Christopher Kennedy, Secretary

Laura Kelly, Governor

September 24, 2025

Secretary Adam Proffitt  
Division of the Budget  
Kansas Department of Administration

Dear Secretary Proffitt,

As Secretary of the Department of Wildlife and Parks (KDWP), I hereby submit for your consideration this agency's FY2027 budget narrative.

KDWP's operations, programs, and staff are funded primarily through user fees and federal grants. By law, these fee funds and federal funds cannot be diverted for other uses, and they are treated with the same accountability as other public resources, including due diligence, proper documentation, and responsible contracting and purchasing procedures.

We respectfully request the continuation of state appropriated funds from the State Water Plan Fund and Economic Development Initiatives Fund (EDIF) in FY2027, which represent 4% of KDWP's anticipated expenses. EDIF funds support the operation of Kansas State Parks, whose visitors contribute more than \$170 million to the state economy each year. State Water Plan Funds support water quality monitoring efforts.

Thank you for your consideration of this budget submission. I look forward to discussing it with you in more detail.

Sincerely,

A handwritten signature in blue ink that reads "Christopher Kennedy". The signature is fluid and cursive.

Christopher Kennedy  
Secretary, Kansas Department of Wildlife and Parks

State of Kansas

Agency: 710 Kansas Department of Wildlife and Parks (KDWP)  
Program: **Agency Overview**

### KANSAS DEPARTMENT OF WILDLIFE AND PARKS AGENCY OVERVIEW

**The mission of the Kansas Department of Wildlife and Parks is to conserve our fish, wildlife, and habitats while connecting people to nature through meaningful outdoor experiences.**

KDWP is currently in the process of updating its strategic plan, which was last revisited in 2005. Initial planning has identified a vision of thriving ecosystems and engaged communities that value and invest in natural resources and nature-based recreation, with the following priorities:

#### RESPONSIBLE STEWARDSHIP

We recognize our duty to care for Kansas' wildlife and ecosystems. Through thoughtful natural resource management and conservation, we ensure that future generations will inherit healthy ecosystems and have the same opportunities to experience and enjoy the outdoors that we enjoy today.

#### LIFELONG CONNECTIONS

We foster lasting appreciation for nature by providing safe, engaging experiences that inspire curiosity and respect for the natural world. Through opportunities for exploration and learning, we strengthen the bond between people and the outdoors.

#### FINANCIAL SUSTAINABILITY

We safeguard the long-term financial health of the agency, creating a foundation for continued success and growth. By prioritizing responsible fiscal management, we ensure outdoor experiences remain accessible and affordable for generations to come.

#### PUBLIC TRUST

We recognize that public trust must be earned and maintained. We strive for confidence in our leadership, actions, and mission.

Also new to the agency are these KDWP Values, which represent the commitments that agency staff make to their colleagues and the public, guiding actions and shaping decisions to inspire trust and fulfill our mission.

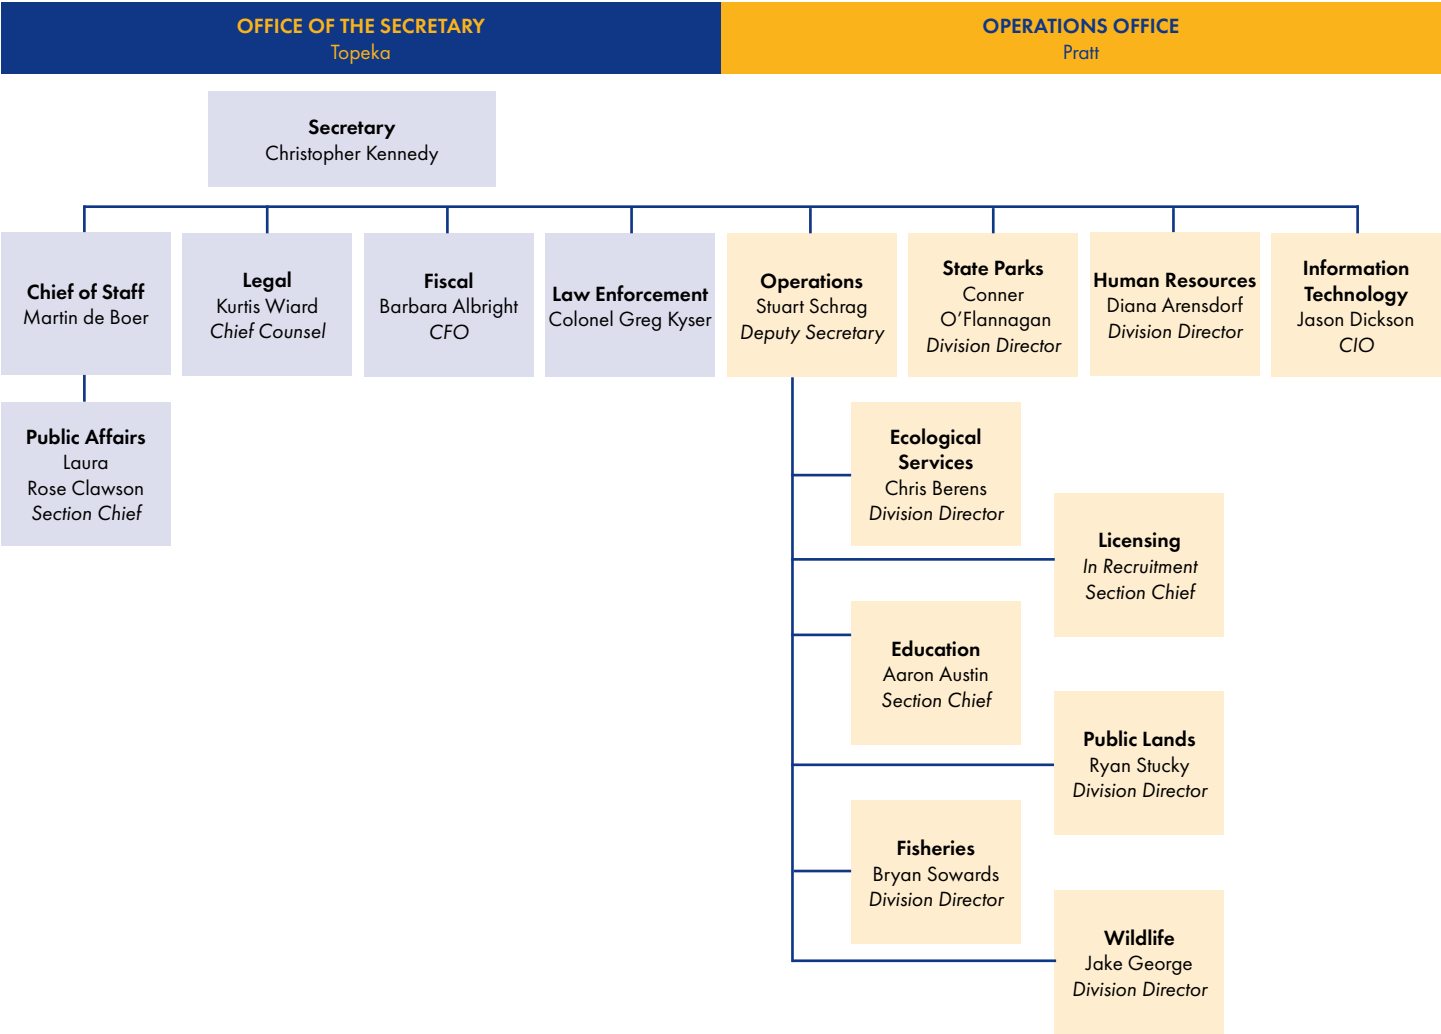

- **Unwavering Integrity:** We uphold the highest standards beyond reproach and consistently do what is right, even when no one is watching.
- **Accountability & Transparency:** We understand our responsibility to the people of Kansas and value open, clear communication. We measure success not by effort but by tangible results to ensure our work has a lasting impact.
- **Professionalism & Scientific Excellence:** We demonstrate competence and skill in all aspects of our work, applying expertise, experience, and research to every decision. Our work reflects both scientific insight and practical wisdom.
- **Innovation:** We embrace forward-thinking solutions while understanding the past and respecting tradition.
- **Customer Service:** We are committed to serving the people of Kansas and visitors with genuine care and respect, ensuring positive interactions with all.
- **Respect & Collaboration:** We cultivate an environment where every voice is heard and valued.

Program: **Agency Overview**

## STATUTORY HISTORY

The Kansas Department of Wildlife and Parks is a cabinet-level agency with a Secretary appointed by the Governor. KDWP dates back to 1905 when fish and game laws were first organized under the Kansas Fish and Game Department and a new state law required a license to hunt.

The powers and authorities of KDWP are primarily listed in Chapter 32 of the Kansas Statutes Annotated, including:

- KSA 32-703 establishes state ownership of all wildlife, including both resident and migratory animals.
- KSA 32-801 establishes the Department of Wildlife and Parks with a Secretary.
- KSA 32-802 requires the assistant secretary for operations to maintain an office in Pratt County.
- KSA 32-805 establishes a seven member Kansas Wildlife and Parks Commission, composed of Kansas residents, who approve, modify and approve, or reject rules and regulations proposed by the Secretary. The Commission must preserve the right to hunt, fish, and trap wildlife as guaranteed in section 21 of the Kansas Constitution's Bill of Rights.
- KSA 32-807 authorizes the powers of the Secretary, including the authority to set open seasons and adopt rules and regulations as necessary to implement and enforce wildlife and parks laws of the state.

State of Kansas

Agency: 710 Kansas Department of Wildlife and Parks (KDWP)  
Program: **Agency Overview**

### KDWP FUNDING OVERVIEW

KDWP is unique amongst other state agencies because it does not generally receive tax dollars from the State General Fund. (For FY26, KDWP anticipates a \$95,435 SGF appropriation.) KDWP's operations, programs, and staff are funded primarily through user fees and federal grants. By law, these fee funds and federal funds cannot be diverted for other uses.

Fish, wildlife, and education program funding comes from user-generated fees (such as hunting and fishing licenses) and federal excise taxes that hunters and anglers pay on equipment purchases.

Funding for boating and boating safety programs is derived from state boat registration fees and federal excise taxes on motorboat/small engine fuel.

State Parks are funded primarily through the sale of park entrance permits and rental fees for campsites and cabins. State Parks also receive funding from the state's Economic Development Incentive Fund (EDIF) because of the tremendous economic impact of state park visitors. Wherever possible, federal funding is also used to enhance state park trails and facilities.

#### KDWP Special Revenue Funds & Explanations

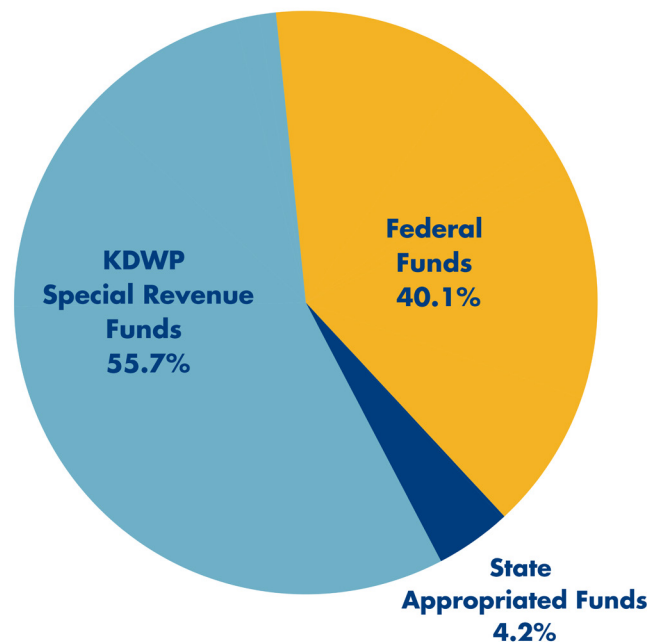

The bulk of funding for KDWP programs comes from these primary Special Revenue Funds:

**2300 Wildlife Fee Fund:** Revenue collected from the sale of hunting, fishing, and furharvesting licenses and permits goes into the Wildlife Fee Fund. K.S.A. 32-990 requires these funds be only used for "matters which relate to wildlife and which are under the control, authorities and duties of the secretary and department."

**2245 Boating Fee Fund:** Revenue collected from state boat registrations goes into the Boating Fee Fund. K.S.A. 32-1173 requires that these revenues "be dedicated and used to administer and enforce the provisions of" the Boating and Water Activities detailed in article 11.

**2122 Park Fee Fund:** Revenue collected from the sale of state park entrance permits and campsite fees goes into the Park Fee Fund. K.S.A. 32-991 requires these fees be only used for "matters which relate to state parks and which are under the control, authorities and duties of the secretary and the department."

**2668 Cabin Fee Fund:** Revenue collected from state park cabin rentals fees goes into the Cabin Fee Fund. K.S.A. 32-999 requires these fees to "enable[s] the department to maintain and operate such cabins."

**2050 State Agricultural Production Funds:** KDWP has 240 separate agriculture production accounts that are restricted by location. K.S.A. 32-809 requires that this revenue be held in “separate accounts of the state agricultural production fund for each state-owned property under the control and jurisdiction of the secretary of wildlife and parks. Such accounts shall be used for costs and expenses associated with management practices as determined for each property.”

---

### Federal Grant Programs & Explanations

---

**Wildlife and Sport Fish Restoration Grants:** The largest pool of federal funding for KDWP is a collection of grants commonly grouped under the Wildlife and Sport Fish Restoration (WSFR) name. These funds are administered by the U.S. Fish and Wildlife Service and appropriated annually with distribution formulas based primarily on the land and water area and the number of paid hunting and fishing license holders in the state.

**Wildlife Restoration:** Federal excise taxes on hunting equipment are returned to states based on the number of hunting licenses and permits the state sells. These federal funds require a 25% state match, which comes from the Wildlife Fee Fund. Wildlife Restoration grants were enacted under the Pittman-Robertson Act of 1937 (also known as the Wildlife Restoration Act). This “user pays, user benefits” approach to funding wildlife conservation is used throughout North America and is endorsed by hunters, anglers, and industry alike. KDWP uses Wildlife Restoration funds to restore, conserve, manage, and enhance wildlife and habitats; provide public use and access to wildlife resources (such as Walk-In Hunting Access); and develop and manage controlled shooting ranges.

**Hunter Education Program:** Federal excise taxes on pistols, revolvers, bows, arrows, and archery equipment are returned to states based on the population of the state (with no state receiving more than 3% or less than 1% of the funds). These federal funds require either a 25% or 10% state match, which comes from the Wildlife Fee Fund. Hunter Education grants were enacted under the Pittman-Robertson Act of 1937 (also known as the Wildlife Restoration Act). KDWP uses Hunter Education funds to teach students to be safe, responsible, conservation-minded hunters. Anyone born on or after July 1, 1957 must complete an approved hunter education course before hunting in Kansas. KDWP uses these federal funds to offer hunter education programs at no cost to the participant and to operate and maintain controlled environments (shooting ranges) to hone shooting skills, sight in firearms, and reinforce responsible gun handling before heading into the field.

**Sport Fish Restoration:** Federal excise taxes on sport fishing equipment, import duties on fishing tackle and pleasure boats, and a portion of the gasoline fuel tax (attributable to small engines and motorboats) are returned to states based on the number of fishing licenses and permits sold by the state. These federal funds require a 25% state match, which comes from the Wildlife Fee Fund. Sport Fish Restoration funds were modelled after the Wildlife Restoration grant program and enacted by the Dingell-Johnson Act of 1950. The Boating Access subprogram of Sport Fish Restoration supports creation of public access for recreational boating and improvements that increase access. KDWP uses Sport Fish Restoration Funds to support four hatcheries that raise game fish that are stocked across the state; provide fishing and boating access (such as Walk-In Fishing Access and Community Fisheries Assistance program); provide aquatic education programs; and operate 46 state fishing lakes.

**Aquatic Invasive Species:** Multiple federal agencies, including the U.S. Fish and Wildlife Service, Bureau of Reclamation, and U.S. Army Corps of Engineers, offer competitive grants to state fish and wildlife agency for efforts to control the spread of aquatic invasive species. Allowable activities include watercraft inspections, aquatic invasive species monitoring, and efforts to remove aquatic invasive species. These grants typically require no match or only in-kind match.

**Recreational Boating Safety Program:** Federal excise taxes on motorboat and small engine fuel use are returned to states through the Recreational Boating Safety Program based on the number of watercrafts registered in the state each year. These federal funds require a minimum 50% state match, which comes from the Boating Fee Fund. RBSP is administered by the U.S. Coast Guard. The allocation formula includes 1/3 equal allocation among states, 1/3 based on the number of registered vessels, and 1/3 based on prior year expenditures.

KDWP uses RBSP funds for developing, improving, and maintaining boat docks, ramps, and toilet facilities; enforcing laws related to vessel operation, sanitation, sound muffling, and boating under the influence; investigating boating accidents and thefts; search and rescue operations (including training); and boating education and water safety programs.

**Land and Water Conservation (LWCF):** Grants from the Land and Water Conservation Fund are made to states for planning, acquisition, and development of state and local outdoor recreation facilities. These federal funds require a 50% match, which comes from the Park Fee Fund for KDWP projects. These federal funds are administered by the National Park Service which has authorized KDWP to sub-administer the program in Kansas and transfer funds to local jurisdictions. Traditionally, 75% of LWCF funds are awarded to non-state, local projects and 25% is invested in Kansas State Park projects. Since 2020 and the passing of the Great American Outdoors Act, Kansas's apportionment has increased.

**Recreational Trails Program:** Funds appropriated by the Federal Highway Administration are awarded to states for recreational trail development and improvement. These federal funds require a 20% non-federal match. RTP funds can be used for motorized, non-motorized, or diversified recreational trail projects. Projects that provide for improved ADA-accessibility and mitigate environmental impacts are prioritized. Kansas receives approximately \$1.3 million annually. KDWP then distributes this funding to both KDWP projects and to local municipalities and non-governmental organizations.

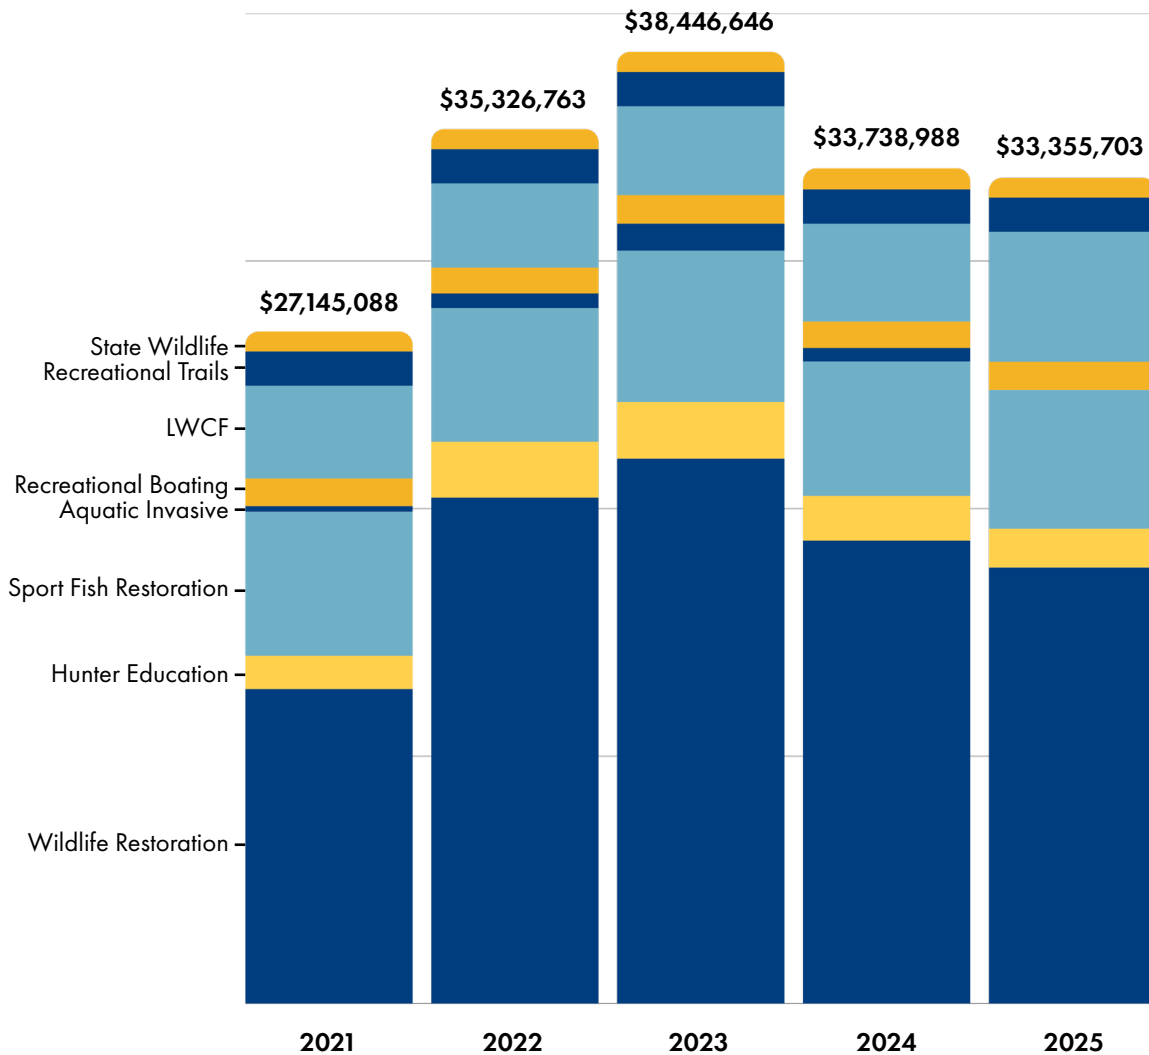

**State Wildlife Grants:** Federal grant funds provided to state fish and wildlife agencies for developing and implementing programs that benefit the wildlife identified as species of greatest conservation need within the state's Wildlife Action Plan (SWAP) and their habitats, including species not hunted or fished. These grants require a 25% non-federal match for planning grants and a 35% non-federal match for implementation grants. KDWP uses these funds to address conservation issues in ecological focus areas as delineated in the SWAP, such as research, fish and wildlife surveys and monitoring, species recovery, and habitat management. These funds are annually apportioned by a formula based 2/3 on population and 1/3 land area. The program also allocates funding for competitive grants to the states.

Federal Fiscal Years,  
October 1- September 30

## ADMINISTRATION

KDWP's Administration provides centralized leadership for the agency's financial management, human resources, information technology, public affairs, engineering, licensing, and legal functions. The division sustains high-volume daily transactions while ensuring statutory compliance, fiscal accountability, and clear external communications.

A significant challenge to effective administration is the distance between the Office of the Secretary in Topeka and the Operations Office that is required by K.S.A. 32-802 to be maintained in Pratt. This split and other geographical concerns have led to difficulty with recruiting, staff shortages, and weak internal controls that are now being addressed. Fragmented funding streams, driven by restricted fee funds and heavy reliance on federal grants, create cash-flow uncertainties, limit cross-divisional collaboration, and restrict KDWP's ability to implement digital tools such as a unified system of record for constituent management. KDWP also has a large volume of bid events, including agricultural leases that present unique challenges, and daily transactions of license and permit sales.

KDWP's Administration is funded extensively through KDWP fee funds generated through the sale of hunting and fishing licenses and permits for hunting, fishing, camping, and boating. KDWP does not typically receive State General Fund appropriations.

### ADMINISTRATION KEY INITIATIVES

**Website Modernization:** KDWP's Public Affairs and Information Technology departments are jointly leading the effort to rebuild the agency's website. This effort includes a complete redesign, refreshed content, and a renewed focus on user experience to ensure visitors can easily find the information they need, whether they're planning a state park visit, renewing a hunting license, or exploring conservation programs. As part of a broader emphasis on engaging and serving all Kansans better, the new website will prioritize accessibility, mobile responsiveness, and intuitive navigation.

**Improved Fiscal Oversight and Controls:** KDWP's Secretary, Christopher Kennedy, and Chief Fiscal Officer, Barbara Albright, have implemented key reforms that have strengthened fiscal oversight, accountability, and compliance. These improvements support more transparent financial management and ensure responsible stewardship of public resources. KDWP will continue refining internal controls and workflows to uphold all State of Kansas fiscal policies and meet the requirements of federal partners, positioning the agency for long-term operational integrity and trust.

**Infrastructure Review:** KDWP has an extensive catalogue of infrastructure across the state, ranging from visitor facilities and amenities (campgrounds, restrooms, shelters, nature centers), heavy equipment and fleet vehicles, water management (pumps, hydrological control structures), recreational infrastructure (boat ramps, trails, access roads), scientific monitoring tools, and more. Agency staff developed a mobile application to conduct a statewide infrastructure inventory and condition assessment. This review is now underway. Engineering staff will standardize data collection forms, incorporate photo documentation and GPS tagging, and integrate this tool with capital improvement project tracking to enhance long-term planning and resource allocation.

## NARRATIVE INFORMATION—DA 400

Division of the Budget  
State of Kansas

Agency: 710 Kansas Department of Wildlife and Parks (KDWP)  
Program: **01030 Administration**

---

**Strengthened Regulatory Processes:** KDWP operates under a unique regulatory framework that requires collaboration with the Kansas Wildlife and Parks Commission, as outlined in K.S.A. 32-805. Unlike many state agencies, KDWP regulations must be reviewed and approved by the Commission in open public meetings, offering multiple opportunities for stakeholder input before entering the formal promulgation process. To enhance transparency and rigor, KDWP Secretary Christopher Kennedy and Chief Counsel Kurtis Wiard have formalized a multi-stage internal review process. This system ensures that all proposed regulations are grounded in robust biological, sociological, and economic data and meet a high standard of justification. The result is a more accountable, evidence-based regulatory approach that reflects public values and scientific integrity.

## ADMINISTRATION EXPENDITURE JUSTIFICATION

---

### Salaries and Wages

Summary: When fully staffed and funded, KDWP's Administration employs 73 full-time, benefits-eligible employees who support the agency's foundational operations, including human resources, licensing, financial management, legal services, public affairs, informational technology, and engineering.

Current Year FY2026: \$6,504,129

Budget Year 2027: \$6,666,068

### Contractual Services

Summary: Large expenses for insurance premiums to cover all agency vehicles and watercraft. Also includes advertising and marketing, OITS and other technology contracts, and travel between offices.

Current Year FY2026: \$4,747,732

Budget Year 2027: \$4,911,468

### Commodities

Summary: Include building materials and other supplies for maintaining facilities across nine administrative offices, office supplies, and non-capital IT devices.

Current Year FY2026: \$272,850

Budget Year 2027: \$271,350

### Capital Outlay

Summary: Vehicles have historically been included in KDWP's Administration budget, but they are now more accurately distributed across program budgets. Includes office furniture and equipment for facility maintenance, such as snow removal.

Current Year FY2026: \$307,200

Budget Year 2027: \$242,700

### Aid to Locals/Other Assistance

Current Year FY2026: \$30,000

Budget Year 2027: \$30,000

## FISHERIES

KDWP's Fisheries Division maintains and improves fishing opportunities across the state, with a focus on rivers, streams, and human-made impoundments (state fishing lakes, federal reservoirs, community lakes). This work supports recreation and economic development in both urban and rural areas. Statewide, fisheries management is challenged by aging reservoirs, invasive species, limited access to waters for fishing throughout the state.

Through effective fisheries management, research, and fish culture, we expect to continue to maintain and improve recreational angling and conserve other native aquatic species throughout the state. Maintaining and improving angler satisfaction through KDWP's Fisheries Division programs will ensure healthy aquatic ecosystems and will also provide value to local economies and the quality of life of Kansans who enjoy the great outdoors. Federal Sport Fish Restoration grants matched by KDWP's Wildlife Fee fund at either 75% federal/25% non-federal or 50%/50% ratios and Aquatic Invasive Species grants with no match required are used for the majority of Fisheries expenses.

### FISHERIES KEY STRATEGIES

---

**Public Fishing Access:** A hallmark strategy is the Community Fisheries Assistance Program, which provides lease payments to communities and counties in exchange for allowing public fishing in their waters with no additional fees or licenses beyond those required by state regulations. It also provides grants for these governments to improve their fisheries. KDWP fisheries biologists provide technical assistance including fisheries population investigation, fish stocking, and fish habitat manipulation. There are nearly 300 community- and privately-owned waterbodies enrolled in this program.

**Fish Population Investigation and Other Research:** The KDWP collects fish population and aquatic community metrics, including rigorous studies on biota, habitat, and human use of fisheries to inform scientifically driven management actions. Employees with a background in scientific techniques, fisheries management, natural history, statistics, and/or study design conduct this research, and university partners are contracted for additional capacity. Research informs management, and new challenges require innovative solutions. This emphasis on data-driven decisions prevents anecdotal information and unquantified public pressure from guiding decision-making.

**Hatcheries and Fish Stocking:** KDWP operates four fish hatcheries (in Farlington, Meade, Milford, and Pratt) and a rearing pond at Woodson State Fishing Lake. This system provides approximately 43million juvenile and fingerling fish and 385,000 larger fish for stocking in Kansas public waters each year. Species raised include bluegill, channel catfish, crappie, largemouth bass, northern pike, rainbow trout, sunfish, sauger, saugeye, smallmouth bass, striped bass, wiper, and walleye. Supplemental fish of catchable size are also purchased from commercial sources to provide additional fish stocking for species unsuitable for Kansas hatcheries, such as channel catfish and rainbow trout.

## NARRATIVE INFORMATION—DA 400

Division of the Budget  
State of Kansas

Agency: 710 Kansas Department of Wildlife and Parks (KDWP)  
Program: **62000 Fisheries**

---

### FISHERIES EXPENDITURE JUSTIFICATION

---

#### Salaries and Wages

Summary: When fully staffed, the Fisheries division employs 56 full-time, benefits-eligible employees, including staff who operate four fish hatcheries, fisheries biologists distributed across the state, dedicated fisheries research, and aquatic invasive species technicians. Approximately 50 seasonals are employed each year to staff hatcheries during the growing season, stocking fish at waterbodies, and conducting surveys.

Current Year FY2026: \$5,281,725

Budget Year FY2027: \$5,321,275

#### Contractual Services

Summary: Primarily fishing access agreements with communities, counties, and private landowners to allow public access for no fees (beyond standard fishing licenses and permits.) Also includes maintenance and utilities at hatcheries, contracted university research, and widely distributed annual fishing regulation summaries and atlases.

Current Year FY2026: \$2,225,689

Budget Year FY2027: \$2,266,432

#### Commodities

Summary: Largest commodity purchases are fish food and purchase catfish and trout for public fishing (these fish cannot be raised in KDWP hatcheries.) Also includes fuel for vehicles and boats, scientific supplies to monitor water quality, inspect for disease, conduct research, and remove invasive species.

Current Year FY2026: \$1,427,955

Budget Year FY2027: \$1,386,600

#### Capital Outlay

Summary: Typically infrastructure repairs, hatchery alarm system maintenance, computers, and additional scientific tools and supplies. FY2027 includes replacements of a 30-year-old skid steer tractor at the Pratt fish hatchery, a fish hauling trailer, three outboard motors, and vehicles. Vehicles have historically been included in KDWP's Administration budget, but they are now more accurately distributed across program budgets.

Current Year FY2026: \$693,000

Budget Year FY2027: \$827,000

#### Aid to Locals/Other Assistance

Summary: State aid payments that provide matching funds to communities seeking grants to improve local waterbodies to benefit anglers, the fishery, and local communities. These essential projects include boat ramps, fishing docks, restrooms, and fish habitat improvements.

Current Year FY2026: \$200,000

Budget Year FY2027: \$200,000

## ECOLOGICAL SERVICES

KDWP's Ecological Services division works to actively conserve, protect, and enhance endangered, threatened, and nongame wildlife populations and their habitats, ensuring lasting native biological diversity and native ecosystems for future generations.

This work relies heavily on the leveraging of non-federal monies as matching funds for numerous federal grant programs that provide the funding opportunities vital for the conservation, protection, and enhancement of our native ecosystems and nongame wildlife populations. Federal grant funds cover the majority of this program's expenses. Amid federal grant program changes and uncertainty outside the control of KDWP, the prior year's federal grant funds were delayed or not awarded within the expected budget timeframe, resulting in reduced budget expenditures in FY2025.

Though delays were a cause for concern, federal grants that were applied for and delayed in FY2025 are now being awarded, in addition to the federal grant awards for new applications submitted during FY2026. The additional federal grant awards are reflected in a significant budget increase request for FY2026 and continuing in FY2027.

### ECOLOGICAL SERVICES KEY STRATEGIES

**Development Project Review & Permitting:** KDWP's Ecological Services division has modernized the review of development projects through the implementation of the online Ecological Review Tool. This tool has enabled project sponsors to achieve more immediate results for projects that will have no impact on habitats critical to species listed under the Kansas Nongame and Endangered Species Conservation Act. Projects that impact designated critical habitat still require manual staff review; however, this has allowed for the reduction in overall average response time for project sponsors and other coordinating agencies' permits. State Wildlife Grants from the U.S. Fish and Wildlife Service (65% federal/ 35% match from non-federal sources of funding) are used for this work. When or if grant funds are not available, this subprogram will be funded 100% from the Wildlife Fee Fund.

Not funding this work would have adverse impacts on critical habitat for state-listed threatened or endangered species and could lead to an additional decline in population levels, potentially resulting in the extirpation of the species from the state. Without the review and permitting process for impacts to species, additional species could be added to the federal list of threatened and endangered species, potentially removing the jurisdiction from the state to federal authority. Relevant statutory requirements include K.S.A 32-957 through 32-963; 32-1009 through 1012; 32-1033; 32-960a through 962b; and 82a-325 through 82a-327.

**Research, Surveys, and Monitoring of Wildlife & Habitat:** Conduct research, surveys, and monitoring of native Kansas wildlife species and their habitats. The large number of species under the authority of KDWP poses a challenge for managing species for which scientific data is lacking. The Ecological Services division leads efforts to obtain the most current scientific information on a wide diversity of nongame species. While typically focused on those species whose wildlife populations are showing decline, the need for data on even common species is vital for maintaining the state's wildlife diversity into the future. KDWP's Ecological Services division staff conduct surveys and monitoring of ecosystems in Kansas, and staff oversee research projects outsourced to universities and other qualified entities utilizing state and federal funding sources. This

## NARRATIVE INFORMATION—DA 400

Division of the Budget  
State of Kansas

Agency: 710 Kansas Department of Wildlife and Parks (KDWP)  
Program: **63000 Ecological Services**

---

work is funded through a variety of federal grants with matching requirements that vary: State Wildlife Grants (65 federal/35non-federal), Wildlife Restoration Grants (75/25), Section 6 Cooperative Endangered Species Conservation Fund (90/10 or 75/25), WNS (100/0). Partners on research grants typically waive their costs when addressing specific research needs.

Failing to fund this work could lead to the management of sensitive or imperiled wildlife populations, resulting in an increase in their listing status from state-listed to federally listed under the federal ESA. Habitat improvement is also a key component of wildlife management and vital for maintaining sensitive and imperiled wildlife populations, particularly in a state with predominantly private lands. A loss of funding would result in decreased habitat quality and an increase in the number of species listed as threatened or endangered, which would necessitate additional project reviews and impact development projects within Kansas. Relevant statutory requirements include K.S.A 32-957 through 32-963; 32-1009 through 1012; 32-1033; 32-960a through 962b; 79- 331d and 79- 3221e.

## ECOLOGICAL SERVICES EXPENDITURE JUSTIFICATION

---

### Salaries and Wages

Summary: When fully staffed, the Ecological Services division employs 16 full-time, benefits-eligible employees and 10-15 seasonal employees. In FY215, seasonal staffing expenses were low due to weather-related work delays and delayed federal awards for some species surveys. Many of those federally-funded surveys will resume in FY26, and other staffing increases are directly tied to additional federal grant awards.

Current Year FY2026: \$1,623,803

Budget Year 2027: \$1,641,307

### Contractual Services

Summary: Significant increases in FY26 for agreements with private landowners incentivizing wildlife habitat improvement and contracts with universities and other entities to conduct scientific surveys and research. Those expenses decrease in FY27 because U.S. Congress has not yet reauthorized two primary grant programs used for by this program. Also includes service and upgrades to Kansas Ecological Review Tool and staff travel.

Current Year FY2026: \$4,918,664

Budget Year 2027: \$3,325,100

### Commodities

Summary: Specialized scientific supplies, protective equipment/clothing for staff, and supplies to maintain fleet vehicles and buildings. Large one-time expense in FY26 to purchase native grass seed for prairie restoration and smaller increase in FY27 (as compared to FY25) to continue that restoration.

Current Year FY2026: \$286,000

Budget Year 2027: \$109,000

### Capital Outlay

Summary: FY26 includes purchase of large chemical sprayer for a grassland restoration research project in southwestern Kansas and replacement of electrofishing equipment at end of its useful life.

Current Year FY2026: \$103,000

Budget Year 2027: \$69,000

## EDUCATION

KDWP's Education section teaches Kansans how to safely enjoy the outdoors by hosting hunter and boater education programs, managing five nature centers across the state, and providing outdoor skills programs in Kansas schools. This division inspires a lifelong appreciation of Kansas's natural resources.

Many of KDWP's education programs introduce Kansans to the outdoors, targeting those who haven't traditionally experienced state parks, wildlife areas, state fishing lakes, or KDWP-sponsored programs. KDWP. But as hunting participation declines nationwide, Kansas has joined the Recruitment, Retention, and Reactivation (R3) program to reverse the trend. This approach includes providing new outdoors participants with "next steps" activities and information, enabling them to become self-reliant hunters, target shooters, boaters, and anglers. Other strategies work to retain and reactivate those who have stopped participating.

### EDUCATION KEY STRATEGIES

**Hunter Education:** Hunter education programs promote responsible hunter behavior, including compliance with hunting laws and regulations, and decrease hunting-related shooting incidents and other hunting injuries. While the program was established in 1973, KDWP has adapted to the evolving needs of Kansans and currently offers traditional, instructor-led courses; interactive online classes with a mandatory field day (the "hybrid" course); and an online-only course available only for those 18 and older. Wildlife Restoration Grants provide 75% of the funding for this program, with 25% in-kind match supplied through volunteer instructor hours. The loss of public education would increase the frequency of hunting incidents, leading to an increase in hunting-related injuries and fatalities. Reduced public exposure and instruction in hunting and fur harvesting will lead to reduced public opportunity and participation. Relevant statutory requirements include: K.S.A. 32-920 - 924, and 32-912 - 914.

**Boating Safety Education:** Kansas law requires all individuals under the age of 21 to complete an approved boater safety course to operate a vessel propelled by a motor or sail (such as a motorboat, PWC, sailboat, or sailboard) without direct adult supervision. KDWP offers three course formats: home study packet, online, and in-person classes. National Association of State Boating Law Administrators (NASBLA) standards require that all online courses be at least three hours in duration, and each section must be completed. Boater education is available to anyone, regardless of age, to prevent boating accidents and violations. Federal grants from the Recreational Boating Safety Program (administered by the U.S. Coast Guard) provide 50% of the funds for this program which is matched by KDWP's Boating Fee Fund. The lack of accessible safety instruction could lead to an increase in boating accidents, injuries, and fatalities. Reduced public exposure to safe boating practices would also diminish participation in boating activities as well as lead to greater enforcement burdens. Relevant Statutory requirements include: K.S.A. 32-1139 - 1143.

**Outdoor Skills Programs:** Outdoor skills programs, including the National Archery in the Schools and Student Air Rifle programs, reach 4th-12th-grade students in physical education classes. KDWP staff (one full-time and three part-time) organize and conduct "train the trainer" courses for schools to implement these national programs. Federal Hunter Education Program grants provide 75% of funding, matched by 25% from KDWP's Wildlife Fee Fund. The Becoming an Outdoorswoman (BOW) program inspires outdoor learning, participation, and advocacy in women through hands-on learning opportunities provided by enthusiastic volunteer instructors in a supportive, low-pressure environment. Participant registration offsets the cost of the BOW program.

## NARRATIVE INFORMATION—DA 400

Division of the Budget  
State of Kansas

Agency: 710 Kansas Department of Wildlife and Parks (KDWP)  
Program: **64000 Education**

---

**Shooting Ranges:** KDWP's Education section leads the construction and operation of modern gun and archery ranges for anyone to learn safe gun handling and improve their shooting skills. Shooting ranges are limited in Kansas and in high demand. KDWP is prioritizing the construction of new ranges and renovation of existing ranges to provide supervised facilities that are safe, welcoming, and conveniently located. These capital improvement projects are funded by the federal Hunter Education Program and R3 grants which are generally used at either 75% or 90% rates matched by KDWP's Wildlife Fee Fund.

**Wildlife Education:** Nine full-time employees provide educational programming at five nature centers and in communities statewide, equipping current and future stakeholders with the knowledge and tools to make informed decisions that protect Kansas's natural environment and the wildlife that depend on it. A contract with the Kansas Association for Conservation and Environmental Education (KACEE) increases education efforts for wildlife conservation and natural resources in the school setting.

## EDUCATION EXPENDITURE JUSTIFICATION

---

### Salaries and Wages

Summary: When fully staffed and funded, the Education section employs 15 full-time, benefits-eligible employees who coordinate and support the agency's outreach and education goals and operate nature centers.

Current Year FY2026: \$1,513,525

Budget Year FY2027: \$1,523,721

### Contractual Services

Summary: Printed educational materials and contract fees for partnerships. Also includes utilities and repairs for nature centers and significant in-state travel for events and meetings.

Current Year FY2026: \$572,990

Budget Year FY2027: \$604,820

### Commodities

Summary: Purchase of educational and science items for sale in gift shops, supplies to care for exhibit animals, classroom supplies, and other supplies for educational programs (ex. clay targets, archery equipment.)

Current Year FY2026: \$382,985

Budget Year FY2027: \$410,405

### Capital Outlay

Summary: Typically includes annual purchases for firearms, gun training sets, clay target throwers, etc.) Additional expenses in FY26 & FY27 for equipment trailers. Vehicles have historically been included in KDWP's Administration budget, but they are now more accurately distributed across program budgets.

Current Year FY2026: \$52,275

Budget Year FY2027: \$100,085

### Aid to Locals/Other Assistance

Summary: State aid payments fund Outdoor Wildlife Learning Sites (OWLS) at schools and in communities to provide additional educational areas.

Current Year FY2026: \$10,000

Budget Year FY2027: \$10,000

## LAW ENFORCEMENT

KDWP's Law Enforcement Division enforces state and federal fish and wildlife laws, boating laws, and public lands regulations. They carry out these enforcement activities on both private and publicly owned lands within the state. In addition to these primary responsibilities, KDWP officers also support federal, state, and local law enforcement agencies as needed, such as in warrant service and arrest of wanted fugitives, enforcing controlled substance laws, and responding to emergency management situations. Game wardens also play an active role in education and safety programs. KDWP's Wildlife Fee Fund is used for the vast majority of Law Enforcement expenses. Law enforcement activities are not eligible for the Wildlife Restoration and Sport Fish Restoration grants that fund much of KDWP's work.

### LAW ENFORCEMENT KEY STRATEGIES

**Regional Operations:** Natural Resource Officers, commonly referred to as Game Wardens, continually refine their enforcement strategies to align with public expectations and effectively utilize available resources. These officers are required to remain informed about advancements in forensic science, computer technology, emergency response techniques, human behavior, and public relations, which they achieve through specialized training provided by accredited institutions. All Game Wardens must complete a comprehensive 14-week basic law enforcement training program at the Kansas Law Enforcement Training Center. Furthermore, these officers undergo extensive additional training focused on wildlife and boating law enforcement, as well as departmental and divisional protocols. The Special Investigative Unit identifies and investigates individuals engaged in large-scale, high-profile, and intentional wildlife offenses that have a significant impact on the wildlife resources of Kansas. Prosecutions are then pursued by local, state, or federal authorities with KDWP's evidence and expert testimony.

**K-9 Operations:** The K-9 program includes ten Labrador retrievers paired with a "handler" officer strategically stationed across the state. These teams are specifically trained to detect concealed game, firearms, and shell casings related to road hunting and spotlighting incidents. Furthermore, they play a vital role in locating lost hunters and apprehending poachers who attempt to evade law enforcement. The K-9 units are frequently requested by both state and local law enforcement agencies to provide their specialized assistance and expertise.

**Emergency Preparedness:** KDWP's Law Enforcement division fulfills a critical supportive role within the framework of the State of Kansas' Emergency Management Response. Officers from this division are frequently deployed to address gaps in law enforcement during emergencies, providing specialized equipment and expertise as required. This assistance encompasses a variety of functions, including traffic control, maintaining a law enforcement presence in areas where local law enforcement resources may be occupied, transportation of essential personnel during emergencies, and the provision of specialized equipment and operators to facilitate effective emergency responses. In instances of natural disasters, KDWP's Law Enforcement division is responsible for deploying watercraft and operators to support search and rescue operations. Furthermore, the division is tasked with managing law enforcement water responses associated with potential incidents at the Wolf Creek Nuclear Power Plant, situated in Coffey County. Law Enforcement officers possess a broad array of knowledge, skills, and expertise across multiple disciplines. This extensive expertise is frequently leveraged not only by local law enforcement agencies but also by various other Kansas state agencies during emergency response initiatives.

## NARRATIVE INFORMATION—DA 400

Division of the Budget  
State of Kansas

Agency: 710 Kansas Department of Wildlife and Parks (KDWP)  
Program: **65000 Law Enforcement**

---

**Boating Safety Law Administration:** KDWP's Law Enforcement division is tasked with patrolling the waters of Kansas, enforcing boating regulations, and conducting investigations related to boating accidents. An annual grant from the United States Coast Guard provides 50% reimbursement for activities related to recreational boating safety. KDWP utilizes the Boating Fee Fund, funds generated from the sale of boat registrations in Kansas, to fulfill these responsibilities. Officers also ensure that state laws are updated in accordance with modifications to federal boating regulations.

## LAW ENFORCEMENT EXPENDITURE JUSTIFICATION

---

### Salaries and Wages

Summary: When fully staffed, the Law Enforcement division employs 91 full-time, benefits-eligible employees including law enforcement officers and administrative staff. Salary increases include promotion of two additional officers to the rank of Major. Includes overtime for officers responding to wildlife crimes and boating accidents and the predicted need to support World Cup events in the Kansas City and Lawrence area.

Current Year FY2026: \$8,863,890

Budget Year FY2027: \$8,896,558

### Contractual Services

Summary: Reliable communications supporting a mobile command center (ex., cell phones, pagers, and mobile data) are essential. Also includes maintenance and repairs of vehicles and boats, rental of dedicated, secure parking for law enforcement boats (boat slips), and veterinary care for K-9s.

Current Year FY2026: \$988,115

Budget Year FY2027: \$1,119,908

### Commodities

Summary: Fuel for vehicles is majority (72%) of commodity expenses and includes cooperation with the Kansas Department of Transportation to utilize their fueling stations to receive a discount not otherwise available to KDWP.

Current Year FY2026: \$814,798

Budget Year FY2027: \$820,975

### Capital Outlay

Summary: Vehicles and equipment to support game wardens and specialty units (ex., K-9 teams, special investigations, and hunter incident teams). FY2027 includes the necessary replacement of aging boating equipment (ex., boats, trailers, and motors) and the replacement of duty weapons division-wide, which are nearing the end of their lifespan, and the upgrade to 9mm firearms, as carried by most other state fish and wildlife agencies. Vehicles have historically been included in KDWP's Administration budget, but they are now more accurately distributed across program budgets.

Current Year FY2026: \$1,816,474

Budget Year FY2027: \$1,970,194

## STATE PARKS

KDWP's State Parks division delivers safe and enjoyable outdoor experiences to millions each year. Parks staff maintain and operate 29 state parks featuring more than 10,000 campsites and 543 miles of walking, hiking, and bicycle trails. This division also presents hundreds of family-friendly special events each year.

Kansas State Parks are funded primarily through the sale of park entrance permits and campsite and cabin rental fees. Neither the Park Fee Fund nor the Cabin Fee Fund can be used for any purpose unrelated to State Parks. Relevant statutory requirements include: K.S.A. 32-991 and 32-999. State Economic Development Incentive Funds also account for approximately 24% of Kansas State Park operations.

Federal grants, typically at a 50% federal/50% non-federal match rate, are used for some projects both at Kansas State Parks and granted out to communities. The Land and Water Conservation Fund is used for high-priority local and state outdoor recreation projects with measurable public health, economic, and environmental benefits. The Recreational Trails Fund supports the connectivity, accessibility, and sustainability of recreational trails.

### STATE PARKS KEY STRATEGIES

**Quality Recreation and Excellent Customer Service:** KDWP must keep pace with rising expectations for outdoor recreation. Visitors increasingly seek diverse experiences, modern amenities, and high-quality customer service. Without adapting, the division risks losing relevance. The opportunity lies in leveraging Kansas' natural resources to offer exceptional, memorable outdoor experiences that attract new audiences while strengthening loyalty among current users. By pairing high-quality recreation with excellent customer service, KDWP's Parks Division creates positive visitor experiences that increase satisfaction, repeat use, and tourism dollars. This positions Kansas parks as a key driver of community vitality and economic impact across the state.

**Safe, Sanitary, and Sustainable Facilities:** Much of the State Parks' infrastructure is aging, with deferred maintenance projects needing to be addressed. KDWP must reinvest strategically in facilities, ensuring they meet modern standards, protect public health, and remain sustainable for future generations. Ensuring safe and sustainable facilities fosters public confidence, protects the safety of staff and visitors, and preserves the value of taxpayer-owned assets.

**Public Health, Safety, and Resource Protection:** As visitation increases, Kansas State Parks must strike a balance between recreation, public safety, and conservation. Increased use of facilities creates law enforcement challenges and puts pressure on natural ecosystems. KDWP is working to position Kansas parks as both safe destinations and models of natural resource stewardship, with a strengthened on-the-ground staff presence, expanded educational outreach, and enhanced conservation practices.

**Partnerships, Volunteers, and Community Engagement:** Limited resources and growing demand make partnerships essential. KDWP cannot do it alone, and the State Parks division is strengthening partnerships with Friends groups, volunteer organizations, and local municipalities. Activating Kansas' strong culture of volunteerism, collaboration, and outdoor pride will multiply KDWP's impact, building a shared sense of ownership in public lands, creating lifelong park users, and ensuring sustainable, community-supported outdoor recreation across Kansas.

## NARRATIVE INFORMATION—DA 400

Division of the Budget  
State of Kansas

Agency: 710 Kansas Department of Wildlife and Parks (KDWP)  
Program: **66000 Parks**

---

### STATE PARKS EXPENDITURE JUSTIFICATION

---

#### Salaries and Wages

Summary: When fully staffed, the State Parks division employs 119 full-time, benefits-eligible employees and approximately 175 temporary employees who manage state-owned physical property, infrastructure, and public safety on 29 state parks.

Current Year FY2026: \$11,471,763

Budget Year FY2027: \$11,535,160

#### Contractual Services

Summary: The largest expenses are for utilities for state park buildings and camp sites with utility hookups. Also includes infrastructure maintenance and repairs.

Current Year FY2026: \$4,719,867

Budget Year FY2027: \$4,754,763

#### Commodities

Summary: Includes fuel for fleet vehicles and equipment, propane for heating buildings, and building materials and supplies for maintaining and operating state park facilities.

Current Year FY2026: \$2,365,596

Budget Year FY2027: \$2,354,947

#### Capital Outlay

Summary: Primarily trucks and heavy equipment (skid steers, excavators, tractors, and mowers) for maintaining Kansas state parks and computers and related technology. Several vehicles and mowers at end of service life require replacement. Vehicles have historically been included in KDWP's Administration budget, but they are now more accurately distributed across program budgets.

Current Year FY2026: \$777,000

Budget Year FY2027: \$612,000

#### Aid to Locals/Other Assistance

Summary: Land and Water Conservation Fund and Recreational Trails Program grants which are funded 100% by federal pass-through grants.

Current Year FY2026: \$4,660,000

Budget Year FY2027: \$4,660,000

## NARRATIVE INFORMATION—DA 400

Division of the Budget  
State of Kansas

Agency: 710 Kansas Department of Wildlife and Parks (KDWP)  
Program: **67000 Public Lands**

---

### PUBLIC LANDS

KDWP's Public Lands division manages approximately 460,000 acres of public land and water, providing diverse habitats for Kansas' wildlife species. Of the 177 properties managed by the Public Lands division, there are 45 state fishing lakes, 75 wildlife areas, 23 state-owned public domains, 31 leased federal properties (including 22 federal reservoirs), and three privately owned leased properties.

This work dates back to 1926 when the first state fishing lakes were constructed at Neosho and Meade. The first public land acquisition occurred in 1939 for the Finney Game Refuge, and in 1942, the acquisition of land for public hunting access began at Cheyenne Bottoms.

Federal Wildlife Restoration and Sport Fish Restoration grants are used for much of the Public Lands expenses at a rate of 75% federal funds matched with 25% from KDWP's Wildlife Fee Fund. Significant expenditures include vehicles and equipment that are replaced according to schedules and prioritization. Temporary and seasonal employees will supplement the workload placed on FTEs during heavy use periods and activities that require assistance. Relevant statutory requirements include: K.S.A. 32-702 and 32-827 through 829.

KDWP's Public Lands division also contracts agricultural activities on land licensed from the U.S. Army Corps of Engineers, Bureau of Reclamation, and state lands. Revenue generated from these activities is placed in separate Agricultural Fee Funds for each property. Federal landowners require revenue to be returned to the area within five years for wildlife benefit and proper land stewardship.

### PUBLIC LANDS KEY STRATEGIES

---

**Public Hunting and Fishing Access:** KDWP's Public Lands division operates and maintains 460,000 acres of land that receive four million visitation-days by hunters, anglers, and wildlife viewers each year. Staff continually work to provide safe and sanitary facilities and maintain complex infrastructure such as dams, dikes, pumps, restrooms, roads, and parking lots.

**Wildlife and Habitat Management:** In addition to managing public land infrastructure for visitors, KDWP's Public Lands staff maintain and/or improve wildlife habitat at these properties to ensure stable wildlife populations of both game and non-game species. Land management techniques include prescribed fire, chemical vegetation control, agricultural practices (farming and grazing), seeding and planting, water level manipulation, and range management.

**Special Hunts:** Special Hunts provide additional hunting opportunities because they are conducted on land not ordinarily open to unrestricted hunting and can include state parks, wildlife areas, wildlife refuges, and other private or public properties. The number of participants is restricted to ensure quality experiences, alleviate safety concerns, or achieve specific management goals such as herd reduction. Each hunt has its own restrictions and is available at no cost through computerized random drawings.

## NARRATIVE INFORMATION—DA 400

Division of the Budget  
State of Kansas

Agency: 710 Kansas Department of Wildlife and Parks (KDWP)  
Program: **67000 Public Lands**

---

### PUBLIC LANDS EXPENDITURE JUSTIFICATION

---

#### Salaries and Wages

Summary: When fully staffed, the Public Lands division employs 54 full-time, benefits-eligible employees who manage state-owned wildlife areas and state fishing lakes, maintain infrastructure, and provide public safety. State agricultural funds that are restricted by location are the primary source of funding for 100 additional, temporary employees each year.

Current Year FY2026: \$5,954,584

Budget Year FY2027: \$6,038,618

#### Contractual Services

Summary: Contracts for habitat management, infrastructure maintenance, heavy equipment rental and servicing, and upkeep for agency-owned equipment. Increases will be offset by an opportunity to use federal grants at a 75% federal/25% non-federal match ratio (as opposed to a 50/50 split in recent years.)

Current Year FY2026: \$4,268,534

Budget Year FY2027: \$4,244,583

#### Commodities

Summary: Fuel for fleet vehicles and equipment, utilities for buildings, and general materials and supplies to maintain and operate public lands and associated infrastructure statewide. Also includes agricultural chemicals and other supplies. Increases will be offset by an opportunity to use federal grants at a 75% federal/25% non-federal match ratio (as opposed to a 50/50 split in recent years.)

Current Year FY2026: \$3,406,571

Budget Year FY2027: \$3,361,078

#### Capital Outlay

Summary: Repairs and replacements of fleet vehicles and heavy equipment for land management on public lands throughout the state. Some FY2026 fleet replacements have been deferred to FY2027. Also includes staff computers. Increases will be offset by an opportunity to use federal grants at a 75% federal/25% non-federal match ratio (as opposed to a 50/50 split in recent years.) Vehicles have historically been included in KDWP's Administration budget, but they are now more accurately distributed across program budgets.

Current Year FY2026: \$1,563,363

Budget Year FY2027: \$2,249,863

#### Aid to Locals/Other Assistance

Summary: Funds claims against the state for property damage or other loss when public lands management accidentally impacts neighboring property.

Current Year FY2026: \$42,856

Budget Year FY2027: \$45,000

**WILDLIFE**

KDWP's Wildlife division conserves wildlife and its habitats on both public and private land. Wildlife biologists monitor wildlife populations, support habitat improvement, and conduct research to inform state wildlife regulations. This division also coordinates the voluntary walk-in hunting access (WIHA) program that opens 1.1 million acres of private land for hunting use. Federal Wildlife Restoration Grants matched with KDWP's Wildlife Fee Fund at a rate of 75% federal/25% non-federal funds most of this division's work. Relevant statutory requirements include K.S.A. 32-702 and 703.

**WILDLIFE KEY STRATEGIES**

**Wildlife Management Research:** Managing for the sustainable use and enjoyment of our wildlife resources requires monitoring the status of those resources, identifying problems, and formulating solutions. KDWP actively measures and analyzes trends in big game, upland game birds, migratory game birds, furbearers, and wildlife diseases. Surveys are conducted with hunters, landowners, and the public to obtain information on harvest, hunter success, and public opinions. Information obtained from these monitoring efforts and surveys then provides the basis for objective administration of seasons, permit quotas, regulations, and management program planning. This information is critical to the development of recommendations for regulatory modifications. Failure to fund this work could lead to the mismanagement of wildlife resources due to uninformed management decisions and significant negative economic impacts from a decrease in hunting opportunities.

**Habitat Management:** Continuously and appropriately managed habitat is key to maintaining healthy wildlife populations. Many grassland-obligate species have realized detrimental impacts from land-use changes in Kansas over time. Woody encroachment, conversion to cropland, intensive grazing of rangeland, and intensity or type of agricultural practices on the landscape all contribute to habitat loss. KDWP works with private landowners, assisting with the development of wildlife habitat management plans, equipment loans for the installation of habitat improvement practices, and financial assistance through cost-share incentives to improve wildlife habitat with the Habitat First program. Wildlife staff also advise and assist landowners with opportunities for enrollment in federal habitat and agricultural assistance programs. Private lands habitat improvement is a critical component of wildlife management and maintaining stable wildlife populations in Kansas. A lack of funding would result in decreased habitat quality, decreased wildlife populations, and decreased hunting opportunities.

**Recreational Access Opportunities:** Access has been identified as the number one barrier to the recruitment and retention of hunters. Because Kansas has very limited public lands, providing recreational access opportunities on private lands is of utmost importance. As the leasing of land for hunting access has become more common, those who are unable to pay for this valuable commodity are at a significant disadvantage. In 1995, the Walk-In Hunting Access (WIHA) program was initiated to alleviate this issue and quickly grew to be one of the most successful private lands access programs in the nation. Through the WIHA program, KDWP leases land from landowners who are willing to open their property to the public for hunting. More than one million acres of private land are made available for public hunting each year through WIHA. Losing these access acres would greatly decrease hunter participation, which would have a significant negative economic impact and increase overcrowding of state-owned and managed wildlife areas.

## NARRATIVE INFORMATION—DA 400

Division of the Budget  
State of Kansas

Agency: 710 Kansas Department of Wildlife and Parks (KDWP)  
Program: **69000 Wildlife**

---

### WILDLIFE EXPENDITURE JUSTIFICATION

---

#### Salaries and Wages

Summary: When fully-staffed, the Wildlife division employs 46 full-time, benefits-eligible employees and 18-22 temporary employees. Seasonal staff are used mainly in the summer months for habitat improvement, research and survey assistance, and posting signage.

Current Year FY2026: \$4,421,561

Budget Year FY2027: \$4,455,421

#### Contractual Services

Summary: Primarily access agreements with private landowners who allow public hunting access (ex., Walk-In Hunting Access/WIHA, Voluntary Public Access/VPA, and special hunts). Also includes cost-share incentive payments to private landowners for wildlife habitat improvement, contracted university research, and out-of-state travel to facilitate regional partnerships and other collaboration across state lines. Decreases are reflective of the lack of a federal Farm Bill to support VPA and a reassessment of ongoing and new research projects.

Current Year FY2026: \$9,717,588

Budget Year FY2027: \$9,551,270

#### Commodities

Summary: Fleet vehicle and equipment maintenance is large portion of this expense (ex. fuel, supplies, parts, and repairs.) Also includes signage for properties enrolled in KDWP wildlife programs.

Current Year FY2026: \$391,631

Budget Year FY2027: \$392,159

#### Capital Outlay

Summary: Vehicles, large equipment, tools, and scientific supplies. Includes replacement of some ATV/UTVs and agricultural implements that are loaned to cooperators for habitat improvement. Vehicles have historically been included in KDWP's Administration budget, but they are now more accurately distributed across program budgets.

Current Year FY2026: \$359,631

Budget Year FY2027: \$358,700
