Combined the Division's Natural Disaster Planning section and the Nuclear Civil Protection Planning section to form the Population Protection Planning section. The federal CERCLA legislation amended and expanded in the Superfund Amendments and Reauthorization Act of 1986 (SARA). Known as the *Emergency Planning and Community Right-to-Know Act of 1986* is the third part of SARA, Title III. This portion of the legislation made over 300 extremely hazardous substances subject to routine and detailed reporting to designated local, state, and federal government agencies. It also required local planning committees to use this information to create effective plans for hazardous materials.

1993: The Division of Emergency Preparedness designated as the Division of Emergency Management (KDEM).

1999: State Executive Reorganization Order No. 29 created the Commission on Emergency Planning and Response (CEPR), which became law on July 1, 1999, to facilitate a coordinated effort for the planning, preparation, response, and mitigation of emergencies for the state of Kansas. The commission chartered three organizations – the State Hazard Mitigation Team (comprised of 37 state agencies that prioritize disaster mitigation projects); the Local Emergency Planning Committee (that meets the legal requirements of the Title III Community Right-to-Know Act); and the terrorism working group (created long before 9-11 to prepare for and respond to terrorist incidents in Kansas).

2002: Adjutant general named homeland security director by Governor Bill Graves.

2004: Homeland Security Presidential Directive 5 (HSPD-5) Management of Domestic Incidents called for the establishment of a single, comprehensive national incident management system. States and territories must implement the National Incident Management System (NIMS) within all departments and agencies, but also ensure that the systems and processes are in place to communicate and support NIMS compliance at all jurisdictional levels. On September 8, 2004, a letter to the nation's governors detailed the initial steps that states, territories, tribal nations, and local governments need to take to begin implementation of NIMS. Since that time, NIMS compliance activities have expanded and grown to enhance the preparedness for effective management of incidents at all levels of government. This directive requires (1) the state to educate state agencies and local governments on NIMS; (2) to disseminate information regarding annual NIMS compliance; (3) to ensure that all first responder training and exercises meet NIMS objectives; (4) to conduct annual compliance reporting of the state; (5) to gather annual compliance reporting from state agencies and local governments; (6) to ensure that federal preparedness grant funds are used in support of NIMS.

2005: Governor Kathleen Sebelius issued Executive Order 05-03 establishing NIMS as the incident management system in Kansas.

2011: On March 30, 2011, President Barack Obama signed Presidential Policy Directive 8: National Preparedness (PPD-8). PPD-8 directs the development of a National Preparedness Goal to identify those activities that to accomplish to prevent and protect against acts of terrorism in the homeland and mitigate against, respond to, and recover from emergencies and disasters regardless of their cause. (This replaces HSPD-8 and Annex 1)

**NARRATIVE INFORMATION – DA 400**  
**Division of the Budget**  
**State of Kansas**

**AGENCY NAME:** Adjutant General's Department  
**PROGRAM TITLE:** Emergency Management & Homeland Security  
**SUB-PROGRAM:** Mitigation, Preparedness, Prevention, Response & Recovery

---

Governor Sam Brownback issued Executive Order 11-05, establishing the Office of Homeland Security and the names the adjutant general as homeland security advisor.

2013: On May 17, 2013, the State of Kansas emergency management program received full accreditation by the Emergency Management Accreditation Program (EMAP). Emergency management accreditation represents a significant achievement in that to achieve accreditation many agencies within the jurisdiction took steps to document compliance with sixty-four national standards and peer-review on-site assessment by a team of EMAP trained assessors. Accreditation recognizes the ability of government to bring together personnel, resources, and communications from a variety of agencies and organization in preparation for an in response to a disaster of any time.

2017: The Office of Emergency Communications was transferred to the Kansas Division of Emergency Management. This newly created section, Emergency Communications is located within the Response & Recovery Bureau. The section is lead for Emergency Support Function (ESF) #2 in the State Emergency Operations Center, implements the public service broadband program; maintains readiness to deploy two Communications on Wheels to disasters, and provides technical assistance and planning for statewide communications.

2018: The State of Kansas emergency management program received consecutive accreditation by the Emergency Management Accreditation Program (EMAP).

2024: The State of Kansas emergency management program received their third consecutive accreditation by the Emergency Management Accreditation Program (EMAP).

**FEDERAL FUNDING STREAMS:**

Federal grant funding awarded to KDEM consists of the following:

- Department of Homeland Security (DHS), Emergency Management Performance Grant (EMPG)
- Department of Homeland Security (DHS), State Homeland Security Program (SHSP)
- Department of Transportation, Hazardous Materials Emergency Preparedness (HMEP)

**ORGANIZATIONAL STRUCTURE:**

The Kansas Statutes Annotated (KSA) requires that each county maintain a disaster agency responsible for emergency preparedness and coordination of response to disasters. The KSAs also require each county to maintain a Local Emergency Operations Plan (LEOP) approved by the Kansas Division of Emergency Management (KDEM). These statutes are the basis for the state/county relationship, which is solidified by continued contacts and mutual assistance on day-to-day operations, and during times of disasters. Kansas Administrative Regulation (KAR) 56-2-2 further defines this relationship. The state and local governments work together to provide training to local/county emergency management and first responders and recovery personnel. The same is true for the conduct of periodic exercises to test the state and county emergency management systems.

Kansas Division of Emergency Management is in the State Defense Building in Topeka, Kansas and during the height of the Cold War; the building's intent was to serve as Kansas' government headquarters if a nuclear attack was likely. This location now serves as the nerve center for emergency management. KDEM is a small division with less than 50 full-time and part-time employees. The deputy director manages day-to-day operations. Each staff member within KDEM, while assigned specific duties within the division, works under the state's incident management system, consistent with the National Incident Management System (NIMS). KDEM uses the Kansas Response Plan (KRP) and strategic priorities as identified in the annual Improvement Planning Workshop as the basis for implementing programs at the state and local level. This ensures that programs across all disciplines and all levels are comprehensive and integrated across the entire state.

**Administration**

Led by the deputy director who reports directly to the adjutant general, administration provides continuity between all bureaus in KDEM

**Mitigation & Planning Bureau**

The KDEM planning and mitigation bureau works with municipal, county, state, federal, and volunteer organizations on a variety of emergency management planning activities, Geographic Information Systems (GIS) projects, and mitigation issues.

These include, but are not limited to the following:

- Assisting communities on the development and maintenance of their all-hazards County Emergency Operations Plans (CEOPs);
- Coordination and maintenance of the Kansas Response Plan (KRP) and overall state planning assistance;
- State and local Continuity of Operations Planning (COOP);
- Threat analysis, hazard analysis and vulnerability assessments;
- Development and maintenance of State Hazard Mitigation Plan;
- Review of jurisdictional hazard mitigation plans;
- Administer and provide county support to establish and sustain a statewide resource management program;
- Administration of available hazard mitigation assistance grant programs;
- Assistance to applicants in the development of hazard mitigation grants applications; and
- GIS support through maps, database design, management, and mapping applications.

- Logistics and KDEM Disaster Warehouse Operations

### **Prevention & Preparedness Bureau**

Our nation faces a wide range of threats and hazards, including acts of terrorism, cyber-attacks, pandemics, and catastrophic natural disasters. Communities can address the risks these threats and hazards pose by working together to frame and prioritize prevention and preparedness activities that best address local and state needs. In an all-hazards environment, individuals and institutions will make different decisions on how to prepare for and respond to threats and hazards. The challenge for those engaged in emergency management is to understand how to work with the diversity of groups and organizations and the policies and practices that emerge from them.

Building, sustaining and delivering capabilities is recognized as the means to achieve certain desired outcomes identified in the Department of Homeland Security National Preparedness Goal. The National Preparedness Goal is the cornerstone for implementing preparedness activities across five mission areas: *prevention, protection, mitigation, response, and recovery*.

The National Preparedness System emphasizes a whole-community approach that strives to engage individuals, families, communities, private and nonprofit sectors, faith-based and disability organizations, and all levels of government. Preparedness initiatives in Kansas continue to build upon these whole-community partnerships with a focus on blending expertise and integrating resources to best serve the citizens of the state. Emergency management practitioners, organizational and community leaders, and government officials collectively work to understand and assess the needs of communities statewide and determine the best ways to organize and strengthen assets, capacities, and interests to build community resilience.

On an annual basis, state partners meet during an Improvement Planning Workshop to discuss existing capabilities, as well as examine needs and priorities that can be strengthened through training and exercise activities. The State Preparedness Report (SPR) is examined to identify outstanding gaps as well as share initiatives implemented to improve statewide capabilities.

#### Training Program

The primary mission of the KDEM training program is to provide training and support for each county's comprehensive emergency management program and the state Emergency Support Function (ESF) partners, as defined in the Kansas Response Plan, to create and sustain a training program within their jurisdiction. The objective is to provide training program that will enhance the knowledge, skills, and abilities of county and state emergency managers, their staff, and state ESF partners in the areas of mitigation, prevention, preparedness, response, and recovery involving all-hazard disasters and emergencies. The training program also facilitates the delivery of skill building courses for first responders to support deployable asset capabilities.

To conduct courses in all regions of the state, KDEM training program relies heavily on a cadre of volunteer instructors. These individuals come from a variety of state and local disciplines and teach the general emergency management courses and the courses for National Incident Management System (NIMS) compliance.

### Exercise Program

The Kansas Division of Emergency Management exercise program promotes the importance of establishing and maintaining progressive, self-sustaining exercise programs across Kansas to help ensure jurisdictions have plans, policies, and procedures that have been tested and validated to reflect the capabilities of the whole community.

The exercise program follows the principles set forth in the Homeland Security Exercise and Evaluation Program, which provides guiding principles for exercise programs and a common approach to conducting exercises. KDEM provides technical assistance to local and state agencies, as well as training for Homeland Security Exercise and Evaluation Program and exercise design courses for discussion-based and operations-based exercises.

Crisis City located in rural Saline County officially opened Oct. 1, 2009, and serves as a multiuse, fully functional training and exercise complex for local, state and federal responders, emergency management officials, public and private industry safety professionals, and military operations in support of civil authorities. Building essential response capabilities requires a systematic program to train individuals, teams and organizations – to include governmental, nongovernmental, private sector and voluntary organizations – to meet a common baseline of performance and, in some cases, to meet certification standards. Successful response and recovery efforts are built upon rigorous, ongoing training, along with professionalism and experience.

### **Response and Recovery Bureau**

One of the primary missions of the Adjutant General's Department is to protect the lives and property of Kansas citizens when natural and human-made disasters strike. The Kansas Division of Emergency Management (KDEM), through the Kansas Response Plan, coordinates the response activities of state agencies to support county emergencies. Emergency management collaborates daily with other state agencies, federal agencies, private-industry and voluntary organizations to ensure operational plans are exercised, revised, and consistent with current federal mandates. Kansas Division of Emergency Management (KDEM) also works with the county emergency managers, Wolf Creek Generating Station and numerous other agencies to provide training, technical expertise, assistance, resources and assessments.

### Response Section

#### *State Emergency Operations Center*

Led by the Response Section Chief, the State Emergency Operations Center (SEOC) exists to gather, process, and report emergency intelligence to aid in state policy and decision making; support local communities as they direct and control disaster emergency response operations; and account for the state's response support costs. The SEOC's ability to exchange critical disaster information is achieved through diverse and redundant communications technologies. Members of KDEM staff serve as the duty officer on a rotational basis taking calls for a host of incidents in addition to severe weather such as tornadoes, floods and blizzards. A terrorist attack is managed in the same manner as a tornado or flood.

**AGENCY NAME:** Adjutant General's Department  
**PROGRAM TITLE:** Emergency Management & Homeland Security  
**SUB-PROGRAM:** Mitigation, Preparedness, Prevention, Response & Recovery

---

*Kansas Division of Emergency Management (KDEM) Regional Coordinators*

K.S.A. 48-929(n) requires the Kansas Division of Emergency Management (KDEM), under the direction of the adjutant general, to develop a regional emergency management system that includes the use of regional coordinators that provide training and preparation of state, county, city, and inter-jurisdictional disaster agencies to prevent, respond to, mitigate, and recover from emergencies.

The guiding mission of the regional coordinators is to assist local officials in coordinating preparedness activities, and to act as a state liaison representative to establish and maintain linkages among the prevention and response community partners at the local, regional, state, and federal levels.

*Kansas Incident Support Program*

The Kansas Incident Support Team is made up of individuals throughout the state from municipal and county levels of government, as well as the private sector who meet Kansas established qualifications for their specific position. County emergency managers can request Incident Support Teams to provide emergency operations center (EOC) support, incident management, and incident support during times of emergencies and recovery from.

Kansas Division of Emergency Management (KDEM) is responsible for developing policies and procedures for the formation, training, equipping, deployment, and sustainment of the Kansas Incident Support Program. Members participate in ongoing training and exercises annually to maintain readiness for deployment to emergencies and disasters within their region and across the state. Kansas Division of Emergency Management has adopted the Federal Emergency Management Agency's (FEMA) National Qualifications System (NQS) as the standard for position-specific task books.

Technological Hazards Section

Kansas Division of Emergency Management's (KDEM's) technological hazards section provides direction and planning guidance concerning potential accidents involving hazardous substances such as toxic chemicals, radioactive substances and potential releases from nuclear power plants. The section provides technical assistance related to chemical and radiological vulnerability planning, emergency notification and statewide emergency coordination.

The technological hazards program is responsible for maintaining the state's *Nuclear Facilities Incident Response Plan* and ensures that participating state agencies are trained and knowledgeable in their role during a nuclear incident at either Wolf Creek Generating Station near Burlington, Kansas, or Cooper Nuclear Station in Nebraska and for administering the Hazardous Materials Emergency Preparedness (HMEP) Grant.

The section stores, repairs and lends radiation detection devices for use by various public agencies in case of radiological materials accidents. To ensure the devices accurately register radiation they are serviced and calibrated regularly.

**State of Kansas**

**AGENCY NAME: Adjutant General's Department**  
**PROGRAM TITLE: Emergency Management & Homeland Security**  
**SUB-PROGRAM: Mitigation, Preparedness, Prevention, Response & Recovery**

---

The technological hazards section receives and maintains the hazardous material spill and release notifications on behalf of the Commission on Emergency Planning and Response (CEPR). Spills that exceed the Environmental Protection Agency's (EPA's) reportable quantities must be reported to Kansas Division of Emergency Management (KDEM). The section also assists the commission by providing technical guidance on the roles and responsibilities of the Local Emergency Planning Committees (LEPC) and by maintaining membership listings of the LEPCs. The technological hazards section administers the Hazardous Materials Emergency Preparedness (HMEP) grant program for the state of Kansas.

Recovery Section

The recovery services section is responsible for assisting individuals and communities in recovering from disasters and emergencies. The disaster recovery section's mission is to coordinate state and federal actions with local jurisdictions to assist those impacted communities in recovering from disasters. Through the Public Assistance program (governments - private and non-private, and Indian tribes) and Individual Assistance program (individuals, families and households, and businesses) programs and activities, the recovery section works to reduce human suffering during disasters and enhance recovery after they occur.

During non-disaster time, the Kansas Division of Emergency Management actively engages with partner agencies, disaster human service professionals, and voluntary organizations active in disaster to train for response to disasters and emergencies.

Kansas Assessment Teams

The Kansas Assessment Team managed by the KDEM human service officer, is comprised of professional building officials who are members of the International Code Conference of Building Officials. In the wake of disasters, this team conducts damage assessment of homes, business, and other buildings, providing information to owners and others regarding the safety and validity of issuing building permits to repair or rebuild structures.

Public Assistance Cadre

The Kansas Public Assistance program conducts its operations with one full-time state employee, while drawing from a diverse, seasoned and mentored cadre of augmented personnel. These men and women are retired military with proud traditions of serving the state of Kansas and continue their service as public assistance coordinators and crew leaders, and public assistance project specialists.

Augmented positions can be coordinated for preliminary damage assessments and project assignments throughout Kansas counties affected by the disasters.

Public Information Cadre

The Public Information cadre is comprised of trained public information specialists, organized through the Adjutant General's Department Public Affairs Office, and activated to manage and coordinate information in and for the Joint Information Center and do public information coverage and outreach during periods of response and recovery from disasters or major emergencies.

Citizen Corps

In January 2002, President George W. Bush launched USA Freedom Corps, an initiative that includes Citizen Corps, to capture the spirit of service that emerged throughout our communities following the terrorist attacks. To further readiness of counties against all hazards, including terrorism, Kansas Division of Emergency Management (KDEM) manages the Kansas Citizen Corps program.

The Kansas Citizen Corps program is made up of Medical Reserve Corps teams (MRC), Neighborhood Watch organizations, Volunteers in Police Service programs (VIPS), Fire Corps programs and Community Emergency Response Teams (CERTs).

## STRATEGIC GOALS

**Goal #1:** *Strengthen the State of Kansas' ability to prevent, protect, respond to, and recover from all hazards.*

**Goal #2:** *Meet the challenges of the future by changing the way we do business today.*

**Goal #3:** *Enhance statewide preparedness capabilities through collaboration and partnerships.*

The number one priority in Kansas is for the safety of our citizens and first responders through comprehensive emergency management and homeland security programs. Because of the partnerships between citizens, state, local governments and the private sector, Kansas is more secure and better prepared to prevent and respond to acts of terrorism and other disasters, natural, technological, or human-made.

**Goal #1:** *Strengthen the State of Kansas' ability to prevent, protect, respond to, and recover from all hazards.*

### **PERFORMANCE MEASURES:**

	<b><u>FFY 2024</u></b>	<b><u>FY 2025</u></b>	<b><u>FY 2026</u></b>
Review State Hazard Mitigation Plan annually and FEMA approval every five (5) years.	Yes	Yes	Yes
Number of exercises conducted.	154	175	175
Number of emergency preparedness training courses conducted/participated in Kansas each year	78	90	90
Percentage of the 12 Kansas Emergency Management Regions that have an approved Regional Hazard Mitigation Plan.	100%	100%	100%
Maintain an approved State Response Plan renewed every three (3) years	Yes	Yes	
Number of reviewed County Emergency Operations plans (105 Counties)	19	21	20
Increase the number of personnel/mission ready packages in the Comprehensive Resource Management and Credentialing System (CRMCS) by 5% over the previous year.	Yes	Yes	Yes
Percentage of the 2500+ GIS data layers that is kept current in the database.	100%	100%	100%
Number of public awareness campaigns for individual and family preparedness.	12	12	12
Number of exercises conducted each FY that focus on the top tier threats to Kansas.	6	6	6
Percentage of Kansas Homeland Security Regions visited each year for technical & procedural review.	100%	100%	100%
Number of meetings/trainings/exercises conducted for ESF partners.	4	4	4

### **CONSEQUENCE OF NOT FUNDING:**

A reduction in funding would significantly reduce the ability for the State of Kansas to prepare, respond, and recover from any natural or unnatural disasters. It is necessary to have state funds to receive federal funds. Without State funds these programs would not be able to support their statutory requirements. The inability to serve our state in times of need would be evident during a disaster. Lack of funds to adequately prepare for, respond to, and recover from any disaster could be devastating to our state.

**PROGRAM TITLE: Emergency Management & Homeland Security**  
**SUB-PROGRAM: Mitigation, Preparedness, Prevention, Response & Recovery**

---

**Salaries and Wages**

The salaries budgeted will finance 38 employees.

**Contractual Services**

The budgeted major expenditures in this category are rents, travel & subsistence, fees for other services, and fees for professional services. Rents are primarily for facility rental at various armories throughout the state for the regional Kansas Division of Emergency Management (KDEM) coordinators, the lower level of the State Defense Building and classrooms. Travel & subsistence is for Kansas Division of Emergency Management (KDEM) staff to travel to meet with county emergency managers, stakeholders, grant recipients or local units of government; conduct risk assessments; damage assessments; conduct inspections; travel to meetings, conferences, seminars, training, etc. Fees for other and professional services include a wide range of services necessary to accomplish Kansas Division of Emergency Management (KDEM's) mission, such as consulting services, computer/web application development services, security background checks, reimbursement of travel expenses for participants of Kansas Division of Emergency Management (KDEM sponsored training and exercises; fees for temporary and contract employees; payments made directly for lodging, etc.

**Commodities**

The budgeted major expenditures in this category are professional and scientific supplies, stationery and office supplies, and data processing supplies. Professional and scientific supplies include the purchase of radiological equipment, training videos, handbooks, and reference publications. Stationery and office supplies is for purchasing fax and copier toner, pens, paper, envelopes, non-capitalized office equipment, etc. Data processing supplies include printer toner and drum kits, computer software, CDs, flash drives, non-capitalized computer equipment, etc.

**Capital Outlay**

The budgeted expenditure in this category is for replacement of computers, printers, software, software agreements and building maintenance.

**Aid to Local and Other Assistance**

This is budgeted for any public assistance & hazardous mitigation grant projects.

406/410S - 406/410 series report

mineth / 2026A0200034

**NARRATIVE INFORMATION – DA 400**  
**Division of the Budget**  
**State of Kansas**

**AGENCY NAME: Adjutant General's Department**  
**PROGRAM TITLE: Emergency Management & Homeland Security**  
**SUB-PROGRAM: Radiological, Biological, & Nuclear**

---

**PURPOSE:**

Funding provides for personnel, administrative, training, and exercise activities. These efforts develop and promulgate planning standards and guidance concerning hazardous substances such as toxic chemicals, radioactive substances, biological agents, and potential releases from nuclear power plants. Provides technical assistance related to chemical, biological, and radiological response planning, emergency notification and statewide emergency coordination. Maintains the state's *Radiological Emergency Response Plan for Nuclear Facilities* and exercises the plan. Calibrates and distributes radiation detection devices for use by various public agencies in case of an incident at one of the nuclear power plants. Receives advance shipment notifications for radiological materials traveling through Kansas.

**SUBPROGRAM EXPLANATION:**

Kansas Division of Emergency Management's (KDEM) technological hazards section provides direction and planning guidance concerning potential accidents involving hazardous substances such as toxic chemicals, radioactive substances, and potential releases from nuclear power plants. The section provides technical assistance related to chemical and radiological vulnerability planning, emergency notification and statewide emergency coordination.

The technological hazards program is responsible for maintaining the state's *Nuclear Facilities Incident Response Plan* and ensures the participating state agencies are fully trained and knowledgeable in their role during a nuclear incident at either Wolf Creek Generating Station near Burlington, Kansas, or Cooper Nuclear Station in Nebraska and for administering the Hazardous Materials Emergency Preparedness (HMEP) Grant.

The section stores, maintains equipment and lends radiation detection devices for use by various public agencies in case of radiological materials accidents. To ensure the devices accurately register radiation they are serviced and calibrated regularly.

The technological hazards section receives and maintains the hazardous material spill and release notifications on behalf of the Commission on Emergency Planning and Response (CEPR). Spills that exceed the Environmental Protection Agency's (EPA's) reportable quantities must be reported to Kansas Division of Emergency Management (KDEM). The section also assists the commission by providing technical guidance on the roles and responsibilities of the Local Emergency Planning Committees (LEPC) and by maintaining membership listings of the LEPCs. The technological hazards section administers the Hazardous Materials Emergency Preparedness (HMEP) grant program for the state of Kansas.

**CONSEQUENCE OF NOT FUNDING:**

Reduced or eliminated funding would inhibit the state's ability to properly prepare and exercise for an event and the State would be in non-compliance with Kansas Regulations. Additionally, if the State does not plan and successfully pass an evaluated exercise, nuclear plants in the State can lose their license to operate.

**NARRATIVE INFORMATION – DA 400**  
**Division of the Budget**  
**State of Kansas**

**AGENCY NAME:** Adjutant General's Department  
**PROGRAM TITLE:** Emergency Management & Homeland Security  
**SUB-PROGRAM:** Radiological, Biological, & Nuclear

---

**STATUTORY REQUIREMENT:**

The Kansas Statute that governs this section is Chapter 48 Article 9 Section 40-48, which is the Kansas Nuclear Safety Emergency Management Act.

To meet requirements of the federal Nuclear Regulatory Commission (NRC), a Radiological Systems Management section was established. Responsibilities included inspection, repair, calibration, and exchange services for over 70,000 radiological detection, as well as identification, and computation instruments in Kansas. The construction of two nuclear power plants – the Wolf Creek Generating Station near Burlington, Kan., and the Cooper Nuclear Station in southeast Nebraska – required increased planning activities to protect the public from a potential release of radioactive material into the environment.

**PERFORMANCE MEASURES:**

	<b><u>FY 2024</u></b>	<b><u>FY 2025</u></b>	<b><u>FY 2026</u></b>
Percentage of outreach to local emergency planning committees and industry regarding emergency planning and community right-to-know act and hazardous materials reporting.	100%	100%	100%
Nuclear Facility Incident Response Plans reviewed and updated annually.	Yes	Yes	Yes
Percentage of repairs/calibration of radiation detection devices done within code.	100%	100%	100%
Percentage of hazardous spills notifications released within 10 minutes of notification.	100%	100%	100%
Conduct an annual nuclear power plant exercise.	Yes	Yes	Yes

**EXPENDITURE JUSTIFICATION:**

**Contractual Services**

Items that fall into this category include phone service, alarm monitoring for secure building, exercise and training instructors, shipping, and travel.

**Commodities**

Items that fall into this category include office supplies, radiation badges, dosimeters, food

**Capital Outlay**

Items that fall into this category include larger electronic purchases (computers, hardware), module desk furniture.

**Non-Expense**

These are pass through funds to other state agencies.

406/410S - 406/410 series report

mineth / 2026A0200034

**NARRATIVE INFORMATION – DA 400**  
**Division of the Budget**  
**State of Kansas**

**AGENCY NAME: Adjutant General's Department**  
**PROGRAM TITLE: Emergency Management & Homeland Security**  
**SUB-PROGRAM: State Active Duty**

---

**PURPOSE:**

Funds pay for National Guard personnel that are activated in a State Active Duty status by the Governor for the purpose of performing emergency duty.

**SUBPROGRAM EXPLANATION:**

The Kansas National Guard protects lives and property in Kansas, provides military capability for our state and nation, and adds value to our communities including ceremonial support and honorary duties at patriotic events. The State Military Service Operations Program provides funds for State Active Duty (SAD) on a cost basis to meet the needs of the people of Kansas. The Governor has the authority to call over 7,000 Kansas National Guard citizen soldiers and airmen to leave their full time employment and families to serve on emergency or other State Active Duty missions. The State pays the salaries and per diem for the service of these members. The Governor also has the authority to commit the large amount of federal training equipment issued to the Kansas National Guard, including helicopters, wheeled vehicles, aircraft, engineer equipment, personnel carriers, generators, etc. The state pays for the use of this equipment on a cost basis.

Since 1855, the Governor has called upon the Kansas National Guard to serve the people of Kansas. The extent of the call-ups is based on the impact of disasters or emergencies, whether natural (e.g., floods, tornadoes, ice storms, etc.) or manmade (e.g., terrorism, civil disturbance). When disaster strikes or community security is threatened, trained Guard members are there, ready to help their neighbors. Over the past several years, the U.S. Department of Defense increased its reliance upon the National Guard. In FY 2018 the Kansas National Guard had approximately \$4.4 billion worth of resources available for use in the state to assist the citizens of Kansas. The financial benefit of the Kansas National Guard to the state exceeded \$439 million in FY 2019. It is a great thing for the citizens of Kansas to know they have well trained personnel that are well equipped and capable of promptly and efficiently responding to all types of situations. Guard members are paid according to the Armed Forces Pay Tables with a minimum specified for all State Active Duty. In addition to emergencies, Kansas National Guard members on State Active Duty participate in ceremonies such as Governor Inaugurations and funerals, plus other community and patriotic ceremonies.

We capitalize on the years of experience of retired Kansas National Guard members who are eligible by statute to serve on Military Boards or be called to State Active Duty by the Governor. The Kansas Military Advisory Board addresses state military programs (e.g., stationing plans and armory actions) and forwards recommendations to the Governor as Commander-In-Chief. The Kansas Military Board pay is funded in Program 01030. The Kansas Military Disability Board makes recommendations on the benefits of members who are injured or killed while serving on State Active Duty.

State Active Duty is also used to perform training exercises and emergency response for Wolf Creek and Cooper Nuclear Power Plants to meet requirements of the Federal Nuclear Regulatory Commission and State laws. The existence of two nuclear power plants, the Wolf Creek Generating Station near Burlington, Kansas, and the Cooper Nuclear Station in southeast Nebraska, require planning activities to protect the public from a potential release of radioactive material releases into the environment. The Office of Military Support to Civil Authorities is the proponent for the National Guard's portion of the response plan. During times of planning exercises and if a response was required due to an accidental release of radioactive material, military personnel from the National Guard must respond immediately to fulfill each of their assigned responsibilities. The State's failure to comply or properly perform during these exercises would adversely impact the plant operating licenses. Funding from the Nuclear

**NARRATIVE INFORMATION – DA 400**  
**Division of the Budget**  
**State of Kansas**

**AGENCY NAME:** Adjutant General's Department  
**PROGRAM TITLE:** Emergency Management & Homeland Security  
**SUB-PROGRAM:** State Active Duty

---

Safety Emergency Management Fees Fund pays for this State Active Duty.

The military status of the Kansas National Guard is reviewed regularly through internal and external reviews by the United States Property and Fiscal Office, National Guard Bureau, U.S. Fifth Army, Inspector General, Army Audit Agency, plus the executive and legislative branches of state government, and the Adjutant General.

**STATUTORY REQUIREMENT:**

State laws passed in 1885, created the Kansas National Guard from resources of the State Militia. As a joint State/Federal agency, the dual mission of the Kansas National Guard is mandated in Article 8, Constitution of Kansas and Article 1, Section 8, of the U.S. Constitution. A 1903 Congressional Act formalized Federal/State authorities in U.S.C. Titles 32, 10, and 5. Law requires all Kansas National Guard members to take support and defend the U.S. and Kansas Constitutions, and serve at the order of the President and the Governor. This dual service is unique to the National Guard in the United States. K.S.A. 48-238, et seq, promulgates authorities of the Governor as Commander-In-Chief to call the Kansas National Guard in the event of disaster or emergency. K.S.A. 48-224, 225, and 206 authorize pay and allowances for Kansas National Guardsmen called to State Active Duty.

K.S.A. 48-213 and 206 require officer and non-commissioned officer education and training be conducted as prescribed by federal authorities. Chapters 3 and 5, Title 32, Section 706, Title 32, U.S.C., prescribes the authorities for purchase and use of federal equipment. These laws also provide the authorities to train and educate members of the Kansas National Guard. K.S.A. 75-2935 prescribes that members of the Officer Candidate School are also state unclassified employees. K.S.A. 48-215 was amended in 1984 that changes Military Advisory Board meetings from quarterly to as needed. K S A's 48-214 and 48-261 prescribe authorities for Military Advisory Board; and Military Disability Board respectively. K.S.A. 48-209 authorizes the Governor to place retired members of the Kansas National Guard on State duty for short periods of time to fulfill essential public safety service to Kansas. K.S.A. 48-253 provides authorities for the State to assist funding the KNG marksmanship programs. A major share is now federally funded including pay, travel, equipment and training.

**CONSEQUENCE OF NOT FUNDING:**

We would be unable to perform the duties as ordered by the Governor in the event of an emergency.

**PERFORMANCE MEASURES:**

	<b><u>FY 2024</u></b>	<b><u>FY 2025</u></b>	<b><u>FY 2026</u></b>
Percentage of all approved State Active Duty missions fulfilled by KSNG per KDEM requirements.	100%	100%	100%
Percentage of guardsmen assigned against authorized positions	100%	100%	100%
Percentage of qualified guardsmen	87.5%	87.5%	87.5%

**SUB-PROGRAM: State Active Duty**

---

**EXPENDITURE JUSTIFICATION**

**Salaries and Wages**

Expenditures are for payroll for soldiers that are put on State Active Duty (SAD)

**Contractual Services**

These expenses pay for travel and per diem and other incidental while on duty.

**Commodities**

Costs in this area are typically used for maintaining some state vehicles or equipment used from the National Guard.

406/410S - 406/410 series report

mineth / 2026A0200034

**NARRATIVE INFORMATION – DA 400**  
**Division of the Budget**  
**State of Kansas**

**AGENCY NAME: Adjutant General's Department**  
**PROGRAM TITLE: Emergency Management & Homeland Security**  
**SUB-PROGRAM: Emergency Communications**

---

**PURPOSE:**

Funding provides for the personnel and administrative costs of the Kansas Division of Emergency Management (KDEM), Emergency Communications section that supports outreach, training, and coordination of statewide public safety communications capabilities. In addition, the section functions as Emergency Support Function 2 (Communications) lead for the State Emergency Operations Center as outlined in the Kansas Response Plan and has operational responsibility for two deployable communications capabilities in support of the state public safety trunked radio system and leads the Statewide Interoperability Advisory Committee, as well as the state's Public Safety Broadband initiative.

**SUBPROGRAM EXPLANATION:**

This subprogram includes the emergency communications section located within the Response and Recovery Bureau of the Kansas Division of Emergency Management (KDEM), Communications on Wheels (COWs) and the Public Safety Broadband Initiative.

**CONSEQUENCE OF NOT FUNDING:**

This section is vital to public safety communications for the state. It functions as the sole focal point for coordinated efforts to ensure effective and available communications in disasters as well as daily public safety operations. Due to its small size, any appreciable reduction in funding could result in complete elimination of functions essential to the statewide application of public safety communications.

**STATUTORY REQUIREMENT:**

KSA-48-937, Communications systems during disasters; recommendations to governor.

**PERFORMANCE MEASURES:**

	<b><u>FY 2023</u></b>	<b><u>FY 2024</u></b>	<b><u>FY 2025</u></b>

**State of Kansas**

**AGENCY NAME: Adjutant General's Department**  
**PROGRAM TITLE: Emergency Management & Homeland Security**  
**SUB-PROGRAM: Emergency Communications**

---

**EXPENDITURE JUSTIFICATION**

**Salaries and Wages**

The budgeted amount will support 5.0 employees.

**Contractual Services**

Most of the expenditures encompass travel, communication equipment, and repairing and servicing.

**Commodities**

Vehicle parts and supplies make up most expenses. The Communication-on-Wheels (COW) must be always fully operational to respond to disasters and other events.

**Capital Outlay**

These purchases are for equipment for the Communications-on-Wheels (COWs).

406/410S - 406/410 series report

mineth / 2026A0200034

**NARRATIVE INFORMATION – DA 400**  
**Division of the Budget**  
**State of Kansas**

**AGENCY NAME: Adjutant General's Department**  
**PROGRAM TITLE: Emergency Management & Homeland Security**  
**SUB-PROGRAM: Civil Air Patrol**

---

**PURPOSE:**

Funding supports administering the budget for the federal Civil Air Patrol program, which provides citizens of the state of Kansas with a well-trained, organized and disciplined group of volunteers that can provide cost effective emergency services through the utilization of the volunteer personnel and assets of the Kansas Wing of the Civil Air Patrol.

**SUBPROGRAM EXPLANATION:**

To provide disaster relief assistance, search and rescue mission capability, aerospace education training, cadet training, communications, and other related functions that fall within the scope of the activity of the federal charter of the National Civil Air Patrol, which is the official auxiliary of the United States Air Force.

To provide citizens of the state of Kansas with an organized and disciplined group of volunteers that can provide cost effective emergency services through the utilization of volunteer personnel and assets of the Kansas Wing of the Civil Air Patrol. The emergency and other services provided by the Civil Air Patrol would be cost prohibitive if the state were required to purchase them. The department is managed by a volunteer director and a .5 FTE secretary who provides a point of contact for administration, information and other requested services on a scheduled weekday basis through the department's office in the headquarters of the Kansas Wing at Salina Municipal Airport, Salina Kansas. The .5 FTE is a state employee.

The National Civil Air Patrol Programs established to assist with the wing missions of the several states include but are not limited to:

1. Administration
2. Operations
3. Communications
4. Cadet Programs
5. Aerospace Education
6. Emergency Services

**CONSEQUENCE OF NOT FUNDING:**

Emergency and other services provided by the Civil Air Patrol such as Search and Rescue and Disaster Relief would be cost prohibitive if the state were required to purchase the services. The state would have to either pay the CAP or contract out those duties that the CAP currently provides.

**STATUTORY REQUIREMENT:**

In 1988 the Kansas Legislature established the Department of Civil Air Patrol (CAP), under authority found in KSA 48-3001 et seq, KSA 48-3301-3304.

**NARRATIVE INFORMATION – DA 400**  
**Division of the Budget**  
**State of Kansas**

**AGENCY NAME: Adjutant General's Department**  
**PROGRAM TITLE: Emergency Management & Homeland Security**  
**SUB-PROGRAM: Civil Air Patrol**

---

**PERFORMANCE MEASURES:**

The Adjutant General's Department simply administers the program.

**EXPENDITURE JUSTIFICATION**

**Salaries and Wages**

This program only has .5 FTE.

**Contractual Services**

Expenditures pay for the internet and phone connections, travel and subsistence, and rent

**Commodities**

Expenditures mainly pay for office supplies.

406/410S - 406/410 series report

mineth / 2026A0200034

**Operations:**

Infrastructure activities provide the Kansas Division of Emergency Management and units of the Kansas Army and Air National Guard and Kansas with necessary facilities. Army National Guard equipment and buildings are also used for state purposes, and armories can be available for community use. Most of the buildings and equipment are operated and maintained by the state on a cost sharing basis with the federal government. The program maintains the State Defense Building; the Headquarters Complex; the KS Army National Guard Regional Training Institute; 38 Army National Guard armories, including one Armed Forces Reserve Center.

Of the armories, 34 are state-owned, and 4 are federal property. Most of the state-owned armories were built by the Kansas Armory Board during the 1950s and 1960s, but six armories were constructed between 1987 and 1997, and three more armories were built between 2006 and 2021. One armory has been converted to a training and maintenance facility, and 19 returned to the respective cities. Most Army National Guard facilities have at least one full-time federal employee, who serves as the Non-Commissioned Officer in Charge and handles administrative and training matters.

Army National Guard maintenance, logistical facilities, and training centers are financed by a mix of state and federal funds. They include 7 field maintenance shops, the U.S. Property and Fiscal Office, the Combined Support Maintenance Shop, the Federal Warehouse, the Kansas Training Center in Salina, the Army Aviation Support Facilities at Forbes Field and Salina, the Army National Guard Mission Training Complex at Ft. Leavenworth, the Maneuver Area Training Equipment Site at Fort Riley, and the Unit Training and Equipment Site at Salina.

This program also maintains facilities at Forbes Field in Topeka, McConnell Air Force Base (AFB) in Wichita, and Smoky Hill Air National Guard Weapons Range in Salina for units of the Kansas Air and Army National Guard, which also includes Crisis City that allows for technical rescue training for first responders. The 184<sup>th</sup> Wing at McConnell AFB performs intelligence and cyber missions as assigned. Within the 184<sup>th</sup>, there is also a Regional Support Group, Mission Support Group, Cyber Operations Group and Medical Group. The 190<sup>th</sup> Air Refueling Wing at Forbes Field flies KC-135R tankers and uses buildings at Forbes Field for aircraft maintenance. Within the 190<sup>th</sup>, there is also an Operations Group, Maintenance Group, Mission Support Group, and a Medical Group. Forbes is also home to the 73<sup>rd</sup> Civil Support Team. In addition, this program finances the State Emergency Operations Center, located at 27<sup>th</sup> and Topeka Blvd., which serves as the primary coordination center in Kansas when dealing with disasters.

**Goals and Objectives:**

To execute the state level public works activities to ensure the Adjutant General's Department is ready to accomplish its mission. This includes the construction, sustainment, restoration and modernization of facilities and associated utilities; active and passive security systems; environmental compliance; energy management and operating support. To execute the state level public works activities to ensure the Adjutant General's Department is ready to accomplish its mission. This includes the construction, sustainment, restoration and modernization of facilities and associated utilities; active and passive security systems; environmental compliance; energy management and operating support.

**KANSAS ARMY NATIONAL GUARD**

4,939 Authorized End Strength Army National Guard Members  
4,605 Assigned Army National Guard Members  
93.24% of authorized as of 31 July 2023

The Kansas Army National Guard is comprised of four brigade-level commands with the Joint Force Headquarters located at Forbes Field ANGB in Topeka. Kansas is also the host state for the 35<sup>th</sup> Infantry Division, which is located at Ft. Leavenworth and has subordinate units in two states. The four brigade-level commands include:

- 130<sup>th</sup> Field Artillery Brigade – Manhattan
- 635<sup>th</sup> Regional Support Group – Topeka
- 69<sup>th</sup> Troop Command - Topeka
- 235<sup>th</sup> Training Regiment – Salina
- Surface Maintenance (MATES, A-TEAM, FMS shops)
- State Aviation Office (Army Aviation Support Facilities #1 and #2 – Topeka and Salina respectively)
- 35<sup>th</sup> Division Artillery

**Statutory Requirements:**

Chapter 48 Article 2 encompasses the Kansas Army and Air National Guard and the Armories is covered under Chapter 48 Article 3.

406/410S - 406/410 series report

mineth / 2026A0200034

**NARRATIVE INFORMATION – DA 400**  
**Division of the Budget**  
**State of Kansas**

**AGENCY NAME: Adjutant General's Department**  
**PROGRAM TITLE: Infrastructure**  
**SUB-PROGRAM: Army Guard Facilities**

---

**PURPOSE:**

Funding supports activities associated with the maintenance of Army National Guard (ARNG) buildings and grounds through sustainment, restoration, and modernization. These efforts are essential to providing community based installations and training sites that by virtue of their geographical dispersion can be leveraged by the Army and the State; and that facilitate communications, operations, training, and equipment sustainment to support the deployment of required forces for assigned State and Federal missions.

**SUBPROGRAM EXPLANATION**

The Army National Guard (ARNG) is one of the seven reserve components of the United States armed forces. It is administered by the National Guard Bureau (a joint bureau of the departments of the Army and Air Force). The ARNG has a federal and state mission. The facilities in the State of Kansas are administered and maintained by the Master Cooperative Agreement, in accordance with National Guard Regulation (NGR) 420-10. This agreement is a contract between the State of Kansas and the United States government for the operation and maintenance of US Government facilities licensed for use by the State of Kansas. This agreement is written pursuant to Public Law 95-224, Office of Management and Budget (OMB) Circular A-104 and approved by the Adjutant General pursuant to authorities prescribed in K.S.A. 48-204 A.D. Title 32 U.S.C.

A Master Cooperative Agreement (MCA) between the State of Kansas and the National Guard Bureau (NGB) details the specific guidance for the maintenance and repair of authorized facilities coded on the Facilities Inventory and Support Plan (FISP), and the guidance prescribed in NGR 420-10. This budget solely supports the State of Kansas obligation per this Agreement. This subprogram contains Readiness Centers (Previously Titled Armories), Training Sites Facilities, Logistical Sites, and other state or federal buildings.

The mission statement of the Directorate of Public Works is “to enhance readiness by providing high quality installations to train, maintain, and deploy Kansas National Guard forces. Training Sites, Readiness Centers (including armories), Aviation Sites, Headquarters Buildings, and Logistical Support Facilities must meet current needs. Facilities should be adaptable to future missions and built and/or maintained to high standards of quality and environmental stewardship.” This mission is executed using a philosophy of proactive planning, effective accountability, and proper management of resources.

**Readiness Centers and other Federal Facilities**

This program funds and supports 242 buildings across the state encompassing 2,811,929 square feet of enclosed space located on over 4,581 acres of maintained grounds. This program also funds the sustainment of over 485,242 square yards (SY) of surfaced parking, 448,917 SY of un-surfaced parking, 152,081 SY of roads, 4,170 lineal feet of security fencing, 170,231 LF of perimeter fencing, 11,052 LF of natural gas lines, 38,471 LF of water lines, 152,454 LF of electrical lines, 51,086 LF of sewer lines, and numerous other access control points, pads, flagpoles, exterior security lighting, and over two miles of communication lines. This program also supports state-supported space co-located within larger enclave facilities at Ft. Leavenworth, Ft. Riley, and at Forbes Field in Topeka. The Department of Defense (DOD) recommends that Readiness Center (Armory) facilities be sustained at a funding rate of \$7.39 per square foot in Kansas. Our submission herein reflects a sustainment funding request of much less than the DOD recommends per square foot, not including utilities.

Costs are shared on two levels, 50/50% Federal/State contributions and 100% State contributions. Therefore, on the 50/50 cost share, every dollar of State funds committed to the Agreement will result in the expenditure of one Federal dollar in the State of Kansas. Conversely, any reduction of State dollars from the Agreement will result in the inability to spend the matching Federal dollars in the State of Kansas.

### **Training Site Facilities**

Training Sites include the following responsible units: Public Works, Construction and Facilities Management Office, Director of Logistics (Surface Maintenance Manager) and G3 (Director of Plans, Operation and Training). Statewide training site facilities are supported by 100% federal funds; the amount is negotiated under a federal/state agreement to support the Kansas Army National Guard federal readiness requirements. Major facilities in this program include: Kansas Training Center (KSTC), the Kansas Regional Training Institute, Smoky Hill Weapons Ranges, the Regional Training Site-Maintenance (RTSM) Center; Ft. Riley's Camp Funston, the Maneuver Area Training Equipment Site (MATES), Unit Training and Equipment Site (UTES), and the Vehicle Wash Facility. The program also includes the Mission Training Center (MTC) complex located at Fort Leavenworth.

This program funds and supports one hundred three (103) buildings across the state encompassing 753,842 square feet of enclosed space. This program also funds the sustainment of surfaced parking, un-surfaced parking, roads, security fencing, natural gas lines, water lines, electrical lines, sewer lines, and numerous other access control points, pads, flagpoles, exterior security lighting, and communication lines.

The KSTC serves as an essential field training and readiness improvement center for Kansas Army National Guard units' weekend and annual training. It has 3,594 acres of field training area located seven miles southwest of Salina. The National Guard Bureau now pays for all the physical plant support prescribed in the agreement. Included in the total Training Site square footage listed above, there is over 420,741 square feet of operational space in the buildings at the training center. There are State Employees that provide building, grounds, and weapons and training range maintenance and accounting services. The KSTC also conducts a regional Officer Candidate School and a state Warrant Officer Candidate School. Military Occupational Skill (MOS) training for supply and food service Soldiers and Non-Commissioned Officer Leader training for both the Army National Guard and Army Reserves are also offered here. The RTS-M provides a regional site for various MOS's in tactical equipment maintenance skills from the operator level to major overhaul for tanks, tracked vehicles and other wheeled military vehicles.

State employees and sustainment funds support the Maneuver Area Training Equipment Site (MATES) at Fort Riley and the Unit Training Equipment Site (UTES) at Salina. These two activities store and maintain the tracked vehicle fleet (Heavy Armored Tanks, heavy armor transport and other major combat vehicles) for the entire Kansas Army National Guard (KSARNG). The Vehicle Wash Facility is a state-of-the-art facility that meets all environmental standards and allows for National Guard vehicles to be kept up to standards.

**NARRATIVE INFORMATION – DA 400**  
**Division of the Budget**  
**State of Kansas**

**AGENCY NAME: Adjutant General’s Department**  
**PROGRAM TITLE: Infrastructure**  
**SUB-PROGRAM: Army Guard Facilities**

---

State employees and sustainment funds support the Mission Training Center (MTC) at Fort Leavenworth provides battle simulation training for select units from every States’ Army National Guard. Multiple events occur each year with units from across the nation and occasionally our international allies. The facility trains Brigade and Division Commanders and their staffs to achieve the required level of combat readiness through an intense computer simulation exercise.

**Logistical Facilities**

Logistical Facilities include Field and Sustainment Maintenance Facilities. These facilities were constructed with 100% Federal funds on either State owned land or on Federal land licensed from the Army and Air (Aviation Maintenance Support Facility at Forbes Field AASF#1). Army National Guard maintenance and logistical facilities operating costs are reimbursed through a Cooperative Funding Agreement with the Federal Government providing 100% of the funds.

This program funds and supports 28 buildings across the state encompassing 283,170 square feet of enclosed space. This program also funds the sustainment of surfaced parking, un-surfaced parking, roads, security fencing, natural gas lines, water lines, electrical lines, sewer lines, and numerous other access control points, pads, flagpoles, exterior security lighting, and communication lines.

State employees support this Program. The majority of these employees are being supported with 100% Federal funds, and a few are supported with 25% state funds, with the balance of 75% being supported by the Federal government. These critical State Employees provide everything from engineering, design, physical security, electronic security, environmental compliance, life safety services, to maintenance, repair, road clearing, preventative maintenance, and custodial services.

**CONSEQUENCE OF NOT FUNDING:**

Reduced or eliminated state funding would result in significantly increased risk for Army facilities. Kansas ARNG facilities are currently rated as "poor" in multiple areas and without acceptable funding levels from the state, we cannot sustain and modernize these facilities in order to support training by our Soldiers for our State and Federal missions. If the condition of our facilities falls below acceptable levels there is also risk of losing the units associated with those facilities. The loss of those units would result in the loss of the capabilities they possess for our state during an emergency and a loss of economic impact to our Kansas communities. Additionally, increased state investment in facility maintenance provides additional leverage when pursuing accompanying federal resources.

**PERFORMANCE MEASURES:**

	<b><u>FY 2022</u></b>	<b><u>FY 2023</u></b>	<b><u>FY 2024</u></b>
Percentage of all routine facilities work orders processed within 60 days.	43%	100%	100%
Percentage of urgent work orders processed within 7 days.	100%	100%	100%
Percentage of all emergency work orders processed within 24 hours.	100%	100%	100%
Percentage of preventative work orders completed within the current quarter.	82%	100%	100%
Number of building manager training provided each year across the State.	1	2	2

**PERFORMANCE MEASURES:**

	<b><u>FY 2022</u></b>	<b><u>FY 2023</u></b>	<b><u>FY 2024</u></b>
Percentage of new lease, lease renewal or extensions include an energy audit.	100%	100%	100%
Percentage of lease Energy Audits that conclude Excessive Energy usage have cost effective energy conservation measures implemented.	100%	100%	100%
Percentage of agency architects/engineers that are in compliance with Energy Efficiency Performance Standards for new construction.	100%	100%	100%
Percentage of federal dollars received per state dollars invested for military readiness and facility maintenance.	66.6%	80%	80%

**EXPENDITURE JUSTIFICATION**

**Salaries and Wages**

The salaries and wages budgeted for this program will support 75 employees. No positions that are not planned to be filled are budgeted.

**Contractual Services**

Contractual services for this program include a number of services that require a substantial amount of funding, including utility costs, trash service, pest management, environmental services, and custodial services. The main category of expenditure continues to be utilities. Although many aging systems within the renovated armories have been addressed, on-going preventative maintenance and some day-to-day repairs must still be accomplished.

Every maintenance and repair support dollar the State expends on our Kansas Army National Guard facilities is matched by a dollar from the Department of Defense, (50/50) per our Master Cooperative Agreement. This leveraging concept benefits the state and is the same principle that is used by the state when providing matching federal disaster funding support.

**Commodities**

Commodities purchased for this program fall into three main categories: maintenance and repair parts, professional supplies, and janitorial and household supplies. The money spent to purchase repair and maintenance supplies is one of the most efficient expenditures we have. The Kansas National Guard members who work at the supportable facilities take time away from their federally funded jobs to perform maintenance and repairs to the buildings and grounds. These self-help initiatives save money that otherwise would have to be spent to hire a contractor to perform the work. The National Guard leadership at all levels encourages these types of repair activities.

**Capital Outlay**

The agency will need to replace facilities maintenance support service automobiles and trucks during these years as long as they meet the requirement to be replaced. Vehicles are purchased with mostly or all federal fund and material handling equipment.

**NARRATIVE INFORMATION – DA 400**  
**Division of the Budget**  
**State of Kansas**

**AGENCY NAME: Adjutant General's Department**  
**PROGRAM TITLE: Infrastructure**  
**SUB-PROGRAM: Air Guard Facilities**

---

**PURPOSE:**

Funding supports activities associated with the maintenance of Kansas Air National Guard (ANG) facilities. This Funding is essential to providing facilities that, by virtue of their design, can be leveraged by the State, Air National Guard, and Air Force. The facilities facilitate communications, operations, training, and equipment sustainment supporting the global air refueling mission at the 190 Air Refueling Wing and the cyber operations missions of the 184 Wing, as well as deployment of supporting forces for State and Federal missions.

**SUBPROGRAM EXPLANATION:**

The Air National Guard (ANG) is one of the seven reserve components of the United States armed forces. It is administered by the National Guard Bureau (a joint bureau of the departments of the Army and Air Force). The ANG has a federal and state mission in which the chain of command runs through the State Governor's office to the President of the United States. The facilities in the State of Kansas are administered and maintained by the Master Cooperative Agreement, in accordance with NGR 420-10. This agreement is a contract between the State of Kansas and the United States government for the operation and maintenance of US Government facilities licensed for use by the State of Kansas. This agreement is written pursuant to Public Law 95-224, Office of Management and Budget (OMB) Circular A-104 and approved by the Adjutant General pursuant to authorities prescribed in K.S.A. 48-204 A.D. Title 32 U.S.C.

**Operations and Maintenance Forbes Civil Engineering**

The mission statement of the 190<sup>th</sup> Air Refueling Wing (ARW) is "To provide a trained, professional militia ready to serve Community, State and Nation." To that end, the mission of the 190<sup>th</sup> Civil Engineer Squadron (CES) is to provide a ready team of professional builders, planners, responders and warriors to serve Community, State and Nation.

190<sup>th</sup> Air Refueling Wing values reflect patriots dedicated to protecting and defending basic American values, embodied in integrity and commitment to our people, serving in the Minuteman tradition of teamwork, pride, and selfless dedication to our community, state, and nation. The 190 CES philosophy is to provide personalized customer service to Wing members through optimum maintenance and repair of the 190 ARW facility infrastructures in a rational, prioritized, cost effective manner. This in turn, increases the efficiency, safety and well-being of all personnel in direct support of our varied missions.

A Facilities Operations and Maintenance Cooperative Agreement (FOMA) between the State of Kansas and the federal government provides specific guidance for the maintenance and repair of Air National Guard licensed facilities. This budget solely supports the State of Kansas obligation per this Agreement. Costs are generally shared on the basis of 25% State contribution, 75% Federal contribution. Therefore, every dollar of State funds committed to the Agreement will result in the expenditure of three Federal dollars in the State of Kansas. Conversely, any reduction of State dollars from the Agreement will result in the inability to spend the three matching Federal dollars in the State of Kansas.

The Operations and Maintenance of the 190<sup>th</sup> Air Refueling Wing infrastructure involves the following major budget sub-areas:  
Employee Salaries and Wages  
Contract Services including Utilities  
Commodities including facility maintenance materials

State personnel and FOMA funding support the following Civil Engineer entities:

Base Civil Engineer Administration  
Facility Grounds and Custodial Work  
Engineer Support  
Physical Plant Operations and Maintenance  
Real Property Records Maintenance (100% Federal Funded)  
Resource Advisor (100% Federal Funded)

**Operations and Maintenance McConnell Civil Engineering**

The mission statement of the 184th Wing (WG) is “Air National Guard professionals providing combat capability for our nation while providing support to civil authorities and added value to our community.” The 184 WG has seven unique mission sets that include Air Support Operations, Air Control Operations, Cyber Network Defense Operations, Information Aggressors Operations, Network Support Operations, Intelligence Gathering Operations, and Bombing Range Operations. To that end, the mission of the 184th Civil Engineer Squadron (CES) is to provide economical, efficient, timely, and adequate facility operations and maintenance support to the 184th Wing located at McConnell AFB in Wichita and Smoky Hill Weapons Range near Salina.

The mission of the Air Support Operations Squadron (ASOS) at Smoky Hill Weapons Range is to train and deploy with Army Units. Their mission is to direct air support and air cover; providing links between ground forces and aircrew members providing close air support to units conducting combat operations. The mission requires a properly configured facility with the necessary electrical and mechanical systems to support mission command and control, mission training, radio and vehicle maintenance, weapons storage, planning, and administration support.

The mission of the Air Control Squadron (ACS) at McConnell is to train and deploy to support combat aviation missions in theater. The mission requires a properly configured facility with the necessary electrical and mechanical systems to support mission command and control, mission training, radio and vehicle maintenance, weapons storage, planning, and administration support.

The mission of the Cyber Operations Squadron is to defeat and defend against cyber attacks from individual hackers and nation state supported hackers. The members of this squadron can deploy in place or down range within the United States or outside the continental United States to conduct these “Cyber Hunter” missions. The mission requires a properly configured facility with the necessary redundant electrical and mechanical systems to support mission command and control, mission training, planning, real world operations, and administration support.

The mission of the Information Aggressor Squadron is to test the physical and cyber security of DoD and State infrastructure. The members of this squadron run operations from within their facility and travel to various sites around the globe to evaluate the readiness and resiliency of federal and state agencies. The mission requires a properly configured facility with the necessary electrical and mechanical systems to support mission command and control, mission training, planning, real world operations, and administration support.

The mission of the Network Operations Squadron is to provide a secure, reliable network for all 90 plus Air National Guard units spread across the continental United States. The members of this squadron perform the mission of Cyber Security and Control Systems to generate, project, and sustain combat cyber power every minute of the day, 365 days per year. The mission requires a properly configured facility with the necessary redundant electrical and mechanical systems to support mission command and control, mission training, planning, real world operations, and administration support.

The mission of the Intelligence, Surveillance, and Reconnaissance Group is to provide actionable intelligence to the Department of Defense and other State Agencies. The members of this squadron run operations from within their facilities and travel to various sites around the globe to provide intelligence operations. This mission is cyber intensive and requires properly configured facilities with the necessary redundant electrical and mechanical systems to support real time mission command and control, mission training, planning, real world operations, and administration support.

The mission of the 184 Det-1 Smoky Hill Bombing Range is to provide realistic training for the various aircraft of the Department of Defense. The range mission and maintenance of the numerous facilities is all 100% federally funded. Maintenance of the 15 facilities and thirty thousand acres of land is conducted by 100% federally funded State Employees.

184th Wing values reflect patriots dedicated to protecting and defending basic American values, embodied in integrity and commitment to our people, serving in the Minuteman tradition of teamwork, pride, and selfless dedication to our community, state, and nation. The 184 CES philosophy is to provide personalized customer service to Wing members through optimum maintenance and repair of 184 WG facilities and infrastructure in a rational, prioritized, cost effective manner. This, in turn, increases the efficiency, safety and well-being of all personnel in direct support of our varied missions.

A Facilities Operations and Maintenance Cooperative Agreement (FOMA) between the State of Kansas and the federal government provides specific guidance for the maintenance and repair of Air National Guard licensed facilities. This budget solely supports the State of Kansas obligation per this agreement. Costs are generally shared on the basis of 25% state contribution and 75% federal contribution. Therefore, for every dollar the State of Kansas commits to this agreement, the National Guard Bureau will commit three federal dollars in the State of Kansas. Conversely, any reduction of State matching funds to the agreement will result in the reduction of three matching federal dollars in the State of Kansas per every state dollar not provided. The Operations and Maintenance of the 184th Wing infrastructure involves the following major budget sub-areas:

- Employee Salaries and Wages
- Contract Services including Utilities
- Commodities including Facility Maintenance and Sustainment Materials

State personnel and FOMA funding support the following Civil Engineer entities:

- Base Civil Engineer Administration
- Facility Custodial and Grounds Work Engineer Support
- Physical Plant Operations and Maintenance
- Real Property Records Maintenance (100% Federal Funded)
- Resource Advisor (100% Federal Funded)

### **Forbes Fire Protection**

The mission of the 190th Civil Engineer Squadron Fire and Emergency Services is to promote and provide a full service fire department. Our customer, the 190th Air Refueling Wing is a subordinate unit in the Military Division of the Adjutant General's Department as delineated in K.S.A. 48-238. The Federal Government is authorized under existing National Guard Bureau (NGB) policies to reimburse State agencies for certain reasonable expenses incurred in rendering necessary service and maintenance of facilities, as authorized by 32 U.S.C. 106, 107b(8); and provided for by the annual DOD Appropriation Act; and P.L. 95-224.

The 190th Civil Engineer Squadron Fire and Emergency Services will act in accordance with the highest standards of ethics, efficiency, and professionalism. We affirm that fire protection (structural and aircraft) is a public and private trust. We approach our activities with a deep sense of purpose and responsibility. Our customers can be assured of an aggressive and professional approach to full service fire protection. The objectives of the 190<sup>th</sup> Civil Engineer Squadron Fire and Emergency Services are to educate our customers, promote fire safety and protect the resources of the 190<sup>th</sup> Air Refueling Wing, the State of Kansas, and the United States Air Force.

This program provides a full service fire department for all Department of Defense assets at Forbes Field, Topeka, Kansas, with a workforce of 25 full-time personnel providing 24-hour a day, 365 days a year of continuous fire protection functions to our customers. Internally, provide functional training and certifications for fire department personnel to properly carry out their duties. Externally, we provide fire prevention and education; fire suppression and rescue for both structural and aircraft; confined space rescue; mitigation of hazardous materials release; Urban Search and Rescue capability; inspection and maintenance of fire protection equipment and vehicles. The 190th Civil Engineer Squadron Fire and Emergency Services has mutual aid agreements with nine local Fire Departments. This program operates on a 100% federally funded budget. This level of funding will meet the current and expected needs of this program. This level of funding supports three (3) 48-hour shifts of eight (8) fire protection personnel on each shift and a Fire Safety/Training Specialist working four (4), ten (10) hour days.

### **Smoky Hill**

The mission of the Air National Guard professionals is to provide combat capability for our nation and support to civil authority for the State of Kansas. Patriots dedicated to protecting and defending basic American values, embodied integrity and commitment to our people, serving

**NARRATIVE INFORMATION – DA 400**  
**Division of the Budget**  
**State of Kansas**

**AGENCY NAME:** Adjutant General's Department  
**PROGRAM TITLE:** Infrastructure  
**SUB-PROGRAM:** Air Guard Facilities

---

in the Minuteman tradition of teamwork, pride, and selfless dedication to our community, state, and nation.

Smoky Hill ANG Range is located 6 miles southwest of Salina, Kansas, in Saline and McPherson counties and encompasses a total of 33,873 acres (over 52 square miles). 30,337 Acres are licensed to the State of Kansas for Air National Guard use and 3,536 acres are licensed for the Kansas Army National Guard use for small arms and confidence training courses. Over 13,000 acres are target areas and the remaining 20,667 acres are considered high-hazard safety fan areas and are utilized as a buffer between the target areas and non-government property. The safety fan areas are leased to local farmers for grazing, haying, and agriculture and collectively generate an income of more than \$900,000 annually. More than 36 flying units utilize Smoky Hill Bombing Range and are primarily Air National Guard, Air Force Reserve, and Active Duty Air Force units, but other DoD and coalition units also utilize the range. Training conducted by these units include ordnance deliveries (including laser and GPS guided weapons), strafing, and electronic warfare counter measures training provided by an AN/VPQ-1 TRTG (Tactical Radar Threat Generator. These high tech electronic systems significantly enhance aircrew training, which subsequently increases sorties and expands range operating hours. Additionally, the range has established drop zones which are regularly used by cargo aircraft. Ground training has increased significantly by Air National Guard and Air Force Joint Terminal Attack Controller (JTAC) personnel, Special Ops units, Army and Army National Guard, and all other branches of DoD.

The range is operated and maintained by 24 Air National Guard personnel in full-time active duty status 2 Air National Guard Drill Status Guardsmen and 7 full-time state employees. The state positions which are 100% federally funded consist of a Supply Specialist, Industrial Mechanical Technician, Mechanical Systems Supervisor, Facilities Custodian, Conservation Technician, Conservation Specialist and a Natural Resources Manager, all of which are paid under the FOMA Cooperative Agreement. Smoky Hill has more than 76 miles of roads used for routing traffic across the target area, leaseholder access, and fire control. 30 miles of these roads are considered all weather. Additionally, there are more than 43 miles of strategically located single and double firebreaks that are essential to controlling target area fires as well as the safe execution of lease area control burns. There are 3 water systems, 4 sewage systems, and 15 buildings that are maintained. 13 buildings are considered operational and the other 2 are cold storage only. Funding for range facilities operations and maintenance is based upon the Federal/State agreement. The maintenance of all facilities on the Range, with the exception of ASOS, are 100% federally supported.

**STATUTORY HISTORY:**

The organization of the Air National Guard is prescribed by the Air Force Organization act of 1951. The Real Property, facilities and land, of the 184 WG and 190 ARW is maintained under the auspices of a document known as the Facilities Operations and Maintenance Cooperative Agreement, FOMA. This agreement is a contract between the State of Kansas and the United States government for the operation and maintenance of US Government facilities licensed for use by the State of Kansas. This agreement is written pursuant to Public Law 95-224, Office of Management and Budget (OMB) Circular A-104 and approved by the Adjutant General pursuant to authorities prescribed in K.S.A. 48-204 A.D. Title 32 U.S.C.

**CONSEQUENCE OF NOT FUNDING:**

Significant risk is associated with a lack of state support for air facilities. Without acceptable funding levels from the state, we cannot sustain and

**NARRATIVE INFORMATION – DA 400**  
**Division of the Budget**  
**State of Kansas**

**AGENCY NAME: Adjutant General’s Department**  
**PROGRAM TITLE: Infrastructure**  
**SUB-PROGRAM: Air Guard Facilities**

maintain facilities in order to support training and ongoing operations of our Airmen for State and Federal missions. Loss of federal financial support and recognition could result in loss of Air National Guard missions assigned to the State of Kansas.. The resultant elimination of ANG capability in man-power and equipment for our nation and state would also result in a loss of economic income to our Kansas communities. For every dollar the State of Kansas invests in the FOMA, the state gains a 300% return on that investment when the federal government provides three dollars to match the one state dollar.

**PERFORMANCE MEASURES:**

	<b><u>Forbes</u></b>	<b><u>McConnell</u></b>	<b><u>Smoky Hill</u></b>	<b><u>Total</u></b>
Manpower Funded/Authorized	40/54	24/34	5/5	69/88
Plant Replacement Value/2% PRV of Real Property (\$000)	\$742,670/\$14,853	\$304,480/\$6,090	\$133,668/\$2,673	\$646,046/\$12,920
Authorized Real Property/Total Real Property (SF)	368,699/439,368	309,910/465,615	66,905/99,206	763,612/1,022,048

Acreage maintained	221	260	33,873	34,326
Base Population Assigned/Authorized	1,080/1,093	1,192/1,323	75/87	2,256/2,388

**EXPENDITURE JUSTIFICATION**

**Salaries and Wages**

Funding of salaries and wages supports approximately 75 positions. The State Employees are vital to the success of the military missions at each ANG installation. They ensure the facilities are running in the most efficient manner and are maintained to military and state standards. Without the appropriate funding for these key employees, the federal and state missions of the Air National Guard will fail.

**Contractual Services**

The majority of the expenditures from contractual services are utilities, which makes up approximately 85%. Other expenditures in this category are comprised of reaping and servicing, travel, and other minor expenses. Due to budget constraints, we again are faced with trying to do more with less. Although we continue efforts to reduce energy consumption, the Utility Costs keep increasing. Increased utility costs forced funds budgeted for maintenance and repair to be used to pay the higher energy costs. Reduced funding has made the wings make radical changes in providing services to our customers. Building automation is used to change the building heating and cooling set points during unoccupied periods reducing the demand on heating and air conditioning systems during unoccupied hours to conserve energy. Also, the Airport Joint Use Agreement between the 190<sup>th</sup> ARW and the Metropolitan Topeka Airport Authority is another must pay bill.

**Commodities**

Most of the costs within this area is fuel for vehicles, maintenance supply materials, and other expenses that are required to keep the buildings functioning. Costs associated with repair and maintenance of real property equipment parts continue to increase. The result has been a steady decline in the amount of maintenance performed on the equipment. Short term, this decline results in a cost savings; long term costs are a loss of equipment efficiency, degradation of safety, and significant decrease in equipment life span of the equipment. If not fully funded this budget year we will have to take drastic measures in this category to purchase less repair parts to maintain building systems. These reductions will also result in fewer funds for custodial supplies. Both of these reductions will result in a lower standard of customer service for the base populace and potential mission failure if major components fail pre-maturely. Personal Protective Equipment will continue to be provided for the maintenance staff to ensure their safety.

**Capital Outlay**

This mainly consists of purchases of small equipment and tools needed to maintain the facilities and grounds.

406/410S - 406/410 series report

mineth / 2026A0200034

**NARRATIVE INFORMATION – DA 400**  
**Division of the Budget**  
**State of Kansas**

**AGENCY NAME: Adjutant General's Department**  
**PROGRAM TITLE: Infrastructure**  
**SUB-PROGRAM: Physical Security**

---

**PURPOSE:**

Funding provides for personnel and administrative costs associated with developing and maintaining a practical, economical and effective physical security program that ensures the protection of all Adjutant General's Department personnel and assets. This includes the effective implementation and application of physical security of sensitive conventional arms, ammunition and explosives up to and including the installation and monitoring of intrusion detection systems. Finally, the program provides production of physical security threat assessments, security plans, surveys and inspections.

**SUBPROGRAM EXPLANATION:**

Provide protection of all Federal and State resources located at Forbes Field (ANG) and the Joint Force Headquarters (JFHQ) both in Topeka, Kansas. The security located at Forbes Field is under the management of the Kansas Air National Guard, 190th Air Refueling Wing, and the Adjutant General of Kansas. The security at the JFHQ is under the management of the Kansas Army National Guard, and the Adjutant General of Kansas. The philosophy of both the Forbes and JFHQ security is to take responsible action, provide sound security policies and training to operate and maintain a system of enforcement that deters all acts considered a threat to the Air and Army National Guard; State; and Air Force and Army Resources.

**STATUTORY HISTORY:**

The KSANG Security agreement program is a (100%) federal funded program to the State in which the State agrees to provide Security and Law Enforcement for all KSANG facilities and equipment in accordance with applicable DOD, Air Force, and KSANG directives at Forbes Field, until the unit is mobilized. This includes 200 acres of land with 32 structures, fifteen alarmed areas and twelve (12) KC-135R Aircraft. This agreement provides personnel dedicated to resources protection or security duty, or both. The Federal Government is authorized to reimburse and/or support for certain expenses incurred, authorized by 32 U.S.C., Secs. 106, 107b(8); and provided for annually by the Department of Defense Appropriation Act. Provisions of OMB Circular A-102 (Revised), FMC 74-4 or P.L. 95-224. The Adjutant General as the Governor's Military Chief of Staff, approves this agreement in accordance with the provision of K.S.A. 48-204 and K.S.A. 75-2935, and K.S.A. 48-214.

With the closing of the regular U.S. Air Force activities at Forbes Field in 1973, which included the phase out of Active Duty Air Force Security Police at Forbes AFB, the KSANG was given authority to hire nine (9) DOD Title 5 security guards in FY76 for purpose of improving the security of property consigned to the KSANG, with emphasis given to aircraft, firearms and non-nuclear munitions. In FY 77 DOD Security Guards was increased to eleven (11). In 1978, the KSANG Security Agreement program was reduced to (5) O&M 100% federally funded security guards and these personnel assumed the duties of the law enforcement function for the base. In FY 80, the ANG O&M Support agreement was increased to (6) federally funded O&M personnel. The acquiring of KC-135 aircraft was the reason for this change. NGB was given authority by DOD to hire full time AGR (Active Guard Reserve) Security Guards for aircraft security on KC-135 aircraft (PL2 resources). The KSANG Forbes facility has increased its security on the installation with the use of Alarm systems and Closed Circuit Television (CCTV) equipment. In FY12 due to security concerning ANG-wide, NGB authorized a manning increase to sixteen (16) O & M Security Agreement personnel; (15) Full time Resource Protection Officers and (01) Administrative Assistant. In addition to providing law enforcement duties in protecting government resources belonging to the KSANG, State unclassified employees perform law enforcement functions in mission support duties and other administrative functions as pertains to a law enforcement agency. Personnel employed under this agreement are integrated as much as possible with the Active Guard Reserve (AGR) force authorized to maintain and protect federal property consigned to the Kansas Air National Guard.

**NARRATIVE INFORMATION – DA 400**  
**Division of the Budget**  
**State of Kansas**

**AGENCY NAME: Adjutant General's Department**  
**PROGRAM TITLE: Infrastructure**  
**SUB-PROGRAM: Physical Security**

---

**CONSEQUENCE OF NOT FUNDING:**

Reduced or eliminated funding would result in a significant reduction in the capabilities to provide threat analysis and crime prevention initiatives by the agency. Lack of funding severely limits the ability to safeguard our Airmen, Soldiers, communities and our equipment and increases the potential of theft of conventional arms, ammunition and explosives by terrorist organizations. Additionally, a failure to maintain minimum security standards could result in the loss of units and the subsequent loss of capabilities to support state and federal missions.

**EXPENDITURE JUSTIFICATION:**

**Salaries and Wages**

The budgeted salaries will finance 42 employees. This is an increase due to the hiring of new guards at Mission Training Complex (MTC).

**Contractual Services**

Expenditures cover for travel and training, security contracts,

**Commodities**

Items budgeted in this area covers clothing for the guards, office supplies, and supplies to fix equipment.

406/410S - 406/410 series report

mineth / 2026A0200034

**NARRATIVE INFORMATION – DA 400**  
**Division of the Budget**  
**State of Kansas**

**AGENCY NAME: Adjutant General's Department**  
**PROGRAM TITLE: Infrastructure**  
**SUB-PROGRAM: Environmental**

---

**PURPOSE:**

Funding supports personnel and administrative costs associated with strategic planning and mitigation activities to incorporate and implement Federal, State, and local environmental laws and Department of Defense policies for preserving, protecting, conserving, and restoring the quality of the environment. This includes efforts on pollution prevention where and when possible to reduce or eliminate pollution at the source; conserve and preserve natural and cultural resources so they will be available for present and future generations to use; give priority to sustained compliance with all applicable environmental laws and continue to restore previously contaminated sites deemed as a threat to human health and the environment.

**CONSEQUENCE OF NOT FUNDING:**

Reduced or eliminated state funding increases our risk of liability, litigation, and enforcement action up to and including fines, for environmentally related compliance issues. Lack of funding for identification and remediation of potential and actual environmental hazards in our facilities places our Soldiers and our communities at risk. In addition, this program mitigates potential risk to the agency for environmental asset management which includes air, water, land and cultural resources and solid and hazardous waste management.

**PERFORMANCE MEASURES:**

Annually conduct a minimum of 20 complete Internal Environmental Performance Assessment System (IEPAS) inspections at KSARNG facilities across the state.

<b><u>FY 2022</u></b>	<b><u>FY 2023</u></b>	<b><u>FY 2024</u></b>
100%	100%	100%

**EXPENDITURE JUSTIFICATION:**

**Salaries and Wages**

The budgeted amount will finance salaries and benefits for 7 employees. No positions that are not planned to be filled are budgeted.

**Contractual Services**

The budget includes repairing and services, travel, and profession services supporting hazardous materials testing, cultural and natural resources, and conservation.

**Commodities**

Materials, office supplies, and equipment is what is mainly budgeted for commodities.

**Capital Outlay**

Scientific equipment, other equipment, and some computer programs are needed for this program.

406/410S - 406/410 series report

mineth / 2026A0200034

**NARRATIVE INFORMATION – DA 400**  
**Division of the Budget**  
**State of Kansas**

**AGENCY NAME: Adjutant General’s Department**  
**PROGRAM TITLE: Infrastructure**  
**SUB-PROGRAM: Crisis City**

---

**PURPOSE:**

Funding supports costs associated with the sustainment and utility services of the facility. Crisis City training venue provides local, state and federal responders, emergency management officials, public and private industry safety professionals and select military civil support units with a multi-use training environment. Located near Salina, KS, this centrally positioned training center allows critical response partners from multiple communities the opportunity to conserve precious training resources, eliminate costly travel expenses, and train next to each other in a variety of realistic emergency environments. Nine separate training lanes provide professionals with critical training settings ranging from locomotive derailments and collapsed structure environments to agricultural accidents.

**SUBPROGRAM EXPLANATION:**

Building essential response capabilities requires a systematic program to train individuals, teams and organizations – to include governmental, nongovernmental, private sector and voluntary organizations – to meet a common baseline of performance and, in some cases, to meet certification standards. Successful response efforts building upon rigorous, ongoing training, along with professionalism and experience.

**CONSEQUENCE OF NOT FUNDING:**

Operations at Crisis City will be curtailed or stopped, leaving large parts of the training venue unusable. This would result in a degradation of Kansas first responder skills, and an increase in local, county, and state agency costs by forcing them to pursue this training outside the state of Kansas.

**STATUTORY REQUIREMENT:**

KSA 48-928 (e)

**PERFORMANCE MEASURES:**

Crisis City in operational & ready status 100% of 365/24/7

**FY 2024**

Yes

**FY 2025**

Yes

**FY 2026**

Yes

**EXPENDITURE JUSTIFICATION:**

**Salaries and Wages**

Salaries are budgeted for a 999 employee and existing staff time is charged for specific maintenance activities. A separate task profile is established in the payroll system for accountability.

**Contractual Services**

This covers mainly utilities, and some material.

406/410S - 406/410 series report

mineth / 2026A0200034

**NARRATIVE INFORMATION – DA 400**  
**Division of the Budget**  
**State of Kansas**

**AGENCY NAME: Adjutant General's Department**  
**PROGRAM TITLE: Infrastructure**  
**SUB-PROGRAM: State Emergency Operations Center (SEOC)**

---

**PURPOSE:**

Provides funds for the maintenance and sustainment of the State Emergency Operations Center (SEOC).

**SUBPROGRAM EXPLANATION:**

During emergencies and disasters, the State Emergency Operations Center (SEOC) facility serves as the central command and control facility responsible for carrying out the principles of emergency preparedness, emergency management and disaster management functions. Led by the response section chief, the State Emergency Operations Center (SEOC) exists to gather, process, and report emergency intelligence to aid in state policy and decision making; support local communities as they direct and control disaster emergency response operations; and account for the state's response and recovery support costs. The State Emergency Operations Center (SEOC's) ability to exchange critical disaster information is achieved through diverse and redundant communications technologies. Members of the Kansas Division of Emergency Management (KDEM) serve as a duty officer on a rotational basis receiving reports and resource requests for a host of various incidents.

**STATUTORY REQUIREMENT:**

While no statutory requirement exists to have the State Emergency Operations Center (SEOC), this facility supports KSA 48-924 through 48-928.

**CONSEQUENCE OF NOT FUNDING:**

The State Emergency Operations Center (SEOC) affords the ability for state, federal, local, volunteer, and private sector to come together in a central location to coordinate response and recovery activities to emergencies and disasters throughout the state. Redundant communications enhance support of local response and recovery operations. Operational readiness is paramount to success.

**PERFORMANCE MEASURES:**

SEOC in ready status to be operational as needed 100% of 365/24/7

**FY 2024**

Yes

**FY 2025**

Yes

**FY 2026**

Yes

**EXPENDITURE JUSTIFICATION:**

Visual displays, technology, computers, docking stations, work stations, etc. must be maintained continuously to support immediate response and recovery needs.

**OPERATIONS:**

This activity involves the administration of pass-through funds for state and federal emergencies. Although the total amount of this fund can dramatically rise or fall from one year to the next depending on the number of disasters occurring that year. These funds pass-through the agency to finance local, county and state costs associated with past state or federally-declared disasters.

The agency requests that in the future, these funds be separated from all other Adjutant General's Department funding to give the legislature a more accurate assessment of real agency budgetary trends.

**GOALS and OBJECTIVES:**

The goal of this program is to finance response and recovery for federally-declared disasters.

**STATUTORY REQUIREMENTS:**

Article 9 of Chapter 48 of the *Kansas Statutes Annotated (KSA)* contains the Emergency Preparedness Act. These statutes authorize all of the functions of the Division of Emergency Management. The Robert T. Stafford Disaster Relief and Emergency Assistance Act (PL 100-707) and the Emergency Planning and Community Right-to-Know Act (Title III, PL 99-499) provide for the federal financial and planning role in emergency preparedness activities. KSA 48-907 specifies the duties of the Adjutant General as Chief Administrative Officer of the Division. (Powers of the Governor during an emergency are explained in KSA 48-924 and 48-925)

**NARRATIVE INFORMATION – DA 400**  
**Division of the Budget**  
**State of Kansas**

**AGENCY NAME: Adjutant General's Department**  
**PROGRAM TITLE: Disaster Finance Payments**  
**SUB-PROGRAM: State-Declared Disaster Payments**

---

**PURPOSE:**

Consists of funds to supplement the resources, and provide cost match of State, local, and voluntary agencies in state only declared disasters.

**CONSEQUENCE OF NOT FUNDING:**

Without funding there would be no coordination of resources, causing chaos and potentially more loss. The State Emergency Operations Center (SEOC) reduces those risks. During emergencies and disasters, the SEOC facility serves as the nerve center for federal, state, and local coordination, and is necessary to ensure continuity of operations and government in major disasters caused by any hazard. The cost burden of state-only is that there is no federal funding is available.

**PERFORMANCE MEASURES:**

	<b><u>FY 2024</u></b>	<b><u>FY 2025</u></b>	<b><u>FY 2026</u></b>
Number of State declared disasters.	11	NA	NA
Number of damage assessments completed.	6	NA	NA
Total state funds paid for State-only declared disasters.		NA	NA

\*Disasters are based on actual events; therefore, future events are not budgeted. This leaves the department with risk if a large event occurs.

**EXPENDITURE JUSTIFICATION**

See the summary of all the disaster that are currently open under the Disaster Recovery Payments section.

**NARRATIVE INFORMATION – DA 400**  
**Division of the Budget**  
**State of Kansas**

**AGENCY NAME: Adjutant General’s Department**  
**PROGRAM TITLE: Disaster Finance Payments**  
**SUB-PROGRAM: Federally-Declared Disaster Payments**

---

**PURPOSE:**

Funds to reimburse eligible expenses of state, local, and eligible non-profit organizations for federally declared disasters.

**CONSEQUENCE OF NOT FUNDING:**

Without federal disaster funding, all response and recovery mission costs fall onto the state and local levels. This places a massive cost burden on those affected. Currently when a disaster is federally declared the state provides 25% and the federal government provides 75%. Of the state’s 25% share, 15% is paid by the applicant and 10% is paid with state funds (SGF or State Emergency Funds). Terms of the Federal/State agreement attests that the state will ensure the 25% non-federal share is available and provided.

**PERFORMANCE MEASURES:**

	<b><u>FY 2024</u></b>	<b><u>FY 2025</u></b>	<b><u>FY 2026</u></b>
Number of federal declaration requests.	4	NA	NA
Number of federal disaster declarations.	4	NA	NA
Number of damage assessments completed.	6	NA	NA
Total state funds paid for federally declared disasters.			

\*Disasters are based on actual events; therefore, future events are not budgeted. This leaves the Department with risk if a large event occurs.

**EXPENDITURE JUSTIFICATION**

See the summary of all the disaster that are currently open under the Disaster Recovery Payments section.

***Disasters include:***

- DR 4319 Winter Storm – April 28-May 3, 2017 (IN CLOSEOUT)
- DR 4347 Severe Storms – July 22-July 27, 2017 (IN CLOSEOUT)
- DR 4403 Severe Storms – September 1-8, 2018 (IN CLOSEOUT)
- DR 4449 Severe Storms – April 28, 2019
- DR 4504 Pandemic – January 20-May 11, 2023
- DR 4640 Severe Storms – December 15, 2021
- FM 5425 Wildland Fire – March 5-16, 2022
- DR 4654 Severe Storms – March 17-22, 2022
- FM 5463 Wildland Fire – April 13-16, 2023
- DR 4747 Severe Storms – July 14-July 21, 2023
- DR 4774 Winter Storm – January 8-16, 2024
- DR4800 Severe Storms – April 25-30, 2024
- DRXXXX – Severe Storms – May 19, 2024 PENDING PRESIDENTIAL APPROVAL
- DRXXXX – Severe Storms – June 26-July 7, 2024 PENDING PRESIDENTIAL APPROVAL

**NARRATIVE INFORMATION – DA 400**  
**Division of the Budget**  
**State of Kansas**

**AGENCY NAME: Adjutant General's Department**  
**PROGRAM TITLE: Capital Improvements**

---

**Operations:**

This program captures capital rehabilitation and repair of Armories and various National Guard Facilities.

**Goals and Objectives:**

To provide efficient facilities to protect state investments in Kansas National Guard Facilities as well as other facilities within the Adjutant General's Department. Facility inspections focus on four general areas; Life-Health-Safety systems, structural integrity, roof integrity, and building envelope integrity. All aspects of each facility are also evaluated for long-term considerations, which included energy costs, code-compliance, heating and air conditioning, electrical, plumbing, driveways, parking, walkways, hazard abatement, interior modernization, and Americans with Disabilities Act compliance requirements.

## Project Request Explanation--DA 418B

<b>1. Task Title:</b> Rehab and Repair 25  Adjutant General's Department	<b>2. Priority:</b>  1
--------------------------------------------------------------------------------	------------------------------

**3. Project Description and Justification:**

State of Kansas Rehab & Repair Funds: \$ 3,500,000  
 Federal Match if State funds Rehab & Repair: \$ 3,500,000

# Without state matching funds the Federal Government will not be able to provide federal funds to match facility renovations, modernizations, and repairs for the 38 Armories and other National Guard Facilities. The cooperative agreement between the state and National Guard Bureau requires mostly a 50% state match with a few exceptions of 25% state match on Readiness Centers (Armories). The state funds that we are requesting would go towards physical security requirements, grounds keeping, code compliance, and utility infrastructure replacement. This is part of our base budget.

<b>4. Estimated Project Cost:</b> 1. Construction (including fixed equipment and sitework) 6,160,000 2. Architect or engineer fee 840,000 3. Moveable equipment 4. Project contingency 5. ## Project Request Explanation--DA 418B

1. Project Title: Fort Riley RC 2025  Adjutant General's Department		2. Priority:  2				
3. Project Description and Justification:						
<p>State of Kansas Rehab &amp; Repair Funds: \$ -</p> <p>Federal Match if State funds Rehab &amp; Repair: \$ 27,000,000</p> <p>In FY 1993, the U.S. Congress appropriated funds for DoD STARBASE and piloted the program in seven states. Kansas STARBASE has five locations: Kansas City, Manhattan, Salina, Topeka, and Wichita. It is a 5-day, 25-hour program designed to deliver STEM-specific curriculum that meets state and national standards. The program focuses on elementary students, primarily fifth graders. The goal is to motivate them to explore Science, Technology, Engineering and Math (STEM) as they continue their education. Most recently, the program intends to expand into more educational school districts within their responsibilities. For the increase in programming, the facility will need to be expanded for the future influx of students and faculty utilizing the area. Without this project, the program will remain a minimal operating program for the DoD. It will never be able to expand its ability to progress the education that is intended by the program.</p>						
4. Estimated Project Cost:				5. Project Phasing:		
1. Construction (including fixed equipment and sitework) 23,760,000 2. Architect or engineer fee 3,240,000 3. Moveable equipment 4. Project contingency 5. Miscellaneous costs				1. # Project Request Explanation--DA 418B

1. Task Title:        Hays Armory		2. Priority:				
Adjutant General's Department		3				
3. Project Description and Justification:						
<b>State Share Requested:</b> \$ <b>18,135,000</b> Federal Match:                                 \$                                 -						
<p>The current facilities at Hays RC are over 60 years old. The 997th BSB has minimal administrative, classroom, locker room, and kitchen space. This facility does not properly serve the 997th BSB Headquarters function, and is well below Readiness Center standards. Cooks and mechanics cannot train in the existing facility due lack of kitchen and very limited maintenance bay space. The current Hays Readiness Center is on a site that is located in a flood plain that does not support new construction. The KSARNG would like to construct a 49,792 SQFT National Guard Readiness Center on a new site that is purchased by the State of Kansas. The new facility will support individual and collective training, administrative actions, automation and communications, and logistical requirements for the KSARNG. The center is the single gathering point for ARNG personnel and is a mobilization platform for Federal and State activation of KSARNG troops. This facility will be built on State Land (to be purchased). The current estimated cost for the project is \$18,135,000.</p>

## Project Request Explanation--DA 418B

1. Project Title: Kansas City RC AON Flood Restoration 2025 Adjutant General's Department	2. Priority:  6
----------------------------------------------------------------------------------------------	-----------------------

3. Project Description and Justification:

State of Kansas Funds: \$ 1,208,100  
 Federal Funds applied to Project: \$ 4,449,300  
 \$ 5,657,400

The Kansas Army National Guard will be building a new Joint Forces Headquarters (JFHQ) building at Forbes Field in Topeka, KS. The cost of the project is estimated at \$16.5 million. The project will be built on Federal Land and will not require any type of state fund match. The facility will consist of approximately 59,000 square feet of JFHQ space. This space will consolidate multiple JFHQ functions that are currently conducted in multiple facilities. Once the facility is built it will be supported with 75% Federal funds and 25% State Funds.

# 4. Estimated Project Cost: 1. Construction (including fixed equipment and site work) 4,978,512 # 2. Architect or engineer fee 678,888 # 3. Moveable equipment # 4. Project contingency # 5. 1. Project Title: Forbes ERCIP 2025  <div style="text-align: center;">Adjutant General's Department</div>	2. Priority:  <div style="text-align: center;">7</div>
-----------------------------------------------------------------------------------------------------------------	--------------------------------------------------------------

3. Project Description and Justification:

State of Kansas Funds:  
Federal Funds applied to Project: \$ 6,400,000

Construct building-level microgrid(s) at Forbes Field to provide 2 Megawatts (MW) of islandable power to critical loads leveraging new generation sources. This project integrates new 0.5 MW canopy-mounted solar photovoltaic (PV) array(s) with new 1.0 MW Battery Energy Storage System(s) (BESS); 0.5 MW backup emergency generator is necessary to meet emergency operations and provide a fuel diversification strategy. Water conservation measures will be updated throughout the facilities with low-flow, high-efficiency fixtures, such as the replacement of faucets, showers, water closets, bathroom fixtures and drinking fountains.

4. Estimated Project Cost: 1. Construction (including fixed equipment and site work) 5,632,000 2. Architect or engineer fee 768,000 3. Moveable equipment 4. Project contingency 5. # Project Request Explanation--DA 418B

1. Project Title: Trembly-White Readiness Center 2025  <div style="text-align: center;">Adjutant General's Department</div>	2. Priority:  <div style="text-align: center;">8</div>
-----------------------------------------------------------------------------------------------------------------------------------	--------------------------------------------------------------

3. Project Description and Justification:

State of Kansas Funds: \$ 1,025,987

Federal Funds applied to Project: \$ 4,337,960

\$ 5,363,946

The Kansas National Guard acquired this armory in Kansas City, KS in 2023 from the U.S. Army Reserve. The facility requires substantial updating and repairs to bring it back up to standards, at which point it will house the 35th Division Artillery headquarters, which is new force structure for the state requiring a new location. Acquiring the former U.S. Army Reserve Center allows for this growth without having to build a new armory, potentially saving as much as \$25-30 million in total. The building will be modified to perform as a Brigade Readiness Center for the State of Kansas per today's federal and state standards for this building type. Work will include updated structure, renovated spaces to support unit functions, replacement of existing end-of-life HVAC system with a new closed loop water system heat pump and energy efficient HVAC with controls system, new water-source heat pump units, and updates to align with ADA design standards. Total cost of the project is \$5,363,946 with \$4,337,959.50 covered by the federal government. This leaves \$1,025,986.50 as the state's cost.

4. Estimated Project Cost: 1. Construction (including fixed equipment and site work) 4,720,272 2. Architect or engineer fee 643,674 3. Moveable equipment 4. Project contingency 5. Miscellaneous costs  <div style="text-align: right;"><b>Total \$ 5,363,946</b></div>	5. Project Phasing: 1. Preliminary plans (including misc. costs) 2. # Project Request Explanation--DA 418B

1. Task Title: Rehab & Repair Projects 2026 Adjutant General's Department	2. Priority: 9
------------------------------------------------------------------------------	-------------------

3. Project Description and Justification:

State of Kansas Rehab & Repair Funds: \$ 3,550,000  
Federal Match if State funds Rehab & Repair: \$ 3,550,000

# Without state matching funds the Federal Government will not be able to provide federal funds to match facility renovations, modernizations, and repairs for the 38 Armories and other National Guard Facilities. The cooperative agreement between the state and National Guard Bureau requires mostly a 50% state match with a few exceptions of 25% state match on Readiness Centers (Armories). The state funds that we are requesting would go towards physical security requirements, grounds keeping, code compliance, and utility infrastructure replacement. This is part of our base budget.

<p>State of Kansas Rehab &amp; Repair Funds: \$ -</p> <p>Federal Match if State funds Rehab &amp; Repair: \$ 27,000,000</p> <p>In FY 1993, the U.S. Congress appropriated funds for DoD STARBASE and piloted the program in seven states. Kansas STARBASE has five locations: Kansas City, Manhattan, Salina, Topeka, and Wichita. It is a 5-day, 25-hour program designed to deliver STEM-specific curriculum that meets state and national standards. The program focuses on elementary students, primarily fifth graders. The goal is to motivate them to explore Science, Technology, Engineering and Math (STEM) as they continue their education. Most recently, the program intends to expand into more educational school districts within their responsibilities. For the increase in programming, the facility will need to be expanded for the future influx of students and faculty utilizing the area. Without this project, the program will remain a minimal operating program for the DoD. It will never be able to expand its ability to progress the education that is intended by the program.</p>

Federal Match if State funds Rehab & Repair:				\$ 27,000,000		
<p>In FY 1993, the U.S. Congress appropriated funds for DoD STARBASE and piloted the program in seven states. Kansas STARBASE has five locations: Kansas City, Manhattan, Salina, Topeka, and Wichita. It is a 5-day, 25-hour program designed to deliver STEM-specific curriculum that meets state and national standards. The program focuses on elementary students, primarily fifth graders. The goal is to motivate them to explore Science, Technology, Engineering and Math (STEM) as they continue their education. Most recently, the program intends to expand into more educational school districts within their responsibilities. For the increase in programming, the facility will need to be expanded for the future influx of students and faculty utilizing the area. Without this project, the program will remain a minimal operating program for the DoD. It will never be able to expand its ability to progress the education that is intended by the program.</p>

### **FY 2026 ENHANCEMENT REQUESTS**

#### **#2 Kansas Division of Emergency Management Grant Funding**

The federal Emergency Management Performance Grant (EMPG) is a core state emergency management funding mechanism and the only source of federal money directed to state and local governments for planning, training, exercises, and personnel for all-hazards emergency preparedness. The role it plays cannot be overstated because it serves as the lifeblood to the Kansas Division of Emergency Management (KDEM). Furthermore, KDEM passes through approximately 37-43% to county emergency management (sub-recipient) which provides a portion of their salaries. County governments burden is disproportionally to provide match requirements for EMPG. In essence, the county governments are providing \$2 of match for every EMPG dollar awarded. This is double the requirement of the EMPG grant and significantly affects county government's ability to fund local emergency operations. In addition, this poses a substantial risk to KDEM as we are unable to make match requirements independently. By increasing KDEM's SGF level to meet match requirements, county governments can secure additional grant funding. This could lead to a better-trained and equipped local response corps that helps to reduce the significant costs incurred by the state in times of emergency. At any time, county governments can consider the match requirements burdensome and not apply for EMPG grant funds or Congress can cut EMPG funds and did so in FFY 2024, nine months into the current performance year, leaving little if no opportunity to request additional state funds, cancel contracts, etc.

KDEM is operating from a financial model that has existed since the early 2000's when the EMPG program was passed into federal law. The Kansas Division of Emergency Management (KDEM) is not able to fulfill its statutory responsibilities without additional funds to meet the 50/50 match requirements for the EMPG and will impact the amount of pass-through funds provided to local emergency management agencies. The largest categories of expenses for KDEM are personnel, contracts, and pass-through to county emergency management programs which require "hard" dollars. Contracts include products and services that assist KDEM, and county emergency management programs meet statutory requirements of planning, training and exercises and support disaster response and recovery activities.

<b>FY 2026</b>	\$852,583	\$0	\$852,583

**Narrative Information—DA 400**

Division of the Budget

State of Kansas

Agency Adjutant General's Department

Program Enhancements &amp; Supplementals

**State General Funds – 50/50 Match Requirement - Emergency Management Performance Grant**

**Enhancement Request:** Additional State General Funds (SGF) to provide the 50/50 non-federal match requirement for the Emergency Management Performance Grant (EMPG) through the US Department of Homeland Security, Federal Emergency Management Agency (FEMA).

**OPTIONS**

		Current SGF	Additional SGF Request
50/50 Match Total Award	\$4,530,058	\$1,100,000	\$2,155,029
<b>75/25 Match Salaries*</b>	<b>\$2,751,839.86</b>	<b>\$991,270.60</b>	<b>0</b>
50/50 Match Salaries	\$1,899,256.37	\$991,270.60	\$852,583.49

**\*current funding**

**Risk If Not Funded:** KDEM is operating from of a financial model that has existed since the early 2000’s when the EMPG program was passed into federal law. The Kansas Division of Emergency Management (KDEM) is not able to fulfill its statutory responsibilities without additional funds to meet the 50/50 match requirements for the EMPG and will impact the amount of pass-through funds provided to local emergency management agencies. The largest categories of expenses for KDEM are personnel, contracts, and pass-through to county emergency management programs which require “hard” dollars. Contracts include products and services that assist KDEM and county emergency management programs meet statutory requirements of planning, training and exercises and support disaster response and recovery activities.

**Background:**

The federal Emergency Management Performance Grant (EMPG) is a core state emergency management funding mechanism and the only source of federal money directed to state and local governments for planning, training, exercises and personnel for all-hazards emergency preparedness. The role it plays cannot be overstated because it serves as the lifeblood to the Kansas Division of Emergency Management (KDEM). Furthermore, KDEM passes through approximately 37-43% to county emergency management (sub-recipient) which provides a portion of their salaries.

County governments burden is disproportionally to provide match requirements for EMPG. In essence, the county governments are providing \$2 of match for every EMPG dollar awarded. This is double the requirement of the EMPG grant and significantly affects county government’s ability to fund local emergency operations. In addition, this poses a substantial risk to KDEM as we are unable to make match requirements independently.

## **Narrative Information—DA 400**

Division of the Budget

State of Kansas

Agency Adjutant General's Department

Program Enhancements & Supplementals

By increasing KDEM's SGF level to meet match requirements, county governments can secure additional grant funding. This could lead to a better-trained and equipped local response corps that helps to reduce the significant costs incurred by the state in times of emergency.

At any time, county governments can consider the match requirements burdensome and not apply for EMPG grant funds or Congress can cut EMPG funds and did so in FFY 2024, nine months into the current performance year, leaving little if no opportunity to request additional state funds, cancel contracts, etc.

KDEM received a 10.1% reduction in FFY2024 EMPG funds and because of the timing of the grant compounded by the significant amount of the award, KDEM will not be able to fulfill its statutory responsibilities nor can alternate funding sources or cuts be found. KDEM forecasts and prepares a budget to begin October 1 based on the EMPG grant allocation received from the previous year and has the ability to maintain a negative balance until FEMA releases the award. This has been the standard practice for decades.

The *Notice for Funding Opportunity (NOFO)* is released during the Spring which is anywhere between 6-9 months into the KDEM operational period. Counties do not receive their award until 9-12 months into the period and many of those sub-recipients expend their award for salary in the first or second quarter.

In March 2024, KDEM was advised of the FFY 24 EMPG award of \$4,061,750 which is a 10.1% reduction from EMPG 2023.

### Hard Match Dollars

EMPG, like many other federal programs requires a non-federal match. EMPG requires a 1:1 match. For every one dollar of federal funds expended, one dollar of non-federal funds must be spent.

EMPG is different in what can serve as a non-federal match. EMPG match can be:

- (1) Hard (state general funds)
- (2) Soft (donation of classrooms, services, etc.)
- (3) Overmatch (funds from county emergency management eligible EMPG expenses)

**Narrative Information—DA 400**

Division of the Budget

State of Kansas

Agency Adjutant General's Department

Program Enhancements & Supplementals

KDEM receives roughly \$4.5 million dollars of EMPG federal funds, but only receives roughly \$1.1 million in state funds to match. That means \$3.4 million comes from over-match from pass through sub-recipients (counties) who are eligible to apply and comply with requirements of the EMPG program.

When comparing the amount of SGF to other states, Kansas ranks 44<sup>th</sup> in amount of SGF allocated and is \$812,722 short of matching 50% of the grant. All other FEMA Region VII States, Nebraska, Iowa, and Missouri exceed the match requirement.

Those additional non-federal funds claimed by KDEM are then no longer able to be used by the counties to leverage additional federal funds for other programs. Severely hindering their ability to advance programs.

Essentially for every hard \$1.00, we lose \$2.00. Not only is the match lost, but the hard dollar goes to vendors, salaries, etc.

## **Narrative Information—DA 400**

Division of the Budget

State of Kansas

Agency Adjutant General's Department

Program Enhancements & Supplementals

### **KDEM Organization**

KSA 48-919, authorizes the Adjutant General to employ an emergency management programs Administrator (Deputy Director), a planning officer and such technical, professional, clerical, stenographic and other personnel and may make such expenditures within the appropriation, or from other funds made available to the Adjutant General for the purpose of emergency management, as may be necessary to carry out the purposes of this act.

To provide continuity, the Division is organized into four bureaus to oversee all phases of the state's emergency management functions. The bureaus are identified as:

- (1) Administration
- (2) Planning & Mitigation
- (3) Preparedness & Prevention
- (4) Response & Recovery

The KDEM Deputy Director appoints the Division's senior management group and is comprised of three bureau directors.

All members of the Division are assigned to one of the bureaus under the direct supervision of either a bureau director or a section chief/program manager/supervisor. To assist with the on-going functions of the Division, KDEM will utilize temporary employees or implement the disaster augmentee program.

Bureau directors and section chief/program manager/supervisor will assist with budgeting, accounting, grant management activities, personnel issues, and advise the deputy director on policies and procedures affecting the division. During the absence of the Deputy Director, the delegation of authority is: (1) Response & Recovery Bureau Director; (2) Prevention & Preparedness Bureau Director; and (3) Planning & Mitigation Bureau Director.

In accordance with Kansas Civil Service KAR 1-4-3, the Adjutant General's Department human resource officer will ensure that current position descriptions are maintained for each position within KDEM. Position descriptions will accurately describe the duties and responsibilities of the position.

## Narrative Information—DA 400

Division of the Budget

State of Kansas

Agency Adjutant General's Department

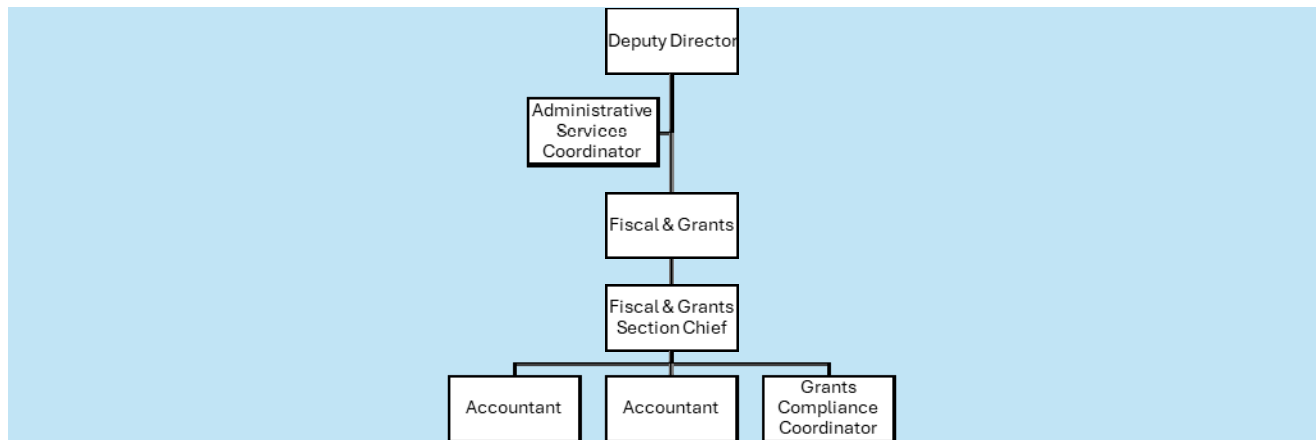

Program Enhancements & Supplementals

### Administration

The Administration Bureau provides continuity between all divisions in KDEM and headed by the Deputy Director who reports directly to the Adjutant General. The Deputy Director maintains daily supervision, provides policy direction, insures compliance with federal and state statutes for the division activities, and provides administrative support to the governor and to the Commission on Emergency Planning & Response (CEPR).

### Fiscal & Grants Management Section

The fiscal and grants section manages the accounting aspects of state and federal funds, ensures compliance with federal and state laws and regulations, and oversees grant requirements such as monitoring, match certification and risk assessments. This section supports the State Emergency Operations Center (SEOC) within the Administration & Finance Section.

### Planning & Mitigation Bureau

The bureau is led the Mitigation & Planning Bureau Director and consists of consists of four sections.

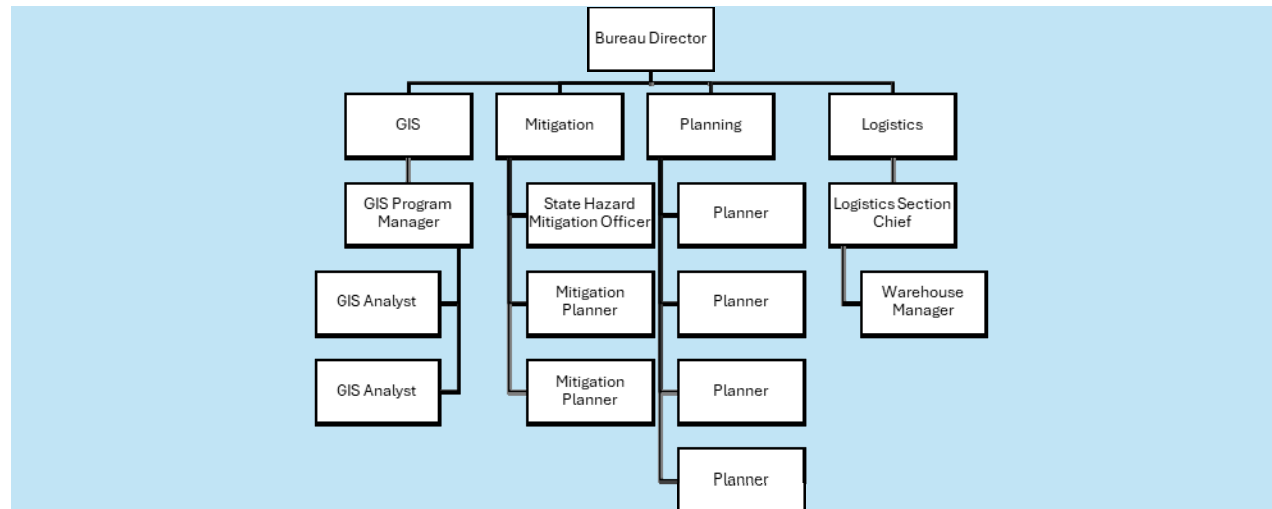

## Narrative Information—DA 400

Division of the Budget

State of Kansas

Agency Adjutant General's Department

Program Enhancements & Supplementals

When the workload requires, KDEM employs interns and additional disaster mitigation specialists. The Planning and Mitigation bureau collaborates with municipal, county, state, federal, and volunteer organizations on a variety of emergency management planning and mitigation issues.

These issues include, but are not limited to the following:

- Assisting communities on the development and maintenance of their all-hazards Local Emergency Operations Plans (LEOPs);
- Coordination and maintenance of the Kansas Response Plan (KRP) and overall state planning assistance;
- State and local Continuity of Operations Planning (COOP);
- State of Kansas hazard analysis; vulnerability and threat assessments;
- Development and maintenance of State Hazard Mitigation Plan;
- Review of jurisdictional hazard mitigation plans;
- Administration of available hazard mitigation grant programs; and
- Assistance to applicants in the construction of hazard mitigation grants applications.

## Narrative Information—DA 400

Division of the Budget

State of Kansas

Agency Adjutant General's Department

Program Enhancements & Supplementals

### Preparedness & Prevention Bureau

Preparedness is a shared responsibility, and this bureau supports initiatives through training, exercises, and outreach programming that address all-hazards issues. Following national level guidance, strategies to adopt unique delivery systems and shared resources are becoming the norm. Language from the national level has guided states to manage preparedness by adopting a systems-based regional approach that will enable stakeholders to blend expertise and integrate resources to serve the citizens of the state. A crosswalk between emergency management and homeland security policy serves as an integrated model for defining effective preparedness capabilities. The bureau utilizes collaborative activities to identify and strengthen priority capabilities, define common solutions, and deliver strategic results in the training and exercise arenas of preparedness.

### Response and Recovery Bureau

## Narrative Information—DA 400

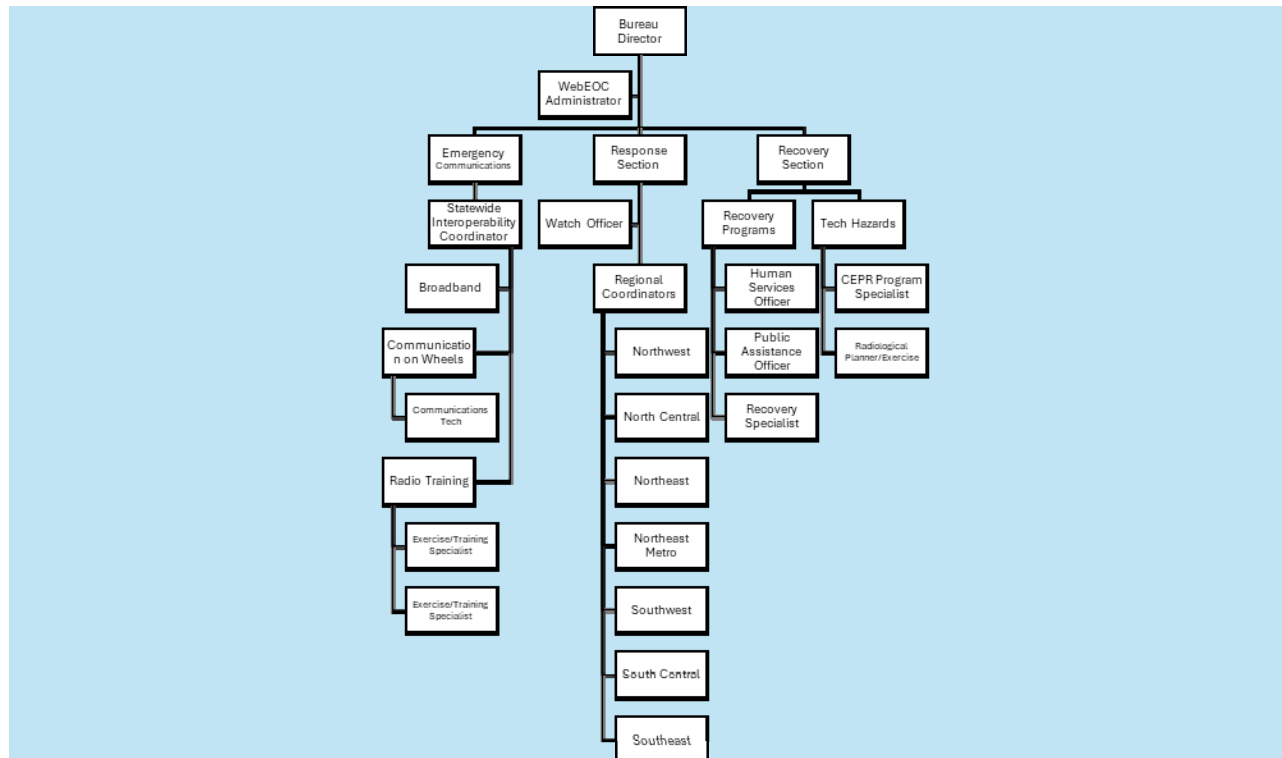

Division of the Budget

State of Kansas

Agency Adjutant General's Department

Program Enhancements & Supplementals

The Response and Recovery Bureau is responsible for supporting local government in times of emergency and disasters. Routinely public safety personnel and emergency managers respond to natural, technological, or civil emergencies throughout the state of Kansas. Occasionally these events reach a magnitude that is beyond the response capability of local or county level resources. Events of this nature may require the support of adjoining jurisdictions to include cities, counties, state resources, adjoining states, and federal resources.

## **Narrative Information—DA 400**

Division of the Budget

State of Kansas

Agency Adjutant General's Department

Program Enhancements & Supplementals

### Response Section

Led by the Response Section Chief, the SEOC exists to gather, process, and report emergency intelligence to aid in state policy and decision making; support local communities as they direct and control disaster emergency response operations; and account for the State's response support costs. In non-disaster conditions, the SEOC is maintained in an operational status that facilitates a timely response to rapidly evolving emergencies. The SEOC's ability to exchange critical disaster information is achieved through diverse and redundant communications technologies. On a rotational basis, personnel from the Response and Recovery Bureau serve as duty officers.

### *Regional Coordinators*

K.S.A. 48-929(n) requires KDEM under the direction of the Adjutant General, to develop a regional emergency management system that includes the use of regional coordinators who provide training and preparation of state, county, city, and inter-jurisdictional disaster agencies to prevent, respond to, mitigate, and recover from emergencies. Regional coordinators offices are in Topeka, Wichita, Dodge City, Abilene, Iola, and Hays.

The guiding mission of the regional coordinators is to assist local officials in coordinating preparedness activities, and to function as a state liaison representative to establish and maintain linkages amongst the various prevention and response community partners at the local, regional, state, and federal levels.

### *Incident Support Program*

KSA 48-928(o) gives the statutory authority to the adjutant general to implement the use of an incident management system during emergency and disaster situations by all state, county, city, and interjurisdictional disaster agencies which respond to such emergency or disaster situations. The Incident Support Program supports the coordination and activities of deployable resources before, during, and after an incident to assure implementation of respective functions, duties, goals, and objectives.

### Emergency Communications

## **Narrative Information—DA 400**

Division of the Budget

State of Kansas

Agency Adjutant General's Department

Program Enhancements & Supplementals

The Emergency Communications Section supports outreach, training, and coordination of statewide public safety communication capabilities. In addition, the section fulfills *Emergency Support Function (ESF) #2 – Communications* within the SEOC and has operational responsibility for two deployable communications capabilities in support of the state public safety trunked radio system. The Emergency Communications Section Chief is also the Statewide Interoperability Coordinator (SWIC).

### **Recovery Section**

The Recovery Section includes disaster recovery programs and the technological hazards program. With various supporting recovery cadres support the section.

The disaster recovery programs are responsible for assisting individuals and communities in recovering from disasters and emergencies. The mission is to coordinate state and federal actions with local jurisdictions to assist those impacted communities in recovering from disasters. Through the Public Assistance Program (governments, certain private non-profits, and Indian tribes) and Individual Assistance Program (individuals, families and households, and businesses) activities, the Recovery Section works to reduce human suffering during disasters and enhance recovery after they occur.

The technological hazards program provides direction and planning guidance concerning potential accidents involving hazardous substances such as toxic chemicals, radioactive substances, and potential releases from nuclear power plants. The section provides technical assistance related to chemical and radiological vulnerability planning, emergency notification and statewide emergency coordination.

The technological hazards program is responsible for maintaining the state's *Nuclear Facilities Incident Response Plan* and ensures the participating state agencies are fully trained and knowledgeable in their role during a nuclear incident at either Wolf Creek Generating Station near Burlington, Kansas, or the Cooper Nuclear Station in Nebraska and for administering the federal Hazardous Materials Emergency Preparedness (HEMP) grant.

The program stores, repairs and lends radiation detection devices for use by various public agencies. These devices regularly serviced and calibrated by the section to ensure that the devices accurately register radiation.

The technological hazards program receives and maintains the hazardous material spill and release notifications on behalf of the Commission on Emergency Planning & Response (CEPR), who fulfills the responsibilities of the State Emergency Response Commission (SERC). All spills that

exceed the Environmental Protection Agency's (EPA's) reportable quantities must be reported to KDEM. The section also assists the commission by providing technical guidance on the roles and responsibilities of the Local Emergency Planning Committees (LEPC) and by maintaining membership listings of the LEPCs.
